[Reporting Logic](#) | [Extract Editor](#) | [Assessment Fact Extract Layout](#)

Tool Search: SIRS Extracts

The SIRS Assessment Fact Extract reports all state-coded assessments taken by students within the selected calendar(s) and grade level(s).

## Tip for Best Score Reporting

When your district would like to only report the highest grade when a student takes an exam more than once, set up two different versions of the exam in Campus. One exam should be mapped to an active value in the State Code dropdown list on the Test Setup > Test Detail editor. Do NOT map the other exam to an active State Code. The District/School/Counselor can then choose to capture the value initially in the state-mapped assessment and switch the exam to the non-state-mapped assessment if it is determined that a different exam's score should report.

This setup gives you the flexibility of deciding, on a case-by-case basis, whether to take advantage of the best score reporting rule.

**NY State Repository System Extracts**

This tool will extract student data for SIRS data collection. Choose CSV format when uploading to SIRS, otherwise choose one of the testing/debugging formats.

**Extract Options**

Extract Type: **Assessment Fact** (highlighted with a red box)

Effective Date: 08/06/2024

Included State Grade Levels: All Grades

KH  
KF  
01  
02

Format: State Format(CSV)

Ad Hoc Filter:

Column Headers: Exclude

Buttons: Generate Extract, Submit to Batch

**Select Calendars**

Which calendar(s) would you like to include in the report?

active year  
 list by school  
 list by year

24-25  
24-25 Scarsdale High School

CTRL-click or SHIFT-click to select multiple

Refresh Show top 50 tasks submitted between 07/30/2024 and 08/06/2024

**Batch Queue List**

Cued Time	Report Title	Status	Download

# Reporting Logic

Any NY Assessment (which also meets the other extract criteria for the report) with a value in the [State Code field](#) (Assessment > Test Setup > Tests > Test Detail > State Test > State Code) reports.

Only records where the student's Enrollment Start Date is less than or equal to the extract editor's Effective Date report.

## Multiple Enrollments

- When multiple Enrollments may report, a record reports from the Enrollment with the first Service Type listed below:
  - P: Primary
  - S: Partial
  - N: Special Ed
- When multiple Enrollments meet the previous requirement, the Enrollment with the most recent Start Date reports.
- When multiple Enrollments meet the previous requirement, the Enrollment with the lowest

Enrollment ID reports.

Students are NOT included when:

- their Enrollment Start Status is 0055;
- their enrollment record is marked as State Exclude;
- their enrollment record is marked as No Show;
- their Grade Level of enrollment is marked as State Exclude; or
- their Calendar of enrollment is marked as State Exclude.

The following RCT assessments report numeric and alpha pass/fall scores:

- RCT Reading - Jan
- RCT Reading - Jun
- RCT Reading - Aug
- RCT Mathematics - Jan
- RCT Mathematics - Jun
- RCT Mathematics - Aug
- RCT Science - Jan
- RCT Science - Jun
- RCT Science - Aug
- RCT Global Studies - Jan
- RCT Global Studies - Jun
- RCT Global Studies - Aug
- RCT US Hist & Gov't - Jan
- RCT US Hist & Gov't - Aug
- RCT US Hist & Gov't - Jun

The following RCT assessments only report numeric scores: RCT Writing - Jan, RCT Writing - Jun, RCT Writing - Aug.

The score reports from one of the following three locations based on which State Code is saved in the Assessment record: Scale Score, Raw Score, or Result Score. The score reports in Numeric Score (column 10).

All active State Code values report a record in the Assessment Fact extract. However, when they are not part of the current state code mapping in Campus, records report as follows:

Location	Logic	Column
Scale Score	Reports when saved in the database	NumericScore (column 10)
Raw Score	Reports when saved in the database and no Scale Score exists	NumericScore (column 10)
Result Score	Reports when saved in the database	AlphaScore (column 9)

## Extract Editor

Field	Description
<b>Extract Type</b>	The SIRS Extract to run.
<b>Effective Date</b>	The date for which information reports.
<b>Included State Grade Levels</b>	Identifies the state grade levels to include in the report.
<b>Format</b>	The Format in which the report should generate. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other types for data review and verification.
<b>Ad Hoc Filter</b>	Selecting a filter limits the results to only those included in the filter.
<b>Column Headers</b>	Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV).
<b>Generate Extract/Submit to Batch</b>	Users have the option of submitting a report request to the batch queue by clicking <b>Submit to Batch</b> instead of immediately generating the report by clicking <b>Generate Extract</b> . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the <a href="#">Batch Queue</a> article.
<b>Select Calendars</b>	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.
