

Assignments & Resources

Last Modified on 12/14/2025 8:45 pm CST

Advanced assignment tools are available as part of the [Campus Learning](#) premium offering and require the *Enhanced Curriculum Editor* tool right, including the Summary, Attach Content, and Add a Task areas of the Assignment editor.

Location: Click Add or List button in tools throughout Instruction, including Grade Book, Planner > My Planner, Assignment Overview, and Progress Monitor

Access assignments in various places throughout Instruction. Regardless of what tool you're in, the editor looks the same.

Available Actions

Create

Create an assignment or resource anywhere you see an Add button (in the Planner, it's called *New*)

Click +Add to add an assignment, or click the arrow on the right of the button to add a [Folder](#) or a Resource, or to add an assignment starting with a Discussion, Quiz, or Submission.

[Categories](#) must exist before assignments can be created.

Modify

To modify an assignment, open it by clicking the name or abbreviation and then click the Edit button

Click Edit to modify the item, or click the arrow on the right of the button to move the assignment to a different folder or delete it.

When editing an item that is in multiple sections, you'll have the option of whether changes should be made to all instances or just the current one.

Access to assignments requires tool rights to a grading tool, such as Grade Book, Planner, or Progress Monitor. Additionally, the **Enhanced Curriculum** tool right in Additional Access Rights > Instruction Tools grants access to advanced assignment options.

See the [Instruction Tool Rights](#) article for more information.

Other Edit Options

Click the arrow next to the edit button to access other options:

Duplicate

Creates a [duplicate](#) of the current item.

Move

Allows you to select a different parent folder in the curriculum structure.

Delete

Removes the current item. Be careful when deleting assignments that have scores.

Everything moved, help!

Recent improvements included redesigning the assignment editor. But don't worry, it's the same fields, just in different places. Expand below for a comparison of the old assignment editor and the new one:

► [Click here to expand...](#)

Legacy Assignment Editor

- | | |

| 1 Title | 6 Sequence |
| 2 Visible to Class | 7 Category |
| 3 Dates | 8 Standards/Grading Task |
| 4 Which Students | 9 Scoring Type |
| 5 Abbreviation | 10 Which Sections |

NEW Assignment Editor

What are Resources?

Resources are, essentially, assignments that will not be scored. They allow teachers to share information with parents and students within the context of section curriculum.

When creating an item, toggle **Grading** on to make it an assignment, or off to make it a resource. Because resources are not scored, they do not display in the Grade Book.

Ideas for Resources:

- Share the syllabus for your course so that students can find it easily.
- Collect readings and other reference materials.
- Post a PDF of a sample [Scoring Rubric](#).
- Poll students using an informal [quiz](#).

Resources can be grouped within whatever [folder](#) structure you use to manage your curriculum. Consider creating a *Course Resources* folder to collect section-wide or often used materials, such as a syllabus.

Content, Details, and Reflections

Assignments and resources are made up of three tabs:

- **Content:** Information such as Dates, Grading, and the content of the assignment. This article describes this tab.
- **Details:** Metadata used when [sharing](#) curriculum to the [Curriculum Library](#). See the [Curriculum Details](#) article for more information.
- **Reflections:** Records of how curriculum was used in your class. See the [Reflections](#) article for more information.

Areas of the Editor

Every assignment or resource needs a **Title**. Let's walk through each of the sections in the assignment editor:

[Advanced Features](#) | [Individualized Assignments](#)

In a hurry? Don't have Campus Learning or the *Enhanced Curriculum Editor* tool right? See [The Basics: Assignments](#).

Section Settings

The screenshot shows the 'Section Settings' form. It includes a 'Visible to Class' toggle switch set to 'ON'. Below this are 'Start Date' and 'End Date' fields, each with a date picker and a time picker. The 'Start Date' is set to 5/3/2023 at 12:00 AM, and the 'End Date' is set to 5/3/2023 at 11:59 PM. There is a 'Students' section with an 'All Assigned' button. At the bottom, there is a 'Release Scores' section with a radio button for 'On Score Save' selected, and another radio button for 'On' with a date and time picker set to 5/4/2023 at 6:00 PM.

Visible to Class indicates if this item is visible on [Campus Student](#) and [Campus Parent](#). Click the Preview button at the bottom of the editor to see what the assignment will look like for parents or students.

Start and **End Dates** default to today. Click the date to type or select another day. To set both dates easily, click the date to open the calendar, then click the Start Date you want and then the End Date, without closing the calendar. Dates are not required if Grading is toggled off.

To enter a time, such as for a [quiz](#) only available during a class period, click the clock icon.

