Tool Search: ILPA Caseload

The ILPA tools are used only in Kentucky.

The Caseload provides two ways users can view the students in their caseloads, the list in the Index and the caseload itself. Students appear in a user's caseload based on the user's [Team Memberships](#) of **Team Manager**. The students who appear in the caseload is not determined by the Year, School, or Calendar selected in the Campus toolbar.
