

Assessment Status Calculation Tool (Maryland)

Last Modified on 01/10/2025 12:24 pm CST

Tool Search: Assessment Status Calculation Tool

[Report Logic](#) | [Report Editor](#) | [Calculate Assessment Statuses](#) | [Assessment Calculations](#) | [Calculated Assessment Results Records Layout](#)

The Assessment Status Calculation Tool calculates Assessment Statuses for assessments reported in the [HSDC \(High School Data Collection\)](#) and [Student Record Card 3](#).

Run the Assessment Status Calculation tool **BEFORE** generating the [HSDC \(High School Data Collection\)](#) and [Student Record Card 3](#).

This tool calculates the assessments reported in the HSDC and Student Record Card 3 reports and stores Assessment status values in the [Calculated Assessment Statuses](#) tab. The Assessment Status Calculator tool determines whether the student took one of the following assessments and calculates the status of these assessments: MHSA Math, MHSA ELA, MHSA Science, MHSA Government, 11th Grade CCR Math, or 11th Grade CCR ELA.

Assessment Status Calculation Tool ☆ Reporting > MD State Reporting > Assessment Status Calculation Tool

Assessment Status Calculation Tool

This tool calculates assessments reported in the HSDC and Student Record Card 3 Reports. Once run, data from this tool is stored in the Calculated Assessment Status tab for retrieval by those reports.

The Assessment Status Calculation Tool determines whether the student took specific assessments and the status of those assessments.

Each time the Assessment Status Calculation Tool is run, all existing values in the database are overwritten.

The Second Semester Start Date is used to identify 16: Second Semester Transfer Students. If left blank, that status is not calculated.

This is a very complex tool. For best performance, please try to limit the number of schools or students run per batch or consider using the Submit to Batch button.

Assessment Status Calculator Tool Editor

Report Logic

- The Assessment Status Calculation Tool calculates based on the options you select on the extract editor.
- Students with an active enrollment in the selected calendar during the calendar year are updated.
- When a student has multiple assessments that meet the calculation criteria, the tool only updates the student once.

Campus Maintained Custom Unweighted GPA Logic

- The number of decimal places is set up in System Administration > Preferences > System Preferences > # of Significant GPA Decimal Places.
- Each time the Assessment Status Calculation tool runs, results overwrite previous data.
- ESOL courses are identified on the Course > Department = ESOL.

Report Editor

Field	Description
Effective Date	To report, students must have an Enrollment Start Date on or before the date selected in this field. The default date is June 30 of the current school year, but it can be changed.
Second Semester Start Date	The Second Semester Start Date is used to identify 16: Second Semester Transfer Students. If left blank, that status is not calculated. Each time the Reported Assessment Calculator function is run, all existing values in the database for the Calculated Assessment Status tab are overwritten. You can manually overwrite the calculated assessment status values in the custom tab or via the Assessment Status Override tool. The Calculated Assessment Status tab should be updated before generating HSDC or Student Record Card 3.
Format	The format in which Campus will create the report. Options include: <ul style="list-style-type: none"> • HTML • CSV
Exclude Cross-Site Data	Cross-site section enrollment data is not included in the report when checked. <ul style="list-style-type: none"> • <u>Cross-site enrollment</u> functionality must be enabled at the district level for the checkbox to display. • Defaults to checked.
Assessment To Calculate	Select assessment(s) to calculate.
Select Students	Select students by choosing one or more grade levels or a saved ad hoc filter. <ul style="list-style-type: none"> • Grade - Only grade levels from schools active in the selected calendars display. Only students in the selected grade levels report if they meet the reporting requirements. • Ad Hoc Filter - Only those students in the filter report if they meet the reporting requirements.
Select Calendar(s)	The calendar(s) from which data is pulled for the report.
Run/Submit to Batch	Users can submit the report request to the batch queue by clicking Submit to Batch instead of Run . This process allows larger reports to be created in the background without disrupting Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

Calculate Assessment Statuses

1. Enter the **Effective Date**.
2. Select the **Students** and **Calendars** for which you want to calculate Assessment Statuses.
3. Enter the Second Semester Start Date.
Note: This is used to identify 16: Second Semester Transfer Students. If left blank, that status is not calculated.
4. Select the format in which the report will be created. Options include HTML and CSV.
5. If cross-site enrollment functionality is enabled at the district level, the **Exclude Cross-Site Data** checkbox will display (defaults to checked). Deselect if you want cross-site data included in the report to display.
6. Click **Run** or **Submit to Batch**.
Result: Campus calculates the Assessment Status, stores it on the Calculated Assessment Statuses tab, and creates the Calculated Assessment Results Records report.

Assessment Calculations

[Assessment Status Calculation](#) | [CCR Math Status Calculation](#) | [CCR ELA Status Calculation](#)

Assessment Status Calculation

The Assessment Status Calculation Tool process saves the following assessment statuses on the Calculated Assessment Status tab.

If the student...	Then this assessment status is saved...
does not have a qualifying assessment	30: Not Taken
has a passing score on the assessment	10: Passed
does not have a status of 10 AND their Diploma Type on the Graduation Tab \neq 02 AND has a Bridge Program for the Assessment subject (Algebra, ELA, Biology, Government) where the Project Status = Met	12: Completed Bridge Program
does not have a status of 10 or 12 AND their Diploma Type on the Graduation Tab \neq 02 AND <ul style="list-style-type: none"> • has an assessment with a Waiver code aligned to a Standard Code of AS15 on any assessment with the same Subject Code OR • has an Assessment with a Waiver code aligned to a Standard Code of AS17 on any assessment with the same Subject Code 	17: Waiver OR 15: Course Credit

If the student...	Then this assessment status is saved...
does not have a status of 10, 12, 15, or 17 AND the student is a certificate of completion student OR Student has a Waiver with the standard code AS18 on any assessment with the same Subject Code	18: Not Required for Graduation-
does not have a status of 10, 12, 15, 17 or 18 AND the student's first enrollment start date in the selected calendars is on or after the Second Semester Start Date in the extract editor	16: Second Semester Transfer
does not have a status of 10, 12, 15, 17, 18 or 16 AND the student has a failing score on the assessment	31: Failed

CCR Math Status Calculation

Step	Action	Campus Interface
1	Campus determines if the student is in Grade 11 or 12. <ul style="list-style-type: none"> If no, Not Met reports for 11th Grade CCR – Math If yes, continue the calculation. 	Enrollments > State Grade Level
2	Campus determines the year the student is in Grade 11. Assessments and courses <ul style="list-style-type: none"> on and after the student's earliest 12th grade entry date are excluded. after the extract editor Effective Date are excluded. 	Enrollments > State Grade Level > End Year

Step	Action	Campus Interface
