

# Establish Test Requirements

Last Modified on 10/21/2024 8:21 am CDT

[Best Practices](#) | [Test Requirements Editor](#) | [Establish Test Requirements](#)

Tool Search: Graduation Programs

Specific tests that students are required to pass can be aligned to a Graduation Program through the Test Requirements tool. In order to apply Test Requirements, the user must have the Test Code or State Code for the test that is being applied.

For each assessment attached to a specific program, results and passing scores must be defined on the [Test Editor](#). This information displays on the student's [Grad Progress](#) tab and the Graduation Progress section on the Campus Portal.

If you are using the Multiple Year Academic Planning functionality, see the **Best Practices** section below.

Graduation Program Setup ☆ Student Information > Program Administration > Graduation Program Setup

Test Requirements

Test Requirements display on the student's Progress tab and the Academic Progress section on the Campus Portal. For detailed information on entering data in these fields, refer to the [Knowledge Base](#).

When entering information, provide enough detail in the Requirement Description so others reviewing this information (staff, parents/guardians, students, etc.) are clear on what the requirement is.

A comma-separated list of codes is required in the Test Code(s) or State Code(s) fields. The following wildcard symbols can be used: % (percent), \_ (underscore), [] (brackets), and ! (exclamation point). For more information on wildcards and their use, see the [Knowledge Base](#).

Click Preview to view a list of the tests included in this requirement. The list is based on the values entered in the Test Code, State Code and Subject fields.

If 'One Score at or above' is selected for Evaluation Mode, one of the tests taken must meet or exceed the Min Raw or Min Scale to meet the requirement. If 'Sum of Scores at or above' is selected, the sum of test scores must meet or exceed Min Raw or Min Scale to meet the requirement. If 'Count of Passing Tests' is selected, the count must meet or exceed the entered Count to be considered complete. If a test is taken multiple times, only the highest score is considered.

Requirement Description	Test Code(s)	State Code(s)	Subject	*Evaluation Mode	Min Raw	Min Scale	Count	Seq
1 instance of a score at or above 1 for state ELA	ELA		Reading: Reading	Preview One score at or above				
2 instances of passing scores for state math assessments		123	Math: Math	Preview Count of passing tests				
1 passing score for Basic Standards in Reading	BSI			Preview One score at or above				

[Add TestRequirement](#)

*Test Requirements for Graduation Programs*

## Best Practices

- The Requirements Description field should provide a meaningful message for the portal user. Suggestions would be to include Assessment full name (Test name).

- Result codes and passing/failing results should be entered for each test. See the [Test Setup](#) article for more information.

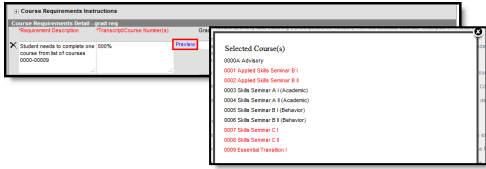

## Wildcard Symbols

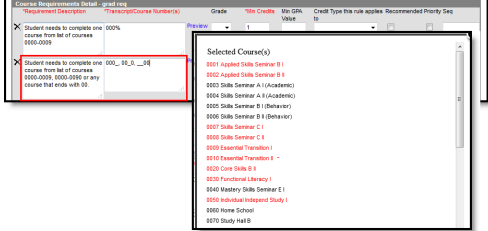

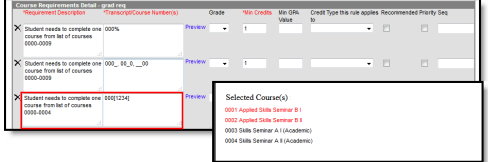

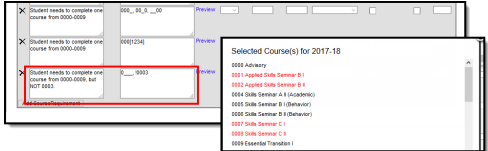

Wildcard symbols can be used when entering course numbers for Course Requirements, test codes and state codes on Test Requirements, and when entering courses and tests on Compound Requirements. The examples below use the Course Requirements as the starting place; adapt these situations for the tool for which you are entering values.

