

Evaluation Summary Report (BIE)

Last Modified on 02/27/2025 10:31 am CST

Tool Search: Special Ed Documents

Evaluations are used to document the student's educational needs and determine eligibility for special education. This document describes each editor, the section(s) of the print format that includes the entered information, a description of each field on the editor, and any special considerations and instructions for using the editor and fields.

An evaluation must be created whether or not the student is determined to have a disability. The school district gives a copy of the evaluation summary report, including the documentation of eligibility, to the student's parents. For information on general functionality, navigation, and additional plan and evaluation features, see the core [Plan and Evaluation Information](#) article.

The current format of this document is the **BIE Evaluation 2023**. Evaluation formats are selected in the [Eval Types](#) tool.
