# Core Attribute Dictionary

Last Modified on 06/09/2025 2:46 pm CDT

Tool Search: Core Attribute Dictionary

The Core Attribute/Dictionary tool shows all core fields and code values created for the current Release Pack version and localized for the applicable district or state.

Core Attribute Dictionary

Attribute/Dictionary vs. Custom Attributes

The purpose of the Attribute/Dictionary tool is to view all core elements within the application based on the state and district. Locally created elements can be created, viewed and modified in the Custom Attribute tool.

> See the Custom Data and Links Tool Rights article for information about tool rights for this and related tools.
