

### MOSIS Student Course Completion Extract (Missouri)

Last Modified on 10/17/2025 11:16 am CDT

Report Logic | Report Editor | Generate the Student Course Completion Extract | Student Course Completion Extract Layout

Tool Search: MOSIS Extracts

The MOSIS Course Completion Extract collects the final grade and credits earned for each student for each course taken. Students report when they have completed the course, which may take the form of a student who has a final grade or a student who ended early.

**Read** - Generate MOSIS Student Course Completion Extract.

Write - N/A

Add - N/A

Delete - N/A

For more information about Tool Rights and how they function, see the **Tool Rights** article.

#### **Report Logic**

Courses must have a Grading Task marked as State Reporting assigned to them in order to report. Grading Task credits are included in the report when they are marked as State Reported and have a Code of Final Course Grade (FCG) on the <u>Grading Tasks</u> tool.

- Course are included in the report if the Credit Level is HS: High School or MS: Middle School on the Course tab.
- Scores must be mapped to a <u>State Score</u> to appear in the report.
- Students in grades 06-12 are included as long have been present in the course for at least one hour.
- Students in grades K-05 are included when the course is marked Yes for Online Learning.

A record reports for the student/course/section when the student has a drop date before the course/section end date ONLY when the student is NOT marked absent all dates/all periods between the Course/Section Start Date and the student's drop date.

One record per student is returned per enrollment. When a student has multiple enrollments in the same school year/calendar, only one record is returned.

Both Instructional and Non-instructional periods are returned.

For each student record returned that does NOT have a FCG entered:

- If a student is scheduled in the course/section AND was present in the course/section for at least one period AND drops the course/section AND is still NOT scheduled at the end of that section AND date NOT have a FCG, a value of WD reports in the Grade Earned field.
- If a student is scheduled n the course/section AND was present in the course/section for at least one period AND is still scheduled at the end of the section AND does NOT have a FCG, a value of IC reports in the Grade Earned field.

Any course marked as **Exclude from State Reporting** is not included. Any Course Section that has an **Assignment Number** value of 0 is not included.

The Course Completion extract collects the final grade and earned credit for each student for each class taken.

- Records are not returned when the Calendar is marked as State Exclude.
- Records are not returned when the Grade Level is marked as State Exclude.
- Records are not returned when the Enrollment is marked as State Exclude or No Show.

### **Greater than or equal to one hour of attendance**

A record is reported for the student/course/section when the student has a drop date before the Course/Section End Date ONLY when the student is NOT marked absent for all dates/all periods between Course/Section Start Date and the student's drop date.

If the student's enrollment, grade level or the course is not state exclude or if the student is not

marked as No Show and a student drop date exits, the student's attendance from the section start date to the drop date is used. If the student was not absent the entire day for all day's scheduled, a record is returned for that student. If the student is absent the entire day in all days, a record is not returned.

For each student record returned that does not have a final course grade entered, the following values are returned in the Grade Earned field:

- If a student is scheduled in the course section and was present in the course section for at least one period and drops the section and is still not scheduled at the end of that section and does not have a final course grade, a value of WD is returned.
- If a student is scheduled in the course section and was present for at least one period and is still scheduled at the end of that section and does not have a final course grade, the value IC is returned.

#### **Report Editor**

Different options are available for entry on the Extract editor depending on the chosen Reporting Period. The following defines the available Extract Options, noting the different fields.

Extract Option	Description
Extract Type	Determines the extract that generates. Selection should be Student Course Completion.
Reporting Period	Indicates the section of the school year for which student data is being reported. The only Reporting Period available for this extract is February.
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Report State Excluded Course Sections	When marked, course sections where the Assignment Number field on the Course Section editor has a value zero (0), those sections are included in the report, as long as the sections meet all other reporting population logic.  Marking this checkbox will also includes courses where the Exclude from
	State Reporting checkbox are marked on the Course editor.
Report State Excluded Students	When marked, students who meet the report population requirements but their enrollment record is marked as State Exclude report along with all other records.
	When not marked, students marked as State Exclude on their enrollment record are excluded from the report.

