VA Student Record Collection Extract

This tool will extract data to complete VA Student Record Collection (SRC). Students having overlapping Primary enrollments may result in invalid data. Please run the Enrollment Overlap report prior to this extract and correct any Primary enrollment overlaps.

Report Logic

One Primary enrollment reports per student. Students report when the **SRC No Show** checkbox is marked on their enrollment.

Two records report for a student when their Enrollment End Status is either W016 or W221. In this instance,

the ended enrollment and the next enrollment record report.

Two records report for a student when their Enrollment Start Status is E099, R099, or R298. In this instance, the enrollment with this start status and the previously ended enrollment record reports are included.

Two records report when the Serving School is different for a student with two Enrollments. Any change in Serving School is reported to ensure data is attributed to the correct school.

When a student has multiple primary enrollments in a single calendar, the information may be compiled into a single record.

The following fields must be the same across all enrollments in the calendar. When the records are combined, the single record reports the SUM of all attendance.

- Responsible Division Number
- Responsible School Number
- Serving Division Code
- Serving School Code
- Grade
- Primary Disability
- Tuition Paid
- Non-public student FTE

When the records are combined, the Entry Code and Entry Date fields report from the earliest enrollment.

When any enrollment prior to the report effective date has a positive value (True/Yes), the field is reported as true in the single combined record. For example, when multiple enrollments exist for the 19-20 school year and one of those enrollments has Foster Care = Y then the combined record for the 19-20 SRC would report Y for Foster Care. Only enrollments from the reporting year are considered. The student who reported Y for Foster Care in 19-20 would not report a Y in 20-21 unless a 20-21 enrollment indicates the student continued in Foster Care.

When a student has multiple enrollments that generate multiple SRC records, Campus only counts the days present or absent for the instructional days within that enrollment's start and end dates or the Effective Date of report generation when the Enrollment End Date is null. Absent days are only counted and reported in the SRC record for that enrollment.

When multiple enrollments have the same start and end date, one enrollment should be marked as Primary and the other as Secondary.

The state allows multiple records when a student has a change in Grade Level, Tuition Paid, or non-public FTE. Campus generates the second record when these changes occur. However, a change in GED program does not generate a second record in Campus and must be a manually entered by the district.

Report includes full and part time students, as well as preschool, special education and local and regional jails.

December 1 Count records only report when the student has an Active Status Code of A, a locked IEP, and an active Enrollment.

- When the student withdraws prior to the Snapshot Date entered and has a locked plan active during the Snapshot Date, a record reports for that student as normal.

Only graduates who earned a diploma during the summer school session reports in the Summer reporting period.

Enrollments, Calendar, or Grade Levels marked as State Exclude are not included in the extract.

Enrollments where the **SRC Exclude** checkbox is marked are also excluded.

No Shows/Summer Withdrawals report enrollment end information when ALL of the following criteria are met:

- Enrollment End Date is before the first instructional day and on/after the Calendar Start Date.
- The student does not have an active enrollment,
- after the enrollment marked as No Show, and
- on/before the report generation Snapshot Date.

When the student has an enrollment(s) not marked No Show after the enrollment marked as No Show and the enrollment Start Date is before or on the report's Snapshot Date, Campus reports the enrollment marked as No Show and one record for any enrollment that occurs before you generate the report.

Truancy Logic

Truancy records do not report when the start date is not within the reporting school year term dates, even when the truancy record has no end date. To report, the truancy record start date must be on or before the report generation Snapshot Date.

Primary Disability Logic

The following logic pertains to the Primary Disability field. See the [Report Layout](#) section for additional information.

Condition	Logic
For the December 1 Count	<p>Only students with an Active Status Code of A report. The most recent locked education plan that falls within the enrollment reports.</p> <ul style="list-style-type: none"> • The plan start date must be on or before the snapshot date. • The plan end date must be on or after the snapshot date. • When the start dates are the same, the highest PlanID reports. <p>Students in online courses do NOT report, even when the previous criteria is met.</p>

Condition	Logic
For all other reporting periods, at least one of the following conditions must be true	<p>The plan start date must be on or before the snapshot date and the plan end date must be on or after the snapshot date, OR</p> <p>The Tuition Paid code is 7 OR the Responsible Division-School number is 9997 on the student's enrollment record AND</p> <ul style="list-style-type: none"> The enrollment end date is on or before the snapshot date AND The plan start date must be on or before the snapshot date and the plan end date must be on or after the snapshot date, OR <p>When the student has a primary disability change in the same School and Year:</p> <ul style="list-style-type: none"> This is identified by the student having at least two locked IEPs where the Primary Disability is greater than or less than the current IEP Primary Disability. At least 1 plan start date must be on or before the snapshot date and the plan end date must be on or after the snapshot date. The plan start date must be on or after the active enrollment start date. The previous plan must have a plan end date that falls on or after the previous enrollment start date and on or before the previous enrollment end date, OR <p>The student enrollment has ended AND a locked education plan exists that was active on the student's enrollment record.</p>

Extract Fields

Field	Description
Report Type	<p>The reporting window of the extract. Options are:</p> <ul style="list-style-type: none"> Fall Spring EOY Summer Dec. 1 Count
Snapshot Date	<p>The date for which information in the report is active or valid. The report includes information between the first day of school and the entered Snapshot Date. This date defaults based on the Year and Report Type selected.</p>
Format	<p>The format in which the report is generated. Options are CSV, Tab Delimited and HTML.</p>
Pre-Submissions	<p>Indicates only fields required in the selected report type should be included in the extract. In the header, a DataType of STUDENT_PRESUB reports, allowing the report to be submitted before the submission due date.</p>
Report Required Fields Only	<p>Indicates only fields required in the selected report type should be included in the extract. Optional or conditional fields are not included.</p>

Field	Description
Student Schedule Attendance	<p>When this checkbox is marked, Campus considers each student's individual daily schedule for each day's instructional minutes then counts all of the instructional minutes for each period into which the student is scheduled to get the daily instructional minutes threshold.</p> <p>When a student is absent for every instructional minute for that day of their schedule, Campus calculates and reports the day as absent in the Days Absent field and subtracts from the Days Present field.</p> <p>When multiple courses are skinnied into one period, Campus uses that period's instructional minutes as the absent minutes threshold.</p>
Grade	Allows you to limit the results to only the selected grade(s).
Ad Hoc Filter	Allows you to limit the results to only the students included in the filter.
Calendar(s)	The calendar(s) from which data is pulled.
Generate Extract Submit to Batch	Users have the option of submitting a Student Course report request to the batch queue by clicking Submit to Batch instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

Extract Layouts

Not all fields are reported in each of the Report Types. When a field is not required for the selected Report Type, it reports as blank. Mark the **Report Required Fields Only** to report only fields required for the Report Type.
