Tool Search: EL Student Data

The EL Student Data Extract generates a list of students who are required to take the ACCESS for ELLs English language Proficiency test, designed to measure English language learners' social and academic proficiency in English.

The following can be generated:

- Errors and Warnings Report
- EL Student Data Report

EL Student Data Extract

Report Logic

[Errors and Warnings Report](#) | [EL Student Data Report](#)

Errors and Warnings Report

The Errors and Warnings Report lists students who have an active enrollment (Enrollment Service Type is Primary, Partial or Special Education) within the report editor start and end dates, have an EL Program Status of EL or Exited EL with an exit date that falls within the start and end dates of the calendar and meets all of the following:

- Have an active enrollment in the selected calendar within the start and end dates entered on the extract editor.
- Have an active EL record within the selected calendar (EL status is EL or Exited EL and EL record is within the calendar selected in the extract editor start and end dates). The EL Exit Date must be blank or within the school year instructional dates.
- The Parent Refused checkbox is NOT marked; and
- The student does NOT have one of the following state services that falls within the start and end dates on the calendar selected:
 - 10 - TBE Full Time
 - 11 - TBE Part Time
 - 12 - TPI
 - 13 - Other

If the student has one of the above services with an end date within the calendar start and end dates in the previous year, and the **Parent Refused** checkbox is marked, the student is NOT reported.

Students are not included when:

- Their enrollment record is marked as State Exclude or as No Show.
- The Grade Level of Enrollment is marked as State Exclude.
- The Calendar of enrollment is marked as State Exclude.

EL Student Data Report

This report lists student identifiers (State ID and Student ID numbers), student names and demographic information.

In order to appear on this report, a student must meet the following:

- Have an active enrollment (Enrollment Service Type is Primary, Partial or Special Education) in the selected calendar within the start and end dates entered on the extract editor.
- Have an active EL record within the selected calendar (EL status is EL or Exited EL and EL record is within the calendar selected in the extract editor start and end dates). The EL Exit Date must be blank or within the school year instructional dates.
- Meets one of the following criteria:
 - Has an active service type for one of the following with a blank Program Exit Date or a Program Exit Date within the school year instructional dates.
 - 10 - TBE Full Time
 - 11 - TBE Part Time
 - 12 - TPI
 - 13 - Other/Alternative
 - One of the above services has an end date in the previous school year's calendar and the Parent Declined checkbox on the EL Service tab is marked on that service.
 - The Parent Refused checkbox on the EL tab is selected.

One record per student per service code reports. If the student has multiple records in the selected calendar(s) that meet the above selection criteria, only the most recent record reports.

Report Editor

Field	Description
Report Type	Selection indicates what report generates, either the Errors and Warnings Report or the EL Student Data Report.
File Identifier	A numeric field that notes the number of times the report has been generated. This field is used in the File Naming Convention of the extract to be used when submitting the extract in the State Format (RCDTS or District Name + __ + MMDDYY_File Identifier).
Start Date	<p>Entered date is used to return student data for those students actively enrolled on that date. Dates are entered <i>mmddyy</i> format or can be entered by selecting the calendar icon and choosing a date.</p> <p>When a calendar is chosen in the Campus toolbar, the start date of the selected calendar populates this field.</p>
End Date	<p>Entered date is used to return student data for those students actively enrolled on that date. Dates are entered <i>mmddyy</i> format or can be entered by selecting the calendar icon and choosing a date.</p> <p>When a calendar is chosen in the Campus toolbar, the end date of the selected calendar populates this field.</p>
First Year in US School Date	Entered Date is used to determine if the student is considered First Year in US School. This field auto-populates with the current date, but can be modified by entering a new date or selecting the calendar icon to select a date. Dates are entered <i>mmddyy</i> format.
Strip Apostrophes	<p>When marked, the following marks are removed from student names and other reported data:</p> <ul style="list-style-type: none"> • Apostrophes ('), Commas (,), Periods (.) • Umlaut (Ö) • Tilde (Ñ) • Grave Accents (Ò), Acute Accents (Ó) • Circumflex (Ô) <p>When not marked, these marks are not removed.</p>
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Format	The report can be generated in either HTML or in the State Format (Comma Delimited) . The HTML format can be used to review data prior to submission of the extract. The State Format should be used when submitting information to the state.

Field	Description
Grade Selection	Users can select a grade level, multiple grade levels or all grade levels. Use the CTRL and SHIFT keys to select multiple grade levels.
Ad hoc Filter	Selecting an ad hoc filter further narrows the student set to be only those students who are included in the selected filter.
Calendar	A calendar must also be selected when generating the report. This selection will only return students who are enrolled in that calendar and who also meet the reporting criteria.
Report Generation	Use the Generate Extract button to immediately display the results of the extract. For a larger data set, use the Submit to Batch button. This allows the selection of a specific time in which the extract generates (after school hours). See the Batch Queue article for more information.

Generate the Report

Errors and Warnings Report

1. Select **Errors and Warnings** as the **Report Type**.
2. Enter the **File Identifier Number**. This will be defaulted to 001.
3. Enter a **Start Date** for the report.
4. Enter an **End Date** for the report.
5. Enter the **First Year in US School Date** for the report.
6. If desired, mark the **Strip Apostrophes** checkbox.
7. If desired, mark the **Report Protected Identities** checkbox.
8. Select the appropriate **Format** for the report.
9. Select the **Grade level(s)** to include in the report.
10. Select an **Ad hoc filter**, if desired, to return results of only those students included in the filter on the extract.
11. Select the **Calendar(s)** to include in the report.
12. Click the **Generate Extract** button or the **Submit to Batch** button. The report will appear in the selected format.