Extract Option	Description
Date Range	Entered date values return courses that are active on or between the entered dates. Default date settings are the beginning of the school year as the start date and the current date as the end date. Modify these dates by typing in <i>mmddyy</i> format or by using the calendar icon to choose a date.
	When an end date is entered in the Date Range, the report only returns students whose enrollment records have an end date, regardless of their course setup. If an end date is not entered in the Date Range, the report returns
Ad hoc Filter	Selection includes only those students included in the filter.
Format	Determines how the extract generates. Use the State Format (CSV) when submitting the final data to MOSIS. Use the other available formats (HTML, Tab Delimited, XML) for data review and testing.
Calendar	Selected calendar indicates which students will be included in the report. Multiple calendars can be selected at one time; it is recommended that all calendars in a district not be selected as this will increase the amount of time it takes to generate the extract. The calendar chosen in the Campus toolbar is already selected.
Generate Extract	Generates the selected calendar information and extract immediately for data review and printing purposes in one of the selected formats.
Submit to Batch	Delays the generation of the extract for data review and printing purposes for a designated time. See the <u>Batch Queue</u> documentation for more information.

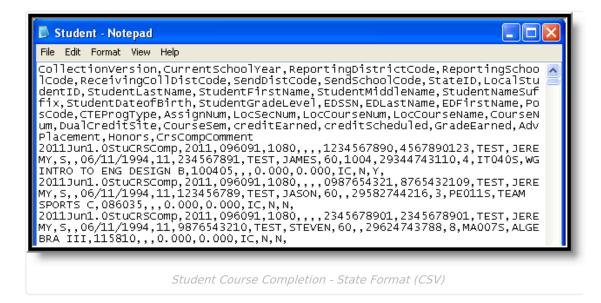

# **Generate the Student Course Completion Extract**

- 1. Select **Student Course Completion** as the Extract Type.
- 2. The **Reporting Period** is pre-selected as June.
- 3. Mark the **Report Protected Identities** checkbox, if desired.
- 4. Mark the Report State Excluded Course Sections, if desired.
- 5. Mark the **Report State Excluded Students** checkbox, if desired.
- 6. Enter a Date Range.
- 7. If desired, select an **Ad hoc Filter** to control what students appear in the report.
- 8. Indicate the **Format** in which the report should generate.
- 9. Select the **Calendar(s)** that should be included on the report.
- 10. Click **Generate Extract** to generate the report in the desired format.

Users have the option of submitting a Student Course Completion report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more

information about submitting a report to the batch queue, see the Batch Queue article.

## Student Course Completion Extract Layout

Element Name	Description	Location
Collection Version	The collection version consisting of a hard-coded value and the calendar end year. For example, the 2011 June collection would report "2011Jun1.0StuCRSComp."  Alphanumeric, 50 characters	Data not stored
Current School Year	The ending year of the current school year. For example, for the 2010-2011 school year, reports as 2011.  Date field, 4 digits (YYYY)	School Year Setup > End Year  Calendar.endYear
Reporting District Code	The DESE-assigned count district code of the reporting district.  Numeric, 6 digits	System Administration > Resources > District Information > State District Number  District.number

Element Name	Description	Location
Reporting School Code	DESE-assigned 6-digit school code for the reporting school.  Reports the selected code entered on the State Reporting Fields Enrollment editor, if populated.  • If not populated, the Reporting School Code on the Course reports.  • If the Reporting School field on the Enrollment record is not populated and the Reporting School Code on the Course is not populated, the Calendar Type is used to determine the reported value. If the Calendar Type Code is AP: Alternative Program School, all students enrolled in that calendar report the value entered in the Residing School field on the State Reporting Enrollment editor.  • If the Reporting School field is not populated and the Calendar Type is used. When the School Organization Type is used. When the School Organization Type is used. When the School of Ithe Residing School field in that school report the value entered in the Residing School field in the State Reporting Enrollment editor.  • If the Reporting School field is not populated and the Calendar Type is not AP and the School Organization Type is not AP and the School Organization Type is not AP, the Reporting School reports from the State School Number.  **Note: while this report displays the full 6 digit school code, the state only accepts 4 and this value will need to be manually adjusted before submitting to the state.	Enrollments > State Reporting Fields > Reporting School; Residing School  Enrollment.reportingSchool  Enrollment.residingSchool  Course Information > Reporting School Code  Course.reportingSchoolCode  Calendar Information > Type  Calendar.type  School Information > School Org Type; State School Number  School.type School.number
Receiving Coll Dist	Six-digit number and name of the sending district.	Course Information > Dual Credit

