## Selection Criteria

Students must meet the following criteria to report on the Student Health Immunization Report:

- Calculations are made using data from all students within a district, with totals counted from the current school year (as specified by Effective Date entered on the report editor).
- If the Effective Date is after a school year is over, the most recent school year is used for calculating and reporting student data.
- Calendars marked as State Exclude, grades marked as Exclude from State Reporting and students marked Exclude are not included in the report.

## Generate the Report

1. Enter the **Effective Date**. If this date does not fall within an active school calendar date, the most recent school year is used.
2. Select **Generate Report**. The report will appear in a separate window in PDF format.
