Health vaccines and their associated compliance listings are based on state guidelines. While Infinite Campus maintains standard guidelines for all states, districts have the ability to enter additional compliance rules. The following information describes vaccine compliance rules as defined by the Illinois State Department of Health.

For more information on the creation, modification or deletion of vaccine compliances, see the [Vaccines](#) page.

Read - View existing vaccines.

Write - Edit existing vaccines.

Add - Add new vaccines.

Delete - Delete vaccines.

Read rights allow full access to Vaccines for states with hard-coded vaccine rules.

For more information about Tool Rights and how they function, see this [Tool Rights](#) article.

General Compliance

- Compliance for Measles, Mumps and Rubella is indicated in the status for MMR. Compliance or exemption in each of these counts towards compliance in MMR.
- When dose spacing is 3 months or less, a month is 28 days.
- When dose spacing is 4 months or more, a month is a full calendar month.
- The day tolerance for all rules is 4 days.

Immunization Rules

The following tables describe Illinois immunization requirements per vaccine.

Some immunization rules are hard-coded and cannot be modified.
