This information is specific to Kentucky districts.

PATH: *Student Information > General > Attendance > Attendance Profile*

Search Term: *Attendance*

The Student Attendance Profile has been modified to fit Kentucky standards and includes detailed attendance information, including check in and check out times, summaries of in-district and out-of-district transferred attendance, and enrollment information. The Profile is used by Kentucky districts as both a reference for school staff and as a legal document to be presented in truancy-related court proceedings.

Population Logic

The following tables describes the logic used when determine what records are reported:

Requirement

An Attendance Profile report can be generated for any student, regardless of excludes.

- Students with no scheduled classes will report no data (even if Virtual classes are assigned).

Excluded Enrollments Logic

- Enrollments in calendars marked Exclude or Summer School will be called out in a separate Excluded Calendar Enrollments section.
- Attendance data from calendars marked Exclude or Summer School will not be calculated for the student's current district.

Requirement

Transferred Attendance Logic

- The Attendance Profile will display this transferred attendance in individual summary sections for each district from which the student has transferred within the school year.
- Each of these sections is a snapshot of the student's attendance activity in the given district at the time the student was transferred.
- Transferred Attendance will not separate excluded calendar attendance.
- Infinite Campus requires that the previous enrollment be ended prior to transfer to properly transfer attendance from one district to another. If the previous enrollment is not ended, users must re-submit the transfer via the Records Transfer tab at the destination district.
- Prior to 2022-23 school year all transferred attendance values may include attendance data from calendars marked as Exclude or Summer School.
- Prior to 2010-2011 school year all transferred attendance values were calculated prior to the implementation of Whole Day / Half Day attendance.

Summary of In-District and Transferred Attendance Logic

- The 'Summary of In-District and Transferred Attendance' section adds together the saved values in the transferred attendance table with the values in the attendance Summary Table for the current district and provides totals for the entire year for all KY districts the student has attended. This can be considered the statewide total.