Using wildcard symbols can reduce the amount of time spent setting up the requirements. While Campus allows use of several other wildcard search options (noted on the Searching in Campus article), for Academic Planning, only the following can be used:

- % (percent) - matches any 0 (zero) or more characters
- \_ (underscore) - matches any 1 character
- [abc] (brackets) - matches any of a, b, or c
- ! (exclamation point) - excludes characters

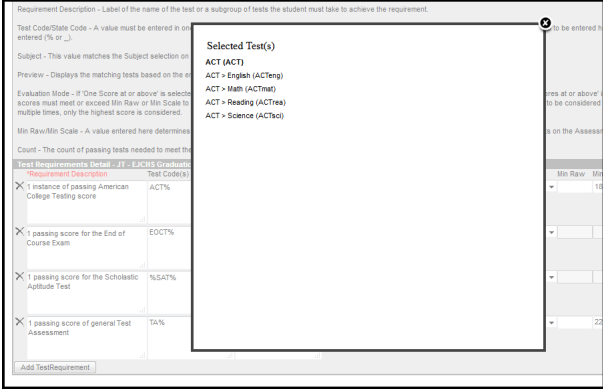

The table below lists some examples of what occurs when using these wildcard symbols.

Wildcard Option	Course Requirement	Entered Transcripts/ Course Numbers Value	Image and Notes
Percent	Student needs to complete one course from list of courses 0000-0009	000%	 <p>This is a simple example, but using the percent option can be adapted to a variety of situations.</p> <p>Instead of using the percent at the end of a value, it could be used in the middle of a value, like 00%0. This returns courses that begin with 00 and end with 0.</p>

Wildcard Option	Course Requirement	Entered Transcripts/ Course Numbers Value	Image and Notes
Underscore	Student needs to complete one course from list of courses 0000-0009, 0000-0090 or any course that ends with 00.	000_ . 00_0, _00	 <p>This example returns any courses that end with any value (000_), have any value as the third digit (00_0), and begins with any two values but ends with two zeros (_00).</p>
Brackets	Student needs to complete one course from list of courses 0000-0004.	000[01234]	 <p>Using brackets returns a range of possible characters. This option is best when the desired results do not necessarily follow a pattern, Entering 1[123] returns courses that begin with 11, 12, 13, etc.</p>
Exclamation Point	Student needs to complete one course from a list of courses, but not a certain course.	1_ _ _ , !1003	 <p>Using the exclamation does NOT return the value it precedes. In this example, the student is required to take a course in the 1000 range, but NOT course 1003.</p>

# Test Requirements Editor

Field	Description
<b>Test Requirements Instructions</b>	This collapsible text provides information on how to enter the Test Requirements. The editor displays with the text expanded, but click the plus/minus sign to collapse the information and only display the Test Requirements Detail.
<b>Requirement Description</b> <i>Required</i>	Displays a label of the name of the test or a subgroup of tests the student must take to achieve the requirement. This should be a meaningful message so the student (and parents/guardians and counselors) clearly understand the test requirement.
<b>Test Code(s)</b>	<p>Displays which Test Codes meet the requirement. A value must be entered in either this field or the State Code field.</p> <p>If a Test Code is entered on the Assessment Setup tab, the same values need to be entered here. Wildcard values can be entered (% or _).</p> <p>Reference the above information in the <a href="#">Best Practices</a> section on using wildcard symbols. See the <b>Wildcard Searching</b> information above for more guidance on using the wildcard symbols.</p>
<b>State Code(s)</b>	<p>Displays with State Test Codes meet the requirement. A value must be entered in either this field or the Test Code field.</p> <p>If a State Code is entered on the Assessment Setup tab, the same values need to be entered here. Wildcard values can be entered (% or _). Reference the above information in the Best Practices section on using wildcard symbols. See the <b>Wildcard Searching</b> information above for more guidance on using the wildcard symbols.</p>
<b>Subject</b>	Indicates the area of knowledge this requirement covers. This value matches the Subject selection on the Assessment Setup tab. Options are from the <a href="#">Test Attribute/Dictionary</a> list.

