

# RTI Caseload

Last Modified on 04/10/2025 11:04 am CDT

Tool Search: RTI Caseload

The Response to Intervention Caseload tool allows you to view and manage your RTI students. From here you can access the student's Summary, Team Member, Documents and Contact Log information as well as enter an intervention delivery record and finalize the student's RTI plan.

See the [Response to Intervention \(RTI\) Tool Rights article](#) for information about rights needed to use this and related RTI tools.

## View Your Caseload

As a staff member designated Response to Intervention on your [District Assignment](#), you are able to view a list of students in your school who you are considered a [Team Member](#) via the Caseload tool.

To view a list your RTI students, click **Caseload** in the Campus Index. A list of students will appear on the right in the Intervention Provider section.

The screenshot shows the 'RTI Caseload' tool interface. At the top, there is a search bar and a breadcrumb trail: 'Student > Main Tools > RTI Caseload'. Below this is a section titled 'Response to Intervention Caseload' with a 'Print' button. A dropdown menu is open, showing 'Case Manager - 1 student'. Below the dropdown is a table with the following data:

Student	DOB	Grade	Actions
 joestar, joseph (M) State ID #0281000810947	10/09/2006 (13y6mo)	09	<a href="#">Show Actions</a>

Below the table, the text 'RTI Caseload Tool' is displayed.

Selecting a student's name will generate a pop up detailing the student's demographic, contact and primary household information.

**Tester, Nate**

*[View RTI Student Information](#)*

Selecting the **Show Actions** hyperlink for a student generates the Actions pop up where you can view the student's [Documents](#), Team Members and [Contact Log](#) information as well as enter an Intervention Delivery and/or finalize the student's RTI plan.

The screenshot shows a window titled "Actions for: Tester, Nate". It contains two main sections:

- General Actions:** A list of links: "Go To Student Summary", "Go To Documents", "Go To Team Members", and "Go To Contact Log". A red box highlights this list, and a red arrow points to it from a callout box that reads: "General Actions allow you to view the student's Summary, Documents, Team Members and Contact Log information".
- Response to Intervention:** A list of links: "Intervention Delivery" and "Finalize Intervention Plan(s)". A red box highlights this list, and a red arrow points to it from a callout box that reads: "Response to Intervention actions allow you to enter an intervention delivery and/or finalize the student's RTI plan".

At the bottom right of the window is a "Close" button. Below the window is a link labeled "View RTI Actions".

## Record and Intervention Delivery Time

You can record an intervention delivery in your Caseload by selecting **Show Actions** for the designated student and clicking **Intervention Delivery**.

The Intervention Delivery editor will only appear if the student has a locked RTI plan on their Documents tab.

Enter an Intervention Delivery

## To Enter a New Intervention Delivery

If you are unfamiliar with the student's RTI plan, select the **View Plan** and/or **Link to Resource** hyperlinks in the upper right-hand corner to familiarize yourself with their plan prior to entering an intervention delivery.

1. Enter the **Date** in which the intervention occurred.
2. Enter the **Start Time** of the intervention.
3. Enter the **End Time** of the intervention.
4. The **Duration (min)** will automatically calculate how long the intervention occurred based on the Start Time and End Time entered. You can modify this value if necessary.
5. If the intervention includes scoring, enter the **Score** the student received for the intervention.
6. If you would like the score to not appear on the student's RTI graph (accessed by click the Graph/Historical Detail hyperlink at the bottom of the editor), mark the **Exclude from Graph** checkbox.
7. Enter any **Comments** about the intervention delivery.
8. Select the **Save** icon. The record is now saved for the student.