Element Name	Description	Location
Send District Code	Resident district of the student.  When the Career Center checkbox is marked on the Calendar, the Sending District reports from the Course editor for ALL students.  When the Sending District field is not populated on the Course Editor, then it reports from the Resident District field on the student's Enrollment record.  When the Career Center checkbox is unmarked and the Dual Credit Site value is DIST:  • When the Section Student Detail > "Not taking for Dual Credit" checkbox is marked, this reports as blank.  • When the Section Student Detail > Dual Credit Site Override field is populated, and that value does not match the Section Information > Dual Credit Site Code, DIST reports.  • When the Section Student Detail > Dual Credit Site Override is populated, DIST reports.  • When the Section Information > Dual Credit Site Code is not blank, DIST reports.  • When the Section Information > Dual Credit Site Code is not blank, DIST reports.  • When the Section Information > Dual Credit Site Code is not populated and the Dual Credit Site Code is blank, this data element does not report.  When the Career Center checkbox is not marked and the Dual Credit Site Code is COLL, ACC, or ITV:  • The Sending School reports.  • When Sending School is null, the value reports from the Residing School field on the Enrollment record.  When the Dual Credit Site Code Override is the State District Number, this field reports as null.	Enrollments > State Reporting Fields > Residing District  EnrollmentMO.residingDistrict  Course Information > Custom Data Elements > Sending District

Element	Description	Location
Name	Numeric, 6 digits	
Sending School Code	The four-digit number of the sending high school. This value reports only when the Sending District Code field is reported.	Course Information > Sending School Code
	When the Career Center checkbox is marked, all students report the sending school from the Sending School field on the Course editor.	Enrollments > State Reporting Fields > Residing School  Enrollment.residentSchool
	When the Sending School field is not populated on the Course editor, the value reports from the Residing School field on the Enrollment record.	Course Information > Custom Data Elements > Sending District Course.sendingSchoolCode
	When the Career Center checkbox is unmarked and the Dual Credit Site value is DIST:  • When the Section Student Detail > "Not taking for Dual Credit" checkbox is marked, this reports as blank.  • When the Section Student Detail > Dual Credit Site Override field is populated, and that value does not match the Section Information > Dual Credit Site Code, DIST reports.  • When the Section Student Detail > Dual Credit Site Override is populated, DIST reports.  • When the Section Information > Dual Credit Site Code is not blank, DIST reports.  • When the Section Information > Dual Credit Site Code is blank, this data element does not report.  When the Career Center checkbox is unmarked and the Dual Credit Site Code is COLL, ACC, or ITV:  • The Sending School reports.  • When Sending School is null, the value reports from the Residing School field on the Enrollment record.  When the Dual Credit Site Code Override is the State District Number, this field	

Element Name	reports as null. <b>Description</b> Numeric, 4 digits	Location
State ID	The state assigned student identifier.  Numeric, 10 digits	Demographics > State ID  Person.stateID
Local Student ID	The local student identification number maintained by the district.  Numeric, 20 digits	Demographics > Student Number  Person. studentNumber
Student Last Name	Legal last name as it appears on the student's birth certificate.  When the Report Protected Identities checkbox is marked on the report editor, the student's last name reports from the Legal Last Name field if populated.	Demographics > Person Information > Last Name Identity.lastName
		Identities > Protected Identity Information > Legal Last Name
	Alphanumeric, 50 characters	Identity.legalLastName
Name student's birt When the Rep checkbox is n	Legal first name as it appears on the student's birth certificate. When the Report Protected Identities checkbox is marked on the report editor, the student's first name reports from the	Demographics > Person Information > First Name Identity.firstName
	Legal First Name field if populated.  Alphanumeric, 30 characters	Identities > Protected Identity Information > Legal First Name
		Identity.legalFirstName
Student Middle Name	Legal middle Name as it appears on the birth certificate.	Demographics > Person Information > Middle Name
	When the Report Protected Identities checkbox is marked on the report editor, the student's middle name reports from the Legal Middle Name field if populated.	Identity.middleName  Identities > Protected Identity  Information > Legal Middle Name
	Alphanumeric, 30 characters	Identity.legalMiddleName

