# CALPADS Course Section (CRSE)

Last Modified on 02/05/2026 3:51 pm CST

Tool Search: CALPADS Course Section

The CALPADS Course Section extract reports courses that have students actively enrolled (Fall) or that students have completed (EOY), and the teachers who are teaching the courses. Staff members must have a SEID, and courses taught by staff with a SEID = 9999999999 report. Student data is reported in the CALPADS Student Course Section extract.

Only active courses are included in the report.

For more information about Tool Rights and how they function, see the Tool Rights article.

Report Logic

For **Fall** submission, all course sections with students actively scheduled into them on the Reporting Day are included in the report. When the Reporting Day is not an Instructional Day, the first day after the Reporting Day that IS an instructional day is used as the Reporting Day. When the school has a multi-day schedule (A/B or MTWThF, for example), all courses that occur in the term that contains the Reporting Day report. Courses in future terms do not report. There is no grade level constraint on this submission.

One line per Class ID reports, even when the section is scheduled into more than one period/schedule structure.

Course sections that do not have students on the roster report only when the teacher assigned to

the section has a **Type of 27: Itinerant or Pull-Out Push-In Teacher** . The course section must be scheduled in the term that contains Reporting Day. It is acceptable for such a course to be scheduled in an non-instructional period.

For **EOY** submission, data should be submitted for all course sections completed during the year **for students in grades 7-12** . A completed course is defined as any course from the current school year in which a student has a mark entered for a grading task designated as "Post to Transcript." That grading task is usually be named something like Final Grade. The course doesn't have to be posted to the transcript at the time of reporting.

Operational Keys

- School of Course Delivery
- Academic Year ID
- Academic Term Code

Unique Identifiers

- School of Course Delivery
- Academic Year ID
- Academic Term
- Local Course ID
- Course Section ID

This is a FULL REPLACEMENT file. This means that when a file is posted to the CALPADS database, and a later file with the same School of Assignment and Academic Year is posted, the records from the second file **replace**, rather than update or add to, the records from the first file. Data that has been manually entered into CALPADS is also replaced when it is not corrected in Infinite Campus as well.

For all collections:

When a course section has multiple teachers (Primary Teacher and Teacher(s), a record is reported for each teacher, as long as the Multiple Teacher element on the course is not null. When there are multiple teachers but that element is null, only the Primary Teacher reports.

- (Fall version) The teacher reported is the active Primary Teacher as of the Reporting Date. An active teacher is determined using the dates on the Section Staff History record.
- (EOY version) The teacher reported is the active Primary Teacher as of the last day of the term on which the section is scheduled. An active teacher is determined using the dates on the Section Staff History record.

Course Section data is not reported for a course without a State Code or a course with a State Code of 6012 or 6017.

Course Section data is not reported when all students are:

- marked as State Exclude.

- enrolled in a Grade Level marked as State Exclude.
- attending a school marked as State Exclude.

Course Section data is not reported when none of the students on the roster have an active enrollment with a Service Type P or S or when there are no students on the roster on the Reporting Day, unless the teacher has an active District assignment with Type 27.

For the EOY Collection:

- All Course Sections in the selected calendar report as long as those courses:
  - Have a State Code other than 1000, 6012, 6017 or blank.
  - Have/had at least one student in Grade 07-12 (State Grade Level) who has a mark entered for a grading task designated as Post to Transcript. The task does not have to be posted to the transcript at the time of reporting.
- Students do not have to be actively enrolled at the time of reporting, but they must have an enrollment with Service Type P or S at some time during the Academic Year.
- Students who have a Service Type of N are not reported.

Records sort first by School of Course Delivery, then by SEID, then by Course Section ID.

Class ID

When Collection is Fall (CRSE), a Class ID is derived for each section as follows (for a reportable section), report the Class ID as **PPP-DD-NN-RRR-XXXXX**

- PPP = Period Name (last three characters of the first period ID; when the section is scheduled across multiple periods, reports the last two characters of the first period followed by M and the first character of the first period name)
- DD = Day Name (when here is only one period schedule in the calendar, report 1; when there are multiple period schedules in the calendar, report the first character of each period schedule in which the course is scheduled)
- NN = Schedule Name (first two characters of the name of the schedule structure; when there is only one schedule structure in the calendar, reports 1)
- RRR = Room Name (last three characters of the name of the room into which the section is scheduled. When a room number is not assigned, reports 1).
- XXXXX = Person ID of the Primary Teacher