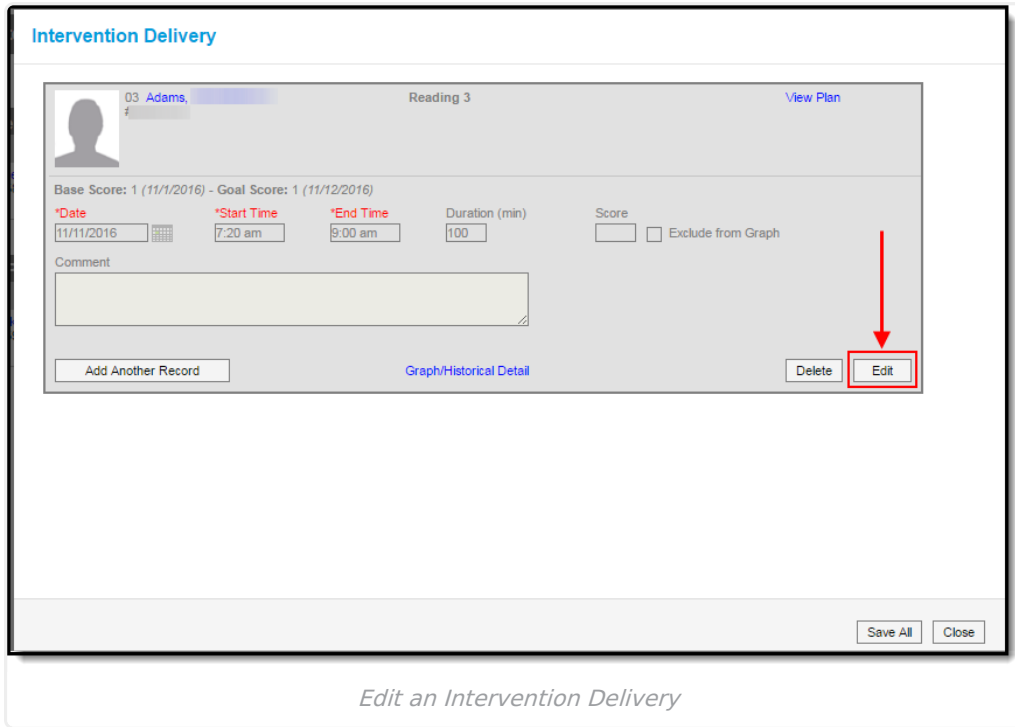

## Edit or Delete an Intervention Delivery

The user who created the intervention delivery record can edit and/or delete any records they've created, regardless of the time, as long as the RTI plan is still in effect. **Note:** End Dates are exclusive when a plan is considered active. As of midnight (00:00:00AM) on the End Date, the plan

is considered inactive, and no data can be entered on the End Date itself.

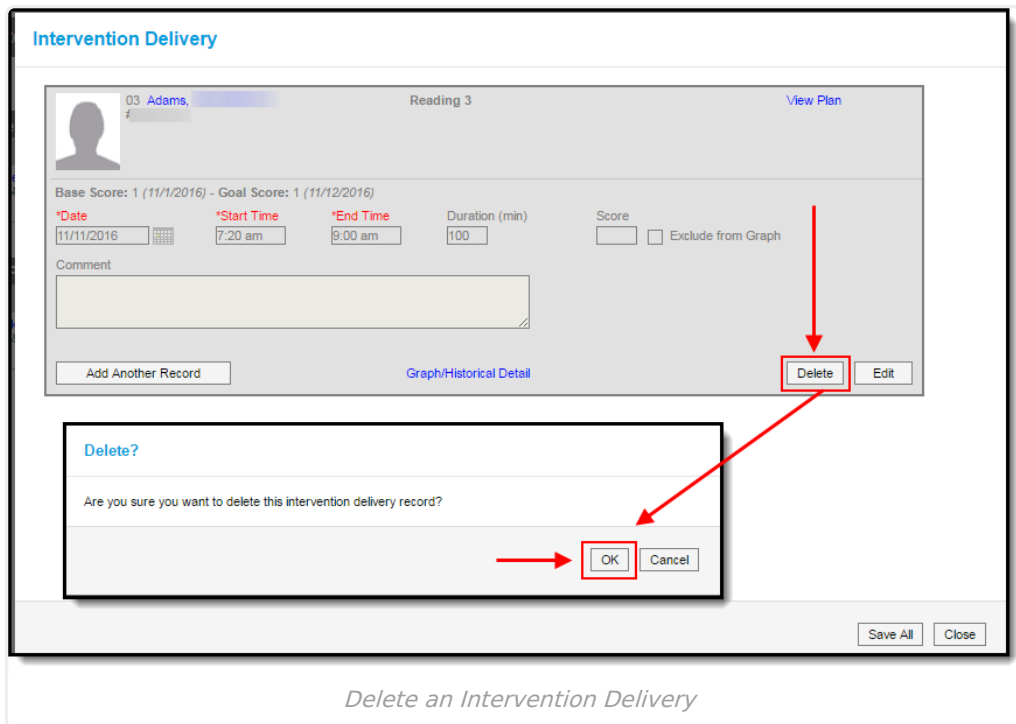

To edit an intervention delivery, click the **Edit** button, enter updated information within the available fields and click the **Save** icon. The record is now updated with newly entered information.

Once an RTI plan End Date has passed, no editing is allowed without unlocking the RTI plan, changing the End Date to the current day (or a future date) and re-locking the plan.

To delete an RTI intervention delivery, click the **Delete** button. A message will appear, asking you to confirm deletion of the record. Click **OK** to permanently delete the record from Campus.

Deleted intervention delivery records will not appear on the Plan PDF or the graph.

*Delete an Intervention Delivery*

## Finalize Student Intervention Plan(s)

Once a student's RTI plan is complete, you may finalize and close the plan by selecting and the **Show Actions** hyperlink and clicking **Finalize Intervention Plan(s)**.

*Select an Intervention Success Status*

Intervention Success Status values are created in the [Attribute/Dictionary](#). Values must be created here in order for users to have values to select in this dropdown list.

*Intervention Success Status Attribute Dictionary*

Once an Intervention Success Status value has been selected and saved, the RTI plan will appear grayed out.