Element Name	Description	Location
Student Suffix	Generational indication (Jr., III, etc.) part of the name, if any.	Demographics > Person Information > Suffix
	When the Report Protected Identities checkbox is marked on the report editor, the student's middle name reports from the Legal Suffix field if populated.	Identity.suffix
		Identities > Protected Identity Information > Legal Suffix
	Alphanumeric, 10 characters	Identity.legalSuffix
Student Date of Birth	The date on which the student was born.	Demographics > Birthdate
or Birth	Date field, 10 characters (MM/DD/YYYY)	Identity.birthDate
Student Grade Level	The grade level of the student's enrollment.	Enrollments > Grade
Grade Level	Alphanumeric, 2 characters	Enrollment.grade
ED SSN	The social security number of the primary teacher of the course section that is	Demographics > Soc Sec Number
	active as of the end date entered on the report editor.	Identity.ssn
	If there is no primary teacher for the course section, the value tied to the teacher that was last active as of the end date on the extract editor reports.	
	Numeric, 9 digits	

Element Name	Description	Location
ED Last Name	The last name of the primary teacher of the course section that is active as of the end date entered on the report editor.  When the Report Protected Identities checkbox is marked on the report editor, the educator's last name reports from the Legal Last Name field if populated. If there is no primary teacher for the course section, the value tied to the teacher that was last active as of the end date on the extract editor reports.  This field reports a blank value when the educator's last name's first three characters is DNR. When Report Protected Identities is marked, the last name reports blank.	Demographics > Last Name  Identity.lastName  Identities > Protected Identity Information > Legal First Name  Identity.legalLastName
ED First Name	Alphanumeric, 60 characters  The first name of the primary teacher of the course section that is active as of the end date entered on the report editor.  When the Report Protected Identities checkbox is marked on the report editor, the educator's first name reports from the Legal First Name field if populated. If there is no primary teacher for the course section, the value tied to the teacher that was last active as of the end date on the extract editor reports. This field reports a blank value when the educator's last name's first three characters is DNR. When Report Protected Identities is marked, the first name reports blank.  Alphanumeric, 60 characters	Demographics > First Name  Identity.firstName  Identities > Protected Identity Information > Legal First Name  Identity.legalFirstName

Element Name	Description	Location
Pos Code	Position code of educator's assignment. See the <u>Position Codes</u> table for a list of options.	District Assignments > Employment Assignment Information > Assignment Code
	If this field is null, the Assignment Code for the Primary Teacher reports from the Employment Assignment. If both the Position Code field and the Assignment Code field are null, a value of 60 reports.  Alphanumeric, 2 characters	Section Information > Section Editor > Position Code  Enrollment.positionCode
CTE Prog	The program type code of the CTE	Course Information > CTE
Туре	approved program.	Program Type
	Alphanumeric, 4 characters	Course.programType
Assignment Number	The number used to uniquely identify an instance of educator's course assignment also used to link that course to the records of the students within the course.  A record must exist in the Course Assignment Extract with the same Assignment Number, EDSSN, Current School Year, Reporting District Code, Reporting School Code, Pos Code and CTE Program Type in order to match. The value reports from the Section Assignment Number field. If that field is not populated, a concatenated value of the course ID plus the section ID reports.  Alphanumeric, 20 characters	Section Information > Assignment Number  Section.assignment Number
Loc Sec Num	The section number.  Numeric, 6 digits	Section Information > Section Number Section.number
Loc Course Num	The course number.	Course Information > Number
	Alphanumeric, 12 characters	Course.number
Loc Course Name	The abbreviation of the course name.	Course Information > Name
Hallic	Alphanumeric, 60 characters	Course.name

Element Name	Description	Location
Course Num	The course's state code.	Course Information > State Code
	Alphanumeric, 6 characters	Course.stateCode
Course Time Unit	The unit of time for which the grade and credit was earned.  • The value entered in the Course Time Unit reports if that field is populated.  • If the Course Time Unit field is null, the value reports from the Semester Code field:  • When CourseSem is 0, reports as YL.  • When CourseSem is 1, reports as S1.  • When CourseSem is 2, reports as S2.	Section Information > Section Editor > Course Time Unit  CustomSection.value
	Alphanumeric, 2 characters	
Dual Credit Site	The site at which instruction of college credit (dual credit) course is given. Required when the ReceivingColDistCode is not equal to ReportingDistrictCode and the ReceivingColDistCode is a college.  When the Career Center checkbox is marked on the calendar, Dual Credit reports from the Course for ALL students enrolled in courses for the selected calendar. When the Dual Credit field on the Course editor is not populated, a blank value reports.  When the Career Center checkbox is unmarked and the Dual Credit Site value is DIST:  • When the Section Student Detail > "Not taking for Dual Credit" checkbox is marked, this reports as blank.  • When the Section Student Detail > Dual Credit Site Override field is populated, and that value does not	Course Information > Dual Credit Section Information > Dual Credit Course.pseoType

