List editors display a list of all records within that editor. Clicking an existing record or the **New** button opens the detail view for an individual record.

## Editor Lock Out and Release Logic

Only one user at a time can actively work on an editor. A person with a padlock icon (  ) displays

in the Editors side panel, Editor Home, and List Screen of list editors indicating which editors currently have users working on them. Hovering over the icon displays the name of the user who has checked out the editor, including the current user (you).

Editors that are currently being edited are read-only for all other users. The name of the person working on the editor displays in the header.

To release an editor, the user must:

- navigate to the next editor by clicking **Save and Next** or the **Editors** button and selecting the next editor from the side panel.
- click the **Cancel** button to return to the Editor Home screen.
- log out of the Campus application.
- navigate to a different tool in the Campus application.

Editors are automatically released when the in-application timeout limit has been exceeded. This is a back-end process and is usually around 30-60 minutes.

## Template Banks

Certain fields within several editors have an **Add Template** icon that displays next to their name. Clicking this button displays a side panel with the available library of predetermined text for that field. [Template Banks](#) are managed in System Administration.

## Present Levels of Performance

The Present Levels of Performance editor summarizes the student's current achievement in school. This editor includes areas for parent and student input and a description of various kinds of assistance the student could be receiving. The only field on the Present Levels of Performance editor is the Present Levels of Performance field, a required text field that can contain up to 8000 characters.

Present Levels of Performance

IN PROGRESS

Editor 6 of 21

In developing each student's IEP, the IEP Team must consider 1) the strengths of the student; 2) the concerns of the parents for enhancing the education of their student; 3) the results of the initial or most recent evaluation of the student; and 4) the academic, developmental, and functional needs of the student.

Provide a statement of the student's present levels of academic achievement and functional performance, including 1) how the student's disability affects the student's involvement and progress in the general education curriculum (i.e., the same curriculum has for nondisabled students; or 2) for preschool students, as appropriate, how the disability affects the student's participation in appropriate activities.

Present Levels of Performance \*

Example Present Levels statement

Remember to address:

- Strengths and needs using academic achievement (skill based assessment) AND functional performance
- Transition strengths and needs including the student's preferences and interests (must be in the student's IEP by age 16)
- Remember to include Parent input
- How the student's disability affects the student's involvement and progress in the general education curriculum

### Transition Services/Coordinated Set of Activities

Transition Services must be a coordinated set of activities/strategies designed within a results oriented process. This means that the activities are those steps or things that need to happen that will lead to post-school results and help the student achieve his/her desired post-secondary goals. All of the activities that will need to happen to help students achieve their post-secondary goals cannot be done by the school alone. Thus, the activities should include those things that others (student, families, and appropriate adult services, agencies or programs) will need to do. When viewed as a whole, the activities should demonstrate involvement and coordination between the student, families, and school as well as the appropriate adult services, agencies or programs.

The district must obtain written parental consent consistent with §24:05:29:13 prior to accessing a student's or parent's public benefits or insurance for the first time

**I understand the following:**

1. Personally identifiable information that may be disclosed (e.g., records or information about the services that may be provided to a particular student)
2. Purpose of the disclosure (e.g., billing for services under state special education rules)
3. Disclosure will be made to the state Medicaid agency; and
4. As parents, I understand and agree that the public agency may access the parent's or student's public benefits or insurance to pay for services under state special education rules

I CONSENT for District to submit claims to Medicaid for covered services. I authorize Medicaid to make these payments to the District. I authorize the release of information from the District to Medicaid as necessary to request payment of benefits. I understand that if I have private health insurance, Medicaid has the right to recoup the costs from my private health insurance. I understand that these costs may count against the lifetime cap of my private health insurance. I further understand that I will not incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim for services. However, the district may pay the cost that I otherwise would be required to pay in order to access my public benefits or insurance, the district is still required to provide my child with all the services necessary to ensure FAPE at no cost to me

I understand that I may revoke this permission at any time by notifying the District in writing.  
Refer to ARSD 24:05:14:01.02 through 24:05:14:01.06
