

# Mass Update Process

Last Modified on 03/15/2024 10:24 am CDT

Tool Search: Mass Update Process

You can use the Mass Update Process to update the Pay Type on Work Assignments or to Set the Work Assignment Payroll Sync Flag.

Data Element	Description
<b>Pay Type</b>	The Pay Type on the Work Assignments is used to identify the type of payment being processed for an employee. You can use the Mass Update Process tool to update en masse the Personnel Work Assignment records for <a href="#">summer payouts</a> and quickly change them back after summer payouts are complete.
<b>Set Work Assignment Payroll Sync Flag</b>	The Payroll Sync flag is a checkbox on the <a href="#">Work Assignment</a> screen. When the checkbox is marked and this Mass Update Process is run, changes to the Work Assignment data in Campus are automatically updated in the Payroll module.

You can use an [Ad Hoc filter](#) to narrow your selection of employees. However, only HR Person filters that contain the assignmentID field from the Work Assignment category are available for selection.

If you recently added a new [Pay Type](#), there may be a slight delay before the new code appears in the New Pay Type Value dropdown list.

### Mass Update Process

Use the Mass Update Process to change fields on the Work Assignment screen. Select the appropriate field under "Data Element" and choose filtering criteria for the Personnel Work Assignment records to be updated. Adding specific selection criteria is encouraged to narrow the scope of changes.

**Please Note:** Less criteria may result in longer run times.

After you run the preview, click the Run Update in Batch Queue button to change the Personnel Work Assignment records. A window with Batch Queue reporting options displays. Once you click OK, your request is put in the [Batch Queue](#). You will receive a notification in the Process Alerts when the report is completed. The Mass Update Process report is available from the Process Alerts message or from the [Batch Queue](#) tool.

When the update is successful, the Status on the Mass Update Process report is Updated and includes the date and time of the update. Any errors appear at the top of the list and must be corrected in order for Campus Human Resources and Campus Payroll to be in sync. If you need assistance resolving errors, contact your Campus Support Representative.