Example: 001-1-1-456-1234 would be SectionID 1609, which meets in first period in a calendar with one period schedule and one schedule structure. It meets in Room 456 and is taught by a teacher with PersonID 1234. **When SectionID 1610 was scheduled in the same period/day/schedule and taught by the same teacher, the same Class ID would report on both records.**

Example: 3M-MTF-1-1234 would be SectionID 11344, which meets in multiple periods, beginning with Period 3, on days with period schedules named **M** on-Weds, **T** ues-Thurs, and **F** riday in the single schedule. The teacher is represented by PersonID=1234

The whole Class ID cannot be longer than 20 characters including dashes.

- When Collection is EOY (CRSC), report blank.

Validate CRSE Data

Use the Data Validation Report to correct any student data prior to the submitting the CALPADS file to the state. Validation Groups and Validation Rules are provided by Infinite Campus for a specific CALPADS extract (listed below). These groups are used to return certain rules assigned to each group.

- CALPADS SSID Enrollment
- CALPADS Student Information
- CALPADS Student Programs
- CALPADS Student English Language Acquisition
- CALPADS Student Discipline
  - Student Incident File
  - Student Incident Result File
  - Student Offense File

- CALPADS Staff Demographics
- CALPADS Staff Assignments
- CALPADS Course Section
- CALPADS Student Course Section
- CALPADS Work-Based Learning
- CALPADS Postsecondary Status Summary

Modifications to the Validation Rules and Validation Groups can be made if your district has purchased the Campus Analytics Suite; otherwise, they are read-only.

Users can select the **Missing or Incorrect Data** Validation Group, which returns any missing or incorrect data that is reported in the CALPADS Extract, like a missing enrollment exit reason or an incorrect date, for example.

Note that examples refer to CALPADS SENR.

Data Validation Report - Missing/Incorrect Data

The report first lists a Summary of the issues found and the total number of occurrences.

Validate Report Summary List

Then, click the Rule in the Summary column (for HTML format), or scroll through the report to see which students meet the criteria of the rule logic.

Validate Report Results

Refer to the tables below, which includes the rule, rule logic and location, for correcting the data.

Missing or Incorrect Data

The Missing or Incorrect Data Report uses the following rules and logic (open the Click here to Expand section below to see each rule).

▶ Click here to expand...

Rule Number	Issue	Logic	Location
CRSE0123	No CTE State Course Code with CTE Indicator	Indicates there is no CTE State Course Code assigned when the CTE Postsecondary Articulated Course Indicator is set to Yes.	Course Information > General Course Information > State Code Course.stateCode Course Information > State Defined > Postsecondary Articulated Course.vocationalCode

Rule Number	Issue	Logic	Location
CRSE0131	Missing Language of Instruction Code	Indicates the Language of Instruction Code is not populated when the Education Service Code is set to 1.	Section Information > EL Instructional Type Section.elInstructionType Section Information > Language of Instruction Section.languageOfInstruction
CRSE0132	Invalid Language of Instruction Code	Indicates the Language of Instruction Code is set to English (eng) or Sign Language (sgn)	Section Information > Language of Instruction Section.languageOfInstruction Section Information > EL Instructional Type Section.elInstructionType
CRSE0133	Missing CTE Course Provider Code	Indicates the CTE Course Provider Code is not populated when the CTE State Course Code is populated with a code between 7000-8999.	Course Information > General Course Information > State Code Course.stateCode Course Information > State Defined > CTE Funding Provider Course.cteFundProvider
CRSE0137	Missing CTE State Course Code with CTE Provider Code	Indicates the CTE Course Code is not populated with a CTE Course Code.	Course Information > General Course Information > State Code Course.stateCode Course Information > State Defined > CTE Funding Provider Course.cteFundProvider

Rule Number	Issue	Logic	Location
CRSE0457	Missing Online Course Instruction Type Code	Indicates the Course Instruction Type Code is not populated when the Distance Learning Indicator is set to Y.	Section Information > Distance Learning Section.distance Code Section Information > Online Course Instruction Type Course Information > State Defined > Online Course Instruction Type Course.teachingMethod Section.teachingMethod
CRSE0459	Invalid State Course Code for AP/IB Course Code Cross Reference	Indicates the State Course Code is incorrect when the AP/IB Course Code Cross Reference is populated. When the AP/IB Course Code Cross Reference field is populated, the State Course Code must be populated with a value of 7000-8999.	Course Information > General Course Information > State Code Course.stateCode Course Information > State Defined > AP/IB Course Code Cross Reference Course.wblCourseType

