Select Students

The results of the report can be narrowed by selecting specific grade levels, using a Student Ad Hoc filter, or entering the student State Student ID number. Any State Student ID entered must exactly match the State ID shown in the student's Demographics Summary. The report can be run for multiple State Student IDs when each number is separated by a comma.

The results default to students in All Grades

Report Logic

- One card will print per student per enrollment. If a student has multiple enrollments during the year, the report header reflects the most recent enrollment.
- The high school assessment aligned with a course taken by a student in grades 06-08 reports once the assessment has been taken.
- A record does not report if an enrollment has an Enrollment Start Date that takes place after the End Date identified in the extract editor.
