

Cafeteria Serve Preferences

Last Modified on 03/11/2024 8:45 am CDT

Tool Search: Cafeteria Serve

This functionality is only available to customers who have purchased Campus Point of Sale as add-on functionality.

This tool allows food service administrators to control which patron information will display to cashiers while using Cafeteria Serve.

The following settings affect the display of Cafeteria Serve as related to cashier use.

Cafeteria Serve Preferences ☆

Food Service > Setup > Cafeteria Serve Preferences

Cafeteria Serve Preferences

Display Eligibility	<input checked="" type="checkbox"/>
Display Actual Purchasable Cost	<input type="checkbox"/>
Display Patron PIN	<input type="checkbox"/>

Field	Description
Display Eligibility	When this checkbox is marked, patrons' eligibility (<i>i.e.</i> , regular, free or reduced meal status) appears to cashiers.
Display Actual Purchasable Cost	When this checkbox is marked, what the patron is being charged for the item displays. Not marking this checkbox displays purchasable cost regardless of the discount the patron may receive due to a free/reduced eligibility.
Display Patron PIN	When this checkbox is marked, the patron's PIN appears to cashiers in search result lists. This allows cashiers to remind patrons of forgotten PINs.