Rule Number	Issue	Logic	Location
CRSE0461	CRS - Content Standards Alignment Code must not equal 3 for this CRS - Departmentalized Course Standards Grade Level Range Code	Indicates the Content Standards Alignment Code is incorrect for the assigned Course Standards Grade Level Range Code. When the Departmentalized Course Standards Grade Level Range Code is not equal to NOT - Not Applicable, the Content Standards Alignment Code cannot be equal to 3: Not Content Standards-Aligned or Not Applicable.	Course Information > State Defined > Grade Level Range Code Course.courseLevel Course Information > State Defined > Content Standards Alignment Code Course.contentStandard
CRSE0462	Course Content Area Subcategory Code is required for this State Course Code	Indicates the Course Content Area Subcategory selection does not correspond to the selection State Course Code. When the State Course Code = 9000, 9051, 9080, 9090, 9130-37, 9155, 9156, 9157, 9222, 9223, 9291, 9292, 9293, 9294, 9316, 9381, or 9400, the Course Content Area Subcategory Code is required.	Course Information > General Course Information > State Code Course.stateCode Course Information > State Defined > Course Content Area Subcategory Course.embeddedCourseNumber

Rule Number	Issue	Logic	Location
CRSE0463	Course Content Area Subcategory Code must be blank for this State Course Code	Indicates the selected Course Content Area Subcategory Code is populated when the assigned State Course Code requires that is not be populated. When the State Course Code does not equal 9000, 9051, 9080, 9090, 9130-37, 9155, 9156, 9157, 9222, 9223, 9291, 9292, 9293, 9294, 9316, 9381, or 9400, the Course Content Area Subcategory Code must be blank.	Course Information > General Course Information > State Code Course.stateCode Course Information > State Defined > Course Content Area Subcategory Course.embeddedCourseNumber
CRSE0530	Missing Departmentalized Course Standards Grade Level Range Code	Indicates the Departmentalized Course Standards Grade Level Range Code is missing based on the assigned State Course Code selected. The Departmentalized Course Standards Grade Level Range Code is required for State Course Codes not equal to 1000, and Course Instructional Level Code = 23 (College Credit) or 24 (Dual Credit) are prohibited from submitting a Departmentalized Course Standards Grade Level Range.	Course Information > General Course Information > State Code Course.stateCode Course Information > State Defined > Grade Level Range Code Course.courseLevel

Rule Number	Issue	Logic	Location
CRSE0584	Course Instructional Level Code can only equal College Credit Only or Dual Credit for CTE and College Credit Courses.	Indicates the assigned Course Instructional Level Code is incorrect for the CTE or College Credit Course. Course Instructional Level Code can only equal College Credit Only (23) or Dual Credit (24) for CTE and College Credit Courses.	Course Information > General Course Information > State Code Course.stateCode Course Information > State Defined > Academic Level 2 Course.honorsCode

Report Editor

Field	Description
Reporting Date	Indicates the date of the report. This field displays the current date.
Collection	Indicates the type of Course Section Report that is being generated - **Fall** (course enrollment) or **End of Year** (course completion).
Transaction Type	Indicates the type of transaction that occurs: • Delete - student enrollment information is deleted. • Replace - existing student enrollment information is replaced with new information.
Format	Indicates the format type of the extract. Use the State Format (Caret Delimited) when submitting the information to the state. Use the CSV or HTML format when verifying and testing student data.
Exclude Cross-Site Data	When marked, students enrolled in Cross-Site Enrollment courses are not included in the report.
Calendar Selection	Select the calendar(s) of enrollment from which to pull course data. Calendars can be chosen by the active year, by the school name or by the year.
Report Generation Options	Choose the Generate Extract option to generate the report immediately. Choose the Submit to Batch option to generate the report at a specified time. This option is helpful when generating large amounts of data.

Generate the Course Section File

1. Enter the **Reporting Date** in *mmddyy* format, or use the calendar icon to select a date. For Fall 1, use Information Day. This is not needed for EOY.

