Tool Search: Impact Aid

The Impact Aid tool tracks a person's employment at Federal sites (Armed Forces locations, Reservation lands, etc.). Federal **Impact Aid** is designed to assist United States local school districts that have lost property tax revenue due to the presence of tax-exempt Federal property, or that have experienced increased expenditures due to the enrollment of federally connected children, including children living on Indian lands.

Impact Aid works in conjunction with the [Military Connections](#) tool, which tracks parents/guardians enlisted in the military.

Impact Aid

This tool only displays information when the [Turn on Federal Impact Aid Tracking System Preference](#) is set to **Yes**. When it is set to No, the Impact Aid tool still displays in the People toolset, but no editors are available for data entry.
