County Setup

Last Modified on 08/05/2026 3:21 pm CDT

Tool Search: County Setup

This tool lists the counties that the school district serves. The number of counties listed will differ depending on the district. Once added, counties are available for selection in Ad Hoc Reporting.

Once counties are defined in this tool, they are available for selection on the District Information and District County Setup tools.

County Setup Tool

See the District Settings Tool Rights article for information on available tool rights.

Add New Counties

1. Click **New**. Enter the **Name** of the county.
2. Enter the **Number** of the county. (optional)
3. Click **Save**.

Delete Counties

1. Select the **County** you want to delete.
2. Click **Delete**.
3. Click **OK**.