2. Select the **Collection** from the dropdown list - Fall or EOY.
3. Select the **Transaction Type** from the dropdown list - Replace (default) or Delete.
4. Select the **Format** of the file.
5. Mark the **Exclude Cross-Site Data** checkbox to remove students enrolled in Cross-Site courses from the report.
6. Select the **Calendars** to include in the file.
7. Click the **Generate Extract** button. Or generate the extract at a specified time using the **Submit to Batch** button. The file appears in a new window in the selected format.

Course Section File

Data Elements	Description	Location
Record Type Code	Type of data record being submitted. Chosen on the Extract Editor. • Fall = reports CRSE • EOY = reports CRSC *Alphanumeric, 4 characters*	Data not stored
Transaction Type Code	Action CALPADS should take with this record. Chosen on the Extract Editor. • D = Delete • R = Replace (reports blank) *Alphanumeric, 1 character*	Data not stored
Local Record ID	N/A	N/A

Data Elements	Description	Location
Reporting LEA	A unique identifier for the educational service institution in which the Staff person is employed. When the reporting calendar is from a School with Type = 15: Independently Reporting Charter, the State School Number reports (not the State District Number). This field reports the Secondary District Number when the reporting calendar has a School Type of 16: Secondary State District Number. *Numeric, 7 digits*	District Information > State District Number District.number System Administration > Resources > School > School Number School. number School Information > Type School.type
School of Course Delivery	A unique identifier for the school that delivers a majority of educational instruction and services and is where the student attends. District-level courses and staff reports from a "School" that has the State District Number entered as the State School Number. When the CDS Number field is populated on the School editor, that value reports. *Numeric, 7 digits*	School Information > State School Number School.number School Information > CDS Number

Data Elements	Description	Location
Academic Year ID	A unique identifier assigned to a specific Academic Year. An Academic Year is the period during which school is in regular session and provides a required number of days of instruction. *Date field, 9 characters (CCYY-CCYY)*	School Year Setup > Start Year/End Year Calendar.schoolYear
State Course Code	The State Code (Course Group State, formerly known as the CBEDS Subject Code) for a course. A course is not reported when the State Code is 6012 or 6017 or blank. For the EOY collection, a course is not reported when the State Code is 1000, as well. *Alphanumeric, 4 characters*	Course Information > General Course Information > State Code Course.stateCode
Local Course ID	A unique identifier assigned to a course by the local educational agency. When this number is longer than 10 characters, only the first 10 characters report. When the number is less than 10 characters, the entire number reports. *Alphanumeric, 10 characters*	Course Information > General Course Information > Number Course.courseNumber

Data Elements	Description	Location
Course Name	Name of the course. The course name can only include alphabetic letters, numbers, periods, hyphens, and apostrophes. Any special characters (accent marks, etc.) will be removed and replaced with the corresponding letter. *Alphanumeric, 50 characters*	Course Information > General Course Information > Name Course.name
Filler Field	N/A	N/A
Filler Field	N/A	N/A
CTE Postsecondary Articulated Course	Indicated whether a Career Technical Education course has been designated as a Postsecondary Articulated Course, a course within a CTE technical career pathway or program that has been articulated with a postsecondary education institution. Successful completion of an articulated course may result in the student meeting the prerequisite requirements for a higher-level course in this course sequence upon enrollment in a postsecondary institution. Reports Y when the course is marked as Postsecondary Articulated. Otherwise, N reports. *Alphanumeric, 1 character (Y or N)*	Course Information > State Defined > Postsecondary Articulate Course.vocationalCode

Data Elements	Description	Location
UC-CSU Approved	Indicates the course has been approved as meeting A-G course requirements. This reports as Y when UC/CSU Code is not null. *Alphanumeric, 1 character (Y or N)*	Course Information > State Defined > UC/CSU Code Course.ucUSCCode
Course Section ID	A unique identifier for a Course Section assigned by a local educational agency. This field reports the last five digits of the courseID from Campus, along with the last five digits of the sectionID from Campus. When the courseID and/or sectionID is less than five digits, the numbers are padded at the beginning. • A courseID 568 and a sectionID 5 reports as 0056800005. • A curseID of 492678 and a sectionID of 156789 reports as **9267856789**. *Alphanumeric, 10 characters*	Course Information > General Course Information > Number Section Information > Section Number Course.number Section.Number

