The End of Year Report lists students who are considered Truant Minor, have a No Pass/No Play Behavior Resolution, have Health and Wellness details, and have Minutes per Week.

End of Year Report

Report logic

All students who have had an enrollment at any time during the selected calendar report. If a student has consecutive enrollments within the district, attendance is calculated on a per-calendar basis. Student attendance is calculated only for the school in which the student is enrolled when the attendance event occurs.

- The enrollment Start Date must be before the End Date entered in the report editor and on or before the Calendar End Date.
- The enrollment End Date must be null or fall on or after the Calendar Start Date.

If there are multiple enrollments for a student, the enrollment record with the highest start date (most recent) reports.

Students are not included when:

- Their enrollment record is marked as State Exclude or No Show.
- Their enrollment grade level is marked as Exclude from State Reporting.
- Their enrollment calendar is marked as Exclude.

Truancy definitions and logic

For the Illinois End of Year (EOY) Report, the logic for truancy fields is based on unexcused full-day absences relative to the total number of attendance days.

Term	Definition	Logic
Truant Student	A student absent without valid cause for a school day or portion thereof.	A student with any period marked with the Attendance code of **Absent Unexcused** or **Absent Unknown** in an instructional period is considered Truant on that day.
Number of Truants	An unduplicated count of students who have at least **one** unexcused or unknown absence in an instructional period during the selected calendar.	A student is counted if they have at least one attendance mark with a status of **Absent** and an excuse of **Unexcused** or **Unknown.** **Inclusion Rule:** If a student qualifies as a Chronic Truant, they must also be included in the Truant count
Chronic Truants	A student subject to compulsory school attendance who is absent without valid cause for **5% or more** of the previous 180 regular attendance days. **When a student is counted as a Chronically Truant, that student is included in the Truant count.**	• Counts students with **Whole Day** absences (status: Absent; excuse: Unexcused or Unknown) for 5% or more of the attendance days marked in the calendar. • **Whole Day Absence:** Defined as being marked absent/unexcused or absent/unknown for **ALL** courses scheduled into an instructional period for that day. • **Rounding:** If the 5% calculation yields a decimal (e.g., 8.75 days), the student must round up to the next whole number (e.g., 9 days) to qualify.
Truant Minor	A truant minor is a **Chronic Truant** who has been provided (or offered and refused) supportive services—such as prevention, diagnostic, and remedial services—that failed to stop the chronic truancy.	• The student must first meet the **Chronic Truant** criteria. • The **Truant Minor** (or "Needs Supervision") checkbox must be manually checked on the student's **Enrollment > State Reporting Fields** record. • This count is a subset of Chronic Truants and should never exceed the total Chronic Truant count
Date Qualified Truant	The first date in the school year that the student met the criteria to be considered Truant.	

Date Qualified Chronic Truant	The first date in the school year that the student met the criteria to be considered a Chronic Truant.	

Report Editor field descriptions

Field	Description
Summary Type	Select either **Year** or **Period**. The Year option verifies attendance data for the entire school year of the selected calendar. The Period option requires entering a Start and an End Date.
Start Date and End Date	*Only displays when generating the Period Summary Type.* Used for reporting of actual student attendance calculations. Enter a date range to return actual attendance calculations. Dates are entered in *mmddyy* format or selected using the calendar icon.
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields. The calculation reported in the extract may vary depending on whether protected identity information is included.
Format	Indicates whether the report displays in CSV (State Format) or HTML format.
Choose Grades	Select which grade levels to include in the report.
Ad hoc Filter	Select an existing ad hoc filter from which to report students.
Calendar Selection	Select at least one calendar from which to report data. Calendars can be selected by Active Year, by School, or by Year.
Report Generation	Two buttons are available for generating the report: • **Generate Report** - displays the report instantly. • **Submit to Batch** - sends the report to the Batch Queue for generation at a specified time. This option is recommended when generating the report for a large number of students.

Generate the End of Year Report

1. Select the desired **Summary Type**.
2. If the **Period Summary Type** is selected, enter a **Start Date** and **End Date**.
