

Ed-Fi v3.X - Set Resource Preferences

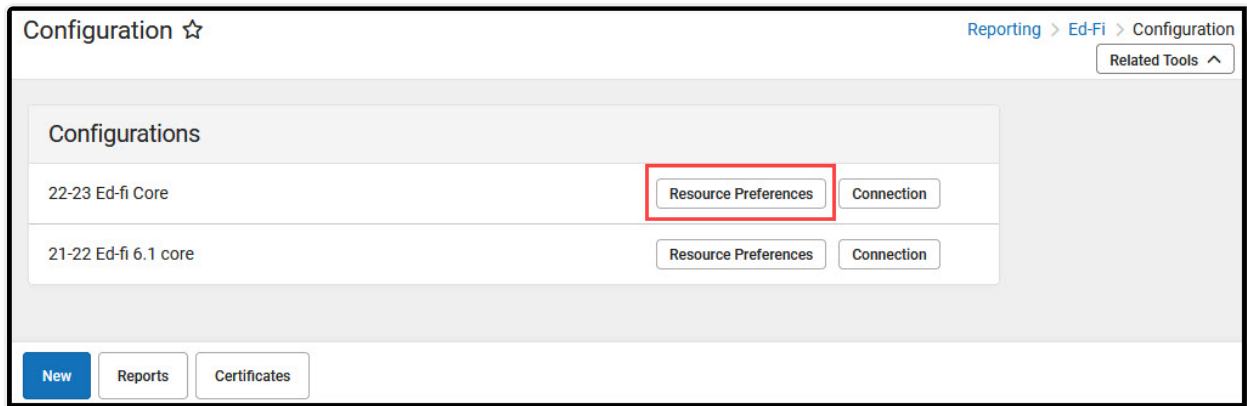

Last Modified on 02/20/2025 11:50 am CST

Tool Search: Ed-Fi Configuration

The information on this page is only for customers using Ed-Fi version 3.X.

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

Once Resource Preferences have been selected, a valid configuration is made and Ed-Fi ID's are assigned to users, data will flow properly from Campus to Ed-Fi.

Ed-Fi Configuration

Read - View Ed-Fi Resource Preferences

Write - Modify and configure Ed-Fi Resource Preferences

Add - Provides no function for this tool

Delete - Provides no function for this tool

For more information about Tool Rights and how they function, see [this Tool Rights article](#).

Prerequisites

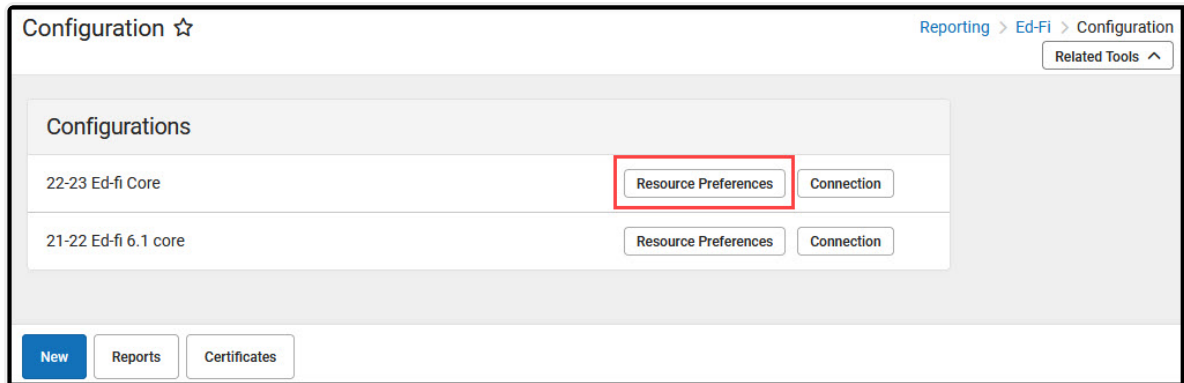

- Ed-Fi functionality must be enabled via the [Enable Ed-Fi System Preference](#).
- Ed-Fi should be properly configured via the [Ed-Fi Configuration tool](#).

Resource Preferences

Resource Preferences determine which information is sent to Ed-Fi. These options apply to all schools within the district. If the state did not request a resource, it does not appear in this list, meaning different options may be available for different states. Some mapping screens may be 'read only' if specific business rules are required by your state. Consult your localized Ed-Fi articles for more information.

Resources should be toggled off until all data setup is complete and the district is ready to send data to Ed-Fi.

1. Select the **Resource Preferences** button.

Ed-Fi Resource Preferences

2. Click the **Edit** or **Configure** button to modify the resource preferences. Configure displays if preferences have not previously been saved. Edit displays when preferences have already been set and saved. Resources can be expanded by clicking the "+" sign or collapsed by clicking the "-" sign.

If the Configure or Edit button do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.