Data Elements	Description	Location
Academic Term Code	An indicator of the term structure into which the year is divided for the purpose of instruction. When there is a value in the Academic Term field on the Course Section, that value reports. Otherwise, the value is calculated from the Schedule Placement of the Course, as described in the [Academic Term Code/Marking Period Code](#). The field reports blank when a code cannot be calculated and a code is not entered on the Section editor. *Alphanumeric, 2 characters*	Section Information > Academic Term SectionPlacemen.SectionID Section.academicTerm
Academic Term Code		

Data Elements	Description	Location
SEID	A unique identifier assigned to each Educator in the California public education system by the California Commission on Teacher Credentialing. When there is more than one teacher assigned to a reportable Course Section and the Multiple Teachers field is not null, there is a record for each teacher. Staff History dates are used to determine the active teacher as of the Reporting Date. • For the Fall Collection, Staff Section History dates are used to determine the active teacher as of the Reporting Date. • For the EOY Collection, the active teacher is the teacher active on the last day of the term in which the course section is scheduled. *Alphanumeric, 10 characters*	Demographics > Person Identifiers > Staff State ID Person.staffID Section Information > Multiple Teacher Section Staff History > Primary Teacher, Teacher StaffHistory.Teacher StaffHistory.PrimaTeacher Section.multipleTeacherCode

Data Elements	Description	Location
Local Staff ID	A unique identifier assigned to a Staff member by the local educational agency. When there is more than one teacher assigned to a reportable Course Section and the Multiple Teachers field is not null, there is a record for each teacher. Staff History dates are used to determine the active teacher as of the Reporting Date. • For the Fall Collection, Staff Section History dates are used to determine the active teacher as of the Reporting Date. • For the EOY Collection, the active teacher is the teacher active on the last day of the term in which the course section is scheduled. *Alphanumeric, 10 characters*	Demographics > Person Identifiers > Staff Number Person.staffID

Data Elements	Description	Location
Class ID	A unique identifier for a class derived at the local level. It must be unique within the academic year. This is not reported for EOY. See the Class ID notes for more information. Staff History dates are used to determine the active teacher as of the Reporting Date. When a section is taught by multiple teachers, the Primary teacher's classID reports for all course sections. *Alphanumeric, 20 characters*	Section Information > SectionID Course Information > CourseID Course.courseID --- Calendar Information > Calendar ID Calendar.calendarID

Data Elements	Description	Location
Course Instructional Level Code	A Course Non-Standard Instructional Level indicates that the content of a specific course is either above or below a standard course instructional level. When the Academic Level 2 field has a selection of the following, that code reports. • 17: Introductory • 18: Intermediate • 19: Advanced • 20: Accelerated • 21: Exploratory • 22: Bridge • 23: College Credit Only • 24: Dual Credit For other selections in the Academic Level 2 field, see the California Course and Seciton article for a list of options. *Numeric, 2 digits*	Course Information > State Defined > Academic Level 2 Course.honorsCode

Data Elements	Description	Location
Education Service Code	A coded value representing an Education Service. An Education Service is a specific service or services that are performed within an Education Service Category. Data is reported but not stored in CALPADS. Reports the code selected in the EL Instructional Type field or the set default value; otherwise the field reports blank when there is no code selected or when a default value is not set. See the California Course and Section article for a list of options. *Numeric, 1 character*	Section Information > EL Instructional Type Section.elInstructionType
Language of Instruction Code	The primary (non-English) language in which instruction is provided or received. This is required when the **Education Service Code** is **1: Primary Language Instruction and Designated and Integrated ELD Instruction**. Data is reported but not stored in CALPADS. *Numeric, 2 digits*	Section Information > Language of Instruction Section.languageOfInstruction

Data Elements	Description	Location
Instructional Strategy Code	A coded value representing the Instructional Strategy used to deliver course content. Data is reported but not stored in CALPADS, except for codes 300: Home and Hospital or 700: Special Education. Reports the selected code set on the Section or the default value when one is set; otherwise the field reports blank when there is no code selected or when a default value is not set. See the California Course and Section article for a list of options. *Numeric, 3 digits*	Section Information > Instructional Strategy Section.instructStrategy
Independent Study Indicator	An indication of whether or not a course section is taught by way of independent study, which is defined as students working independently, according to a written agreement and under the general supervision of a credentialed teacher. *Alphanumeric, 1 character (Y or N)*	Section Information > Independent Study Section.independentStd