By default, an assignment is available to all students in a section. To change this, click the **All Assigned** button next to **Students**. From here, select an existing [student group](#) or use the *Assigned* checkboxes to indicate which students should be assigned. All students not assigned will be marked as *Exempt* on the assignment. Campus Learning customers can also individualize dates for students. See the [Individualized Assignments](#) section for more information.

The **Release Scores** setting determines when an assignment's score will be visible to parents and students. Leave the **On Score Save** option selected to keep scores visible as soon as they are entered. Or select a date for **Release Scores On** to schedule when scores will be made available to parents and students. This date must be after the End Date entered for the assignment. See the [Release Scores](#) article for more information about this option.

Grading

If **Grading** is toggled on, you're working on an assignment. If Grading is off, it's a resource.

Include in Grade Calculation is marked by default - unmark this checkbox if the assignment will be scored but that score should not be included when calculating grades, such as for a practice test. If not marked, the assignment displays with an * in scoring screens like the Grade Book and Progress Monitor.

The **Abbreviation** for the assignment populates as you enter a title. The **Sequence** defaults to 1. Modify if desired, up to 7 digits: XXXXX.XX. The abbreviation is used to identify assignments in the Grade Book and the sequence is used to [sort](#).

Grading alignments display in collapsible sections, with basic information in the heading.

Select a **Category** for the assignment. [Categories](#) are groupings of related assignments, such as *Homework* or *Formative*.

If **Default Scoring** options are setup for a category, the Scoring Type, Points, and/or Multiplier may auto-populate based on the category selected. These details are still editable. See the [Categories](#) article for more information.

Standards and **Grading Tasks** are item to which grades are posted. The Standard/Task of your current context, such as what's selected in the Grade Book, is selected by default. Only alignments available in your current section display.

Select a **Scoring Type** to indicate how the assignment will be scored. Options are:

Grading ON

Include in Grade Calculation ☒

+ Add Standard/Task

Scoring Rubric i

Add Scoring Rubric

Select applicable grading information for the assignment.

- **Points:** Enter the **Points** possible for the assignment.
- **Marks:** Select a set of [Assignment Marks](#) created by you or your district. With Marks, the Point value entered determines the student's score based on the % entered for each mark.
- **Rubrics:** (Standards only) Select Rubric to use the [rubric](#) aligned to each [standard](#) to score the assignment.

If desired, change the **Multiplier** if using points or marks, which determines how the assignment affects students' grades. For example, a 50 point assignment with a Multiplier of 2 counts as a 100 point assignment.

Add additional scoring alignments by clicking **Add Standard/Task**. Multiple alignments are most commonly used in standards-based grading, where a single assignment may demonstrate mastery in multiple standards.

The Add Scoring Rubric button displays for Campus Learning users who have the *Enhanced Curriculum* tool right. Scoring Rubrics allow teachers to communicate expectations for assignments with students and evaluate how well student work met those expectations. See the [Create Scoring Rubrics](#) article for more information.

Other Sections/Schedules

Adding an assignment to other sections is only available once the assignment has been saved.

To add the assignment to other sections, click **Add/Edit** and then the **Add Sections** button:

Reading Check - TKAM Part 2 Co

Section Selector

Term: 2, Period: All, Course/Section Groups: All

| Section | Folder |
|-------------------------|--------|
| 1) 3600-4 AP Literature | None |

- 3) 3200-12 English 10 [Add]
- 4) 3700-2 American & British Literature [Add]
- 6) 3200-13 English 10 [Add]
- 7) 3100-11 English 9 [Add]
- [Add All]

Existing Schedules

- 1) 3600-4 AP Literature

Save Changes, Add Sections, Cancel, OK, Cancel

Add the assignment to other sections you teach.

Filter this section list by Term, Period, or Course/Section Groups at the top.

Click **Add** next to any section to add it to the assignment.

Any sections that already include this assignment are listed at the bottom in **Existing Schedules**.

Click **OK** when finished.

Why can't I select some of my sections?
Your district may have marked the *Courses Only Curriculum* checkbox for your course, which means that any assignment aligned to that course can only be aligned to other sections of the same course.

Once added to the list, make any needed updates to each instance of the assignment, including the [Folder](#) (Campus Learning only), whether it's Visible on Campus Student & Parent, the Start/End Dates, and the Grading setup. By default these fields match the original assignment.

| Section | Visible | Start Date | End Date | Students | Grading Setup | Folder |
|---|-------------------------------------|-------------------|-------------------|--------------|---------------|-----------|
| 6) 3200-10 English 10 | <input checked="" type="checkbox"/> | 5/3/2023 12:00 AM | 5/3/2023 11:59 PM | All Assigned | 100 Points | None Edit |
| 1) 3600-4 AP Literature | <input checked="" type="checkbox"/> | 5/3/2023 12:00 AM | 5/3/2023 11:59 PM | All Assigned | 100 Points | None Edit |
| 3) 3700-4 American & British Literature | <input checked="" type="checkbox"/> | 5/3/2023 12:00 AM | 5/3/2023 11:59 PM | All Assigned | 100 Points | None Edit |

Modify assignment information for each instance, if desired.