Field	Description
<p><b>Preview</b></p>	<p>Displays the matching tests based on the entered test codes, state codes and subject selection.</p> <p>The complete hierarchy of the test displays. For example, if the requirement was for the ACT test and the entered code was ACT%, the preview pop-up lists the main ACT (parent test) and the four sub-categories (child tests) of the ACT. The image below shows a simple Parent/Child hierarchy displays.</p> 
<p><b>Evaluation Mode</b> <i>Required</i></p>	<p>Indicates how a student's assessment results affect the completion of the requirement. A test requirement can be set to one of three modes:</p> <ul style="list-style-type: none"> <li>• Count of Passing Tests</li> <li>• One Score At or Above</li> <li>• Sum of Scores At or Above</li> </ul> <p>A requirement may be that the student must take and pass at least two state assessments for Science. The Evaluation Mode can be set to Count of Passing Tests, with a Count Value entered as 2.</p> <p>The selection here also determines whether the Minimum Raw Score, Minimum Scale Score and the Count fields require a value.</p> <p>If a test is taken multiple times, only the highest score is considered.</p>
<p><b>Minimum Raw Score</b></p>	<p>Requires a numeric value entered that represents the minimum score needed to pass this requirement, depending on the selected <b>Evaluation Mode</b>. This value overrides a passing score set on the Results on the Assessment Setup.</p> <ul style="list-style-type: none"> <li>• When the <b>Evaluation Mode</b> is set to <i>Count of Passing Tests</i>, this field is disabled.</li> <li>• When the <b>Evaluation Mode</b> is set to <i>One Score At or Above</i>, a value must be entered in this field or in the Minimum Scale Score field, depending on which score option is used in the Test Detail.</li> <li>• When the <b>Evaluation Mode</b> is set to <i>Sum of Scores At or Above</i>, a value must be entered in this field or in the Minimum Scale Score field, depending on which score option is used in the Test Detail.</li> </ul>

Field	Description
<b>Minimum Scale Score</b>	<p>Requires a numeric value entered that represents the minimum score needed to pass this requirement, depending on the selected <b>Evaluation Mode</b>. This value overrides a passing score set on the Results on the Assessment Setup.</p> <ul style="list-style-type: none"> <li>• When the <b>Evaluation Mode</b> is set to <i>Count of Passing Tests</i>, this field is disabled.</li> <li>• When the <b>Evaluation Mode</b> is set to <i>One Score At or Above</i>, a value must be entered in this field or in the Minimum Raw Score field, depending on which score option is used in the Test Detail.</li> <li>• When the <b>Evaluation Mode</b> is set to <i>Sum of Scores At or Above</i>, a value must be entered in this field or in the Minimum Raw Score field, depending on which score option is used in the Test Detail.</li> </ul>
<p><b>Raw Score and Scale Score Logic:</b> When only one score qualifies as passing the requirement, that score prints as the Result on progress screens and reports. Otherwise, the highest score determined by Raw Score and Scale Score is displayed. Unless a Minimum Scale Score is provided and a Minimum Raw Score is not, the highest score by Scale Score and Raw Score is used.</p>	
<b>Count</b>	<p>Indicates how many tests are required to pass the requirement depending on the selected Evaluation Mode.</p> <ul style="list-style-type: none"> <li>• When the <b>Evaluation Mode</b> is set to <i>Count of Passing Tests</i>, a value must be entered in this field.</li> <li>• When the <b>Evaluation Mode</b> is set to <i>One Score At or Above</i>, this field is disabled.</li> <li>• When the <b>Evaluation Mode</b> is set to <i>Sum of Scores At or Above</i>, this field is disabled.</li> </ul>
<b>Sequence</b>	<p>Entered numeric value determines the order in which requirements display on reports, on the portal, etc.) Requirements without a sequence value display first; when entering requirements, assign a sequence value to all requirements or to no requirements.</p>
<b>Add Test Requirement</b>	<p>Adds more rows to the Test Requirements Detail for the selected program.</p>

## Establish Test Requirements

1. Select the specific Program from the **Program Administration** tree and expand the options.
2. Select **Test Requirements**. A **Test Requirements Detail** table displays.
3. Enter the **Requirement Description** for the program.
4. Enter the **Test Codes** for the program.
5. Enter the **State Codes** for the program.
6. Enter the **Subject** for the test requirement.
7. Click the **Preview** link to verify all appropriate tests are added.
8. Select the desired **Evaluation Mode** for the test requirement.
9. Enter the **Minimum Raw Score** for the test requirement, if applicable.

10. Enter the **Minimum Scale Score** for the test requirement, if applicable.
  11. Enter the **Count** for the test requirement, if applicable.
  12. Enter the **Sequence** value.
  13. Click the **Add Test Requirement** button to add additional test requirements to the Graduation Program.
  14. Click the **Save** icon when finished.