Data Elements	Description	Location
Distance Learning Indicator	An indication of whether or not instruction was delivered by way of distance learning. • A value of Y reports when the Course Section or Course is marked as Y (Yes) or H (Hybrid). • A value of N reports when the Course Section or Course is marked as N (No) or when no Distance Learning Code is selected. A value assigned at the Section level overrides a the value assigned at the Course level. *Alphanumeric, 1 character (Y or N)*	Section Information > Distance Learning Section.distance Code --- Course Information > State Defined > Distance Learning Course.distanceCode
Multiple Teacher Code	Coded value representing the Multiple Teacher Code. Data is reported but not stored in CALPADS for EOY. See the California Course and Section article for a list of options. *Numeric, 1 digit*	Section Information > Multiple Teacher Section.multipleTeacherCode

Data Elements	Description	Location
Education Program Funding Source Code	A coded value representing an Education Program that represents a particular source of previous or current funding. Reports blank when no code is selected. • 113: California Partnership Academy is the only choice. *Numeric, 4 digits*	Section Information > Program Funding Source Section.prgmFundingSrc
CTE Course Provider Code	This field reports blank.	N/A
Course Content Area Subcategory	Reports the assigned Content Area Subcategory for state codes that require a subcategory. See the California Course and Section article for more information. *Numeric, 7 digits*	Course Information > State Defined > Content Area Subcategory Course.embeddedCourseNumber
Departmentalized Course Standards Grade Level Range Code	Reports the grade level range code assigned to the course. *Alphabetic, 3 characters*	Course Information > State Defined > Grade Level Range Code Course.courseLevel

Data Elements	Description	Location
Content Standards Alignment Code	Reports the assigned code indicating which content standards were used to develop the course content. This field exists on both the Course Editor and the Course Section editor. Information reports first from the Section editor; when the field is not populated there, information reports from the Course editor. When the Departmentalized Course Standards Grade Level Range Code reports a value of NOT, this field reports a value of 3. *Numeric, 1 digit*	Section Information > Content Standards Alignment Code Course Information > State Defined > Content Standards Alignment Code Course.contentStandard
Filler Field	N/A	N/A
AP/IB Course Code Cross Reference	Reports the State Course Code of an Advanced Placement or International Baccalaureate course that is part of a career technical education pathway. *Numeric, 4 digits*	Course Information > AP/IB Course Code Cross Reference Course.wblCourseType

Data Elements	Description	Location
Online Course Instruction Type Code	Indicates how online courses are taught - by the instructor, by a facilitator, or by the learners. When the Distance Learning Indicator (field 24) reports a value of N or blank, this field reports the assigned value of Online Course Instruction Type from the Section editor first; when that field isn't populated, it then reports from the same field on the Course editor. *Alphabetic, 1 character*	Section Information > Online Course Instruction Type Course Information > State Defined > Online Course Instruction Type Course.teachingMethod Section.teachingMethod
Middle School Core Course Indicator	Indicates whether a course is being taught in a middle school core setting (two blocked periods of math and science taught by a teacher in grades 5-8, for example). When the Grade Level Range Code field reports a value of MID, this field reports a value of Y when the Middle School Core Course Indicator field is marked. *Alphabetic, 1 character (Y or N)*	Section Information > Middle School Core Course Indicator Section.middleSchoolCoreCourseInd Course Information > State Defined > Middle School Core Course Indicator Course.middleSchoolCoreCourseInd

Data Elements	Description	Location
Local Assignment Option Code	Indicates which staff have the appropriate credentials to teach the course. This field exists on both the Course Editor and the Course Section editor. Information reports first from the Section editor; when the field is not populated there, information reports from the Course editor. *Numeric, 2 digits*	Section Information > Local Assignment Option Code Course Information > State Defined > Local Assignment Option Code Course.program
High Quality CTE Course Indicator	Indicates whether the course section and teacher meet the High Quality CTE Course qualifications. When the State Course Code field (field 7) reports a code of 700-8999, this field reports a Y. *Alphabetic, 1 character (Y or N)*	Section Information > High Quality CTE Course Indicator Course.highQualityCTEInd Course > State Defined > High Quality CTE Course Indicator Section.highQualityCTEIndSection
