Report Logic

- To report, courses must meet the following criteria:
 - Subject type is CORE or ELEM.
 - Course is marked as Active.
 - Course Exclude is null.
 - State Code cannot be null.
 - Section must have at least 1 student in state grades 91-12 registered for the school year.
- Reports the Primary Teacher as of the section end date tied to the course sections that meet the previous criteria.
- If the section has not ended, the Primary Teacher as of the Effective Date selected on the extract editor reports.
- If there is no active primary teacher, the most recent active teacher as of the course End Date reports, or if the course has not ended, the effective date where the role Teacher of Record (TR) or Long Term Substitute (LT) reports.
- If multiple teachers meet the previous criteria, both teachers report.

- A teacher may only report 12 times on the extract. If a teacher meets the requirements to report on more than 12 sections, then the top 12 sections based on the number of students rostered as of the Effective Date report.
- All fields that report a student count only report for students who were active in the section as of the report Effective Date.
- The report sorts first alphabetically by Teacher Last Name then by lowest to highest Course Number.

Title 1 Students

- A student is considered to be Title 1 if the student has an active Title1 Flag that meets the following criteria:
 - State code of T1.
 - Flag is marked as state-reported.
 - Flag is active as of section end date (If the section has not ended, Campus uses the system date).
- If student has a value in the home school field on their enrollment AND there is a school in the district with that state school code, then Campus finds the school record that falls as of the end date on the extract editor and reports the value from the Title 1 field on that school.
- Campus considers the School History Record and Title 1 Flag.