Click the red X next to a section to remove the assignment from it. Sections cannot be removed if the assignment has already been scored.

Note: Previously, assignments had to have the same grading setup across sections. In the new assignment editor, grading setup can be different in each instance of the assignment, including the task/standard, the category, and the scoring information.

Click the blue scoring link ("100 points" in the example image above) to view and modify [Grading](#) information for that instance.

Click **Save Changes** when finished. The Other Sections/Schedules area now lists other sections that include this assignment.

Advanced Features

If your district has Campus Learning and has given you the *Enhanced Curriculum Editor* tool right, additional features display for assignments and resources.

Summary & Notes

The **Summary** is a text field where you can enter any information about the assignment that would be helpful to students, such as instructions, objectives, and lesson materials.

- Format the text as desired, including bold/italics, text colors, or bullets and numbering in the ¶ menu.
- You can also add links, tables, images by clicking those icons in the editor.
- Click the equation button to build a math equation using common mathematical operators, characters, and formulas.
- Click the + button to see options for embedding videos, special characters, or any other embeddable content enabled by your district.

Content in the Summary panel displays for students and parents (if the assignment is Visible) just as you see it here in the editor.

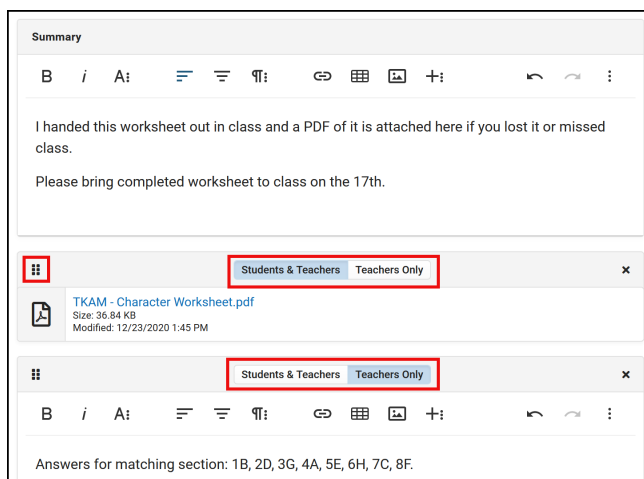

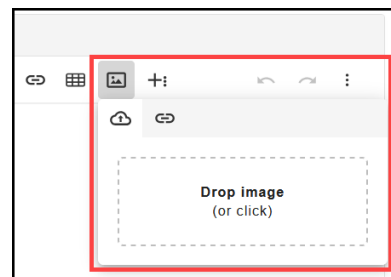

Notes are additional text fields, which can be helpful for grouping entered content, slotting text between other attachments and tasks, and adding information that is only visible to other teachers.

Adding Images

To add an image, click the  and select a method for attaching an image:

- Cloud icon: Drag and drop an image file or click the dotted square to select a file on your computer to add. This option requires the [Digital Repository](#) to be enabled.
- Link icon: Enter a link for an image hosted elsewhere on the web. Use this option if the Digital Repository is not enabled.

If you copy and paste an image into a text editor, the image is automatically uploaded to the Digital Repository if it is enabled.

The Summary always displays above any additional content added to the assignment, such as files or notes.

If multiple attachments, notes, or tasks are added below the Summary, they can be rearranged by clicking the dots icon in the top left corner and dragging the segment into the desired order.

The Summary is visible to anyone who can see the assignment. Other attached content and notes can be visible to **Student & Teacher** or to **Teachers Only**, which may be a helpful option for content such as an answer key.

Click the **Preview** button at the bottom of the editor to see how the assignment will appear for students.

Attach Content

Various options may be available in the [Attach Content](#) section, based on your district/schools setup. Options include:

- [File](#)
- [Google Drive](#)
- [Learning Tool](#)
- [Notes](#)

Add a Task

Additional tasks can be aligned to an assignment or resource. Check out the following articles for more information:

- [Discussion](#)
- [Quiz](#)
- [Submission](#)

Individualized Assignments

Individualizing assignments allows teachers to specify which students receive an assignment and each student's Start and End Dates. Assignments can be assigned to select students, as in the case of remedial or advanced work. Start and End Dates can also be individualized to give students the time they need to complete assignments. Quiz timers can also be individualized.

See the [Individualized Assignments](#) for more information.
