Tool Search: ID History

The ID History tool is a read-only view of a person's ID history. Any change/creation within Campus which results in creation or change to a person's Local Student Number, Student State ID, Student NASIS ID, Local Staff Number or Staff State ID is recorded and displayed within this tool.

ID History

ID Modifications

The ID History tool displays six fields for identifying what change was made, who made the ID change, when did it occur and which ID is currently active.

Field	Description
ID Field (i.e., Student State ID, Local Student Number, etc)	Indicates the ID number for historical record. This allows users to identify how an ID has been modified over time as well as which ID is currently active. These fields display on the Demographics tool.
Start Date	The date in which the ID modification was made and became the person's active ID. This date along with the End Date allows users to determine the date range in which the ID was active.

Field	Description
End Date	The date in which the ID was ended. This date along with the Start Date allows users to determine the date range in which the ID was active.
Modified By	Indicates the Campus user who made the ID modification. This field allows users to track who made ID modifications within Campus.
Active	Indicates which ID is currently active. This value is the same as active Person Identifier values (Census > People > Demographics > Person Identifiers).
Comments	Indicates how the ID modification occurred (i.e., Demographics tool, conversion script, Student Locator, etc).

ID Types

ID	Description
Local Student Number	All modifications to a student's Local Student Number are displayed on the ID History tool. The ID History tool tracks all Local Student Number changes regardless of the tool used to make the modification.
Student State ID	<p>All modifications to a student's Student State ID are displayed on the ID History tool.</p> <p>The ID History tool tracks all Student State ID changes regardless of the tool used to make the modification. Student State IDs are modified via the Demographics tool, imported data or the Combined Person tool (currently unavailable to users).</p> <p>Districts linked to a State Edition cannot modify Student State IDs. Student State ID modifications must be made at the state level.</p>
Student NASIS ID	<p>All modifications to a student's Student NASIS ID are displayed on the ID History tool. Student NASIS IDs can only be modified at the state level.</p> <p>This field is BIE-specific.</p>
Local Staff Number	<p>All modifications to a staff member's Local Staff Number are displayed on the ID History tool.</p> <p>The ID History tool tracks all Local Staff Number changes regardless of the tool used to make the modification.</p>

ID	Description
Staff State ID	<p>All modifications to a staff member's Staff State ID are displayed on the ID History tool.</p> <p>The ID History tool tracks all Staff State ID changes regardless of the tool used to make the modification.</p>