Element Name	<ul> <li>match the Section Information &gt; Dual Credit Site Code, DIST reports.</li> <li>When the Section Student Detail &gt; Dual Credit Site Override is populated, DIST reports.</li> <li>When the Section Information &gt; Dual Credit Site Code is not blank, DIST reports.</li> <li>When the Section Information &gt; Dual Credit Site Code is blank, this data element does not report.</li> <li>When the Career Center checkbox is unmarked:         <ul> <li>When the Course Information &gt; Dual Credit value is ITVN, this data element reports as blank.</li> <li>When the Course Information &gt; Dual Credit is COLL, ITV, or ACC, the code reports on the extract.</li> </ul> </li> <li>When the Dual Credit Site Code Override is the State District Number, this data element reports as blank.</li> <li>Alphanumeric, 4 characters</li> </ul>	Location
Course Sem	The length of the course.  Numeric, 1 digit	Section Information > Semester Code Section.semCode
Credit Earned	The number of credits earned by the student for the course for a course that has a Credit Level of HS: High School or MS: Middle School.  Numeric, 4 digits (X.XX, XX.X, XXX)	Data not stored

Element Name	Description	Location
Credit Scheduled	The number of credits the student was scheduled to earn for a course that has a Credit Level of HS: High School or MS: Middle School.  When a course has a Credit Level of HS: High School OR MS: Middle School, and credit is assigned to a Course Master grading task where the Grading Task State Reported checkbox is marked, then the aggregated possible credits for this student's course/section record report.  Credit Scheduled is calculated by:  1. aggregating the credits assigned per state reported grading task marked with a grade for each student/course/section.  2. Credit Scheduled per course/section is the maximum of the aggregate calculated in step #1 above.  Standards are ignored in the Credit Scheduled calculation, and only aggregate credit is based on the credit assigned to the state-reported grading task.  Numeric, 4 digits	Calculated, Data not stored  Grading & Standards > Grading Tasks > Grading Task Detail > State Reported
Grade Earned	The grade the student earned for the course. Options include standard A+ through F grades, IC for incomplete and WD for students who withdrew. To report, the Grading Task must be flagged as State Reported and with a Code of FCG (Final Course Grade). The grade in the Score Group or Rubric must be mapped to a State Score value.  Alphanumeric, 2 characters	Data not stored
Adv Placement	Indicates if the course is designated as advanced placement (AP).  Alphanumeric, 1 character (Y or N)	Course Information > Type  Course.type

Element Name	Description	Location
Honors	Indicates if the course is designated as an honors level course.  Alphanumeric, 1 character (Y or N)	Course Information > Type  Course.type
Crs Comp Comment	The comments attached to the course. This field reports blank when the first three characters in the Course Comment field are DNR.  Alphanumeric, 70 characters	Course Information > Comments  Course.comments
Course Sequence Number	Identifies the content of courses taught at more than one level. If only one level of course content is offered, this value is blank.  Numeric, 1 character	Course Information > Sequence  Course.sequence  Number
Credit Type	Reports N/A for all records.  Alphanumeric, 2 characters	N/A
Virtual Provider	Reports the code selection on the Course Section, indicating the organization that provided virtual learning.  Reports first from the Virtual Provider field on the Course Section. When that field is not populated, the value reports from the Virtual Provider field on the Course Information or Course Master Information editor. If that field is not populated, no value reports.  Numeric, 2 digits	Section Information > Virtual Provider  Section.provider  Course Information > Virtual Provider  Course.provider

Element Name	Description	Location
Other Virtual Provider	Reports the text entered on the Course Section indicating a second provider of virtual education.  Reports first from the Other Virtual Provider field on the Course Section.  When that field is not populated, the value reports from the Other Virtual Provider field on the Course Information or Course Master Information editor. If that field is not populated, no value reports.  Alphanumeric, 60 characters	Section Information > Virtual Provider  Section.providerDisplayOverride  Course Information > Other Virtual Provider  Course.providerDisplay
