Tool Search: CTE Tooling

The Assessment Tool extract reports state assessment data, replacing historic ISAT 10 and TSA Performance Measures file types.

CTE Tooling ☆

CTE Tooling

CTS Attendance Tool

Returns the data needed to support CTS Attendance Funding calculations in Idaho. A course/section must be scheduled at least one day with at least one student rostered during the reporting range to report. The class must have a State Course Code and a CTE Course Level selected on the Course editor to report. One record reports for each section when on a non-rotating schedule. Multiple records may report per section when on a rotating schedule.

Based on clarifications received from the ID CTE Department: When filling out data on the 2016-17 CST Attendance Reporting ADA spreadsheet, due to the auto-calculations present; should a section report multiple lines, we suggest that each line of data for that section be entered on a different spreadsheet prior to emailing to the state. Sections reporting only one line of data may be entered on a single spreadsheet.

Assessment Tool

Returns a record for each student assessment mapped to the Assessment State Code selected and the Assessment Date occurs during the reporting range selected.

CTE Tooling Editor - CTE Attendance Tooling Type

Report Logic

A record report for each student's selected state assessment with a date on or within the extract date range. Students must have a State ID to report.

Generating the CTE Attendance Tooling

1. Select the **Tooling Type** of *Assessment Tool*.
2. If desired, limit results by selecting one or more **Assessment State Codes**.
3. Enter a **Start Date** in *mmdyyy* format or by clicking the calendar icon and selecting a date.
4. Enter an **End Date** in *mmdyyy* format or by clicking the calendar icon and selecting a date.
5. Limit the results reported by selecting a **Grade** or an **Ad hoc Filter**.
6. Select the **Format** by using the dropdown list.
7. Select a **Calendar** from the list. More than one can be selected.
8. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting a Student Assessment report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

Report Layout

Results are sorted by Student Last Name, then Student State ID, then by Assessment Date.

Element Name	Description & Format	Campus Location
CalendarName	The name of the Calendar selected. <i>Alphanumeric</i>	System Administration > Calendar > Calendar > Name Calendar.name
StudentStateID	The student's state ID. <i>Alphanumeric</i>	Census > People > Demographics > Person Identifiers > Student State ID Person.stateID
StudentLastName	The student's last name. <i>Alphanumeric, 35 characters</i>	Census > People > Demographics > Person Information > Last Name Identity.lastName

Element Name	Description & Format	Campus Location
StudentFirstName	The student's first name. <i>Alphanumeric, 35 characters</i>	Census > People > Demographics > Person Information > First Name Identity.firstName
StateGradeLevelCode	The state grade level mapped to the grade in which the student is enrolled. <i>Numeric, 2 digits</i>	Calendar > Calendar > Grade Levels > State Grade Level; Student Information > General > Enrollments > Grade Level GradeLevel.stateCode
AssessmentStateCode	The State Code selected for the assessment of record. <i>Alphanumeric</i>	Assessment > Test Setup > Test Detail > State Test > State Code Test.stateCode
AssessmentName	The name of the assessment of record. <i>Alphanumeric</i>	Assessment > Test Setup > Test Detail > State Test > Name Test.name
AssessmentGradeLevel	The grade level selected for the assessment of record. <i>Alphanumeric</i>	Assessment > Test Setup > Test Detail > State Test > Grade Level Test.gradeLevel
AssessmentSubject	The subject selected for the assessment of record. <i>Alphanumeric</i>	Assessment > Test Setup > Test Detail > State Test > Subject Test.subject
TestDate	The date on which the student took the assessment. <i>Alphanumeric</i>	Student Information > General > Assessment > Test Scores > Date TestScore.date
ScaleScore	The scale score recorded for the assessment. <i>Alphanumeric</i>	Student Information > General > Assessment > Test Scores > Scale Score TestScore.scaleScore

Element Name	Description & Format	Campus Location
RawScore	<p>The raw score recorded for the assessment.</p> <p><i>Alphanumeric</i></p>	<p>Student Information > General > Assessment > Test Scores > Raw Score</p> <p>TestScore.rawScore</p>
Result	<p>The result recorded for the assessment.</p> <p><i>Alphanumeric</i></p>	<p>Student Information > General > Assessment > Test Scores > Result</p> <p>TestScore.result</p>
Proficiency	<p>The proficiency level recorded for the assessment.</p> <p><i>Alphanumeric</i></p>	<p>Student Information > General > Assessment > Test Scores > Proficiency</p> <p>TestScore.proficiency</p>
