

Add People to a Household Application

Last Modified on 07/31/2025 3:41 pm CDT

[Adding Students](#) | [Add Person From Census](#) | [Adding People using Quick Add](#)

Tool Search: Household Applications

If a household member or student is missing from the member list on the Household Application editor, use the provided Search tools to locate them in Campus and add them to the Household Application. If an adult cannot be located using the People Search tool, the person may be added by using the Quick Add option.

See the [FRAM Application Processing Tool Rights](#) article to learn about tool rights needed to use this and related tools.

Before adding a person to the application, perform a thorough search to verify the person does not have a record in Campus that you can associate with the application.

If a child will be enrolled in school at some point during the school year or at the start of the next school year, consider adding the child to the student section. Once the child is enrolled in the district, the eligibility will auto-populate for the child.

Adding Students

This scenario may apply to younger children in a household who have just started attending school and who do not currently appear as Student(s) in Household editor.

Add Students Cancel

1. Click **Add Student from Census**.
2. In the side panel, search for the student.
3. Select the student from the search results
4. Click **Add Students** in the side panel.
5. Click **OK** in the confirmation dialog box.

Add Person From Census

1. Click the **Add Person from Census** button.
2. In the side panel, search for the person.
3. Select the person from the search results.
4. Click **Add People** to add the person to the household application.

Adding People using Quick Add

The Quick Add button does NOT add the person to Campus. They are only added to the application. People added via Quick Add cannot be added to the Student section of the application.
