Tool Search: CTE Tooling

The Assessment Tool extract reports state assessment data, replacing historic ISAT 10 and TSA Performance Measures file types.

CTE Tooling Editor - CTE Attendance Tooling Type

Report Logic

A record report for each student's selected state assessment with a date on or within the extract date range. Students must have a State ID to report.

Generating the CTE Attendance Tooling

1. Select the **Tooling Type** of *Assessment Tool*.
2. If desired, limit results by selecting one or more **Assessment State Codes**.
3. Enter a **Start Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date.
4. Enter an **End Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date.
5. Limit the results reported by selecting a **Grade** or an **Ad hoc Filter**.
6. Select the **Format** by using the dropdown list.
7. Select a **Calendar** from the list. More than one can be selected.
8. Click **Generate Extract**. to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting a Student Assessment report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

Report Layout

Results are sorted by Student Last Name, then Student State ID, then by Assessment Date.

Element Name	Description & Format	Campus Location
CalendarName	The name of the Calendar selected. *Alphanumeric*	System Administration > Calendar > Calendar > Name Calendar.name
StudentStateID	The student's state ID. *Alphanumeric*	Census > People > Demographics > Person Identifiers > Student State ID Person.stateID
