

Multi-Post Grades

Last Modified on 10/21/2024 8:21 am CDT

[Step 1 - Select Source and Destination](#) | [Step 2 - Comments](#) | [Step 3 - Preview Prior to Post](#)

Location: [Grade Book](#) > [expand Settings menu](#) > [Multi-Post Grades](#); [Progress Monitor](#) > [Multi-Post Grades](#); [Post Grades](#) > [Multi-Post Grades](#)

The Multi-Post Grades tool allows teachers to post grades for multiple tasks or standards at the same time. Grades are sourced from the In-Progress grades area of the Grade Book. This tool can save time for teachers who have to post grades often (such as to a weekly Progress task) or who have to post grades to many tasks or standards.

Multi-Post Grades allows you to post multiple grades at the same time. To begin, select which sections, terms, and standards/grading tasks you would like to post to.

Post to Filter:

Overwrite Existing Grades
 Filter by Term: 2
 Filter by Section: 1) 3600-4 AP Literature X
 Filter by Task/Standard: All Tasks

<input type="checkbox"/>	Section ↑	Post from Term *	Post from Task/Standard *	Post to	Edit
<input checked="" type="checkbox"/>	1) 3600-4 AP Literature	2	Progress	Progress	
<input checked="" type="checkbox"/>	1) 3600-4 AP Literature	2	Term Grade	Term Grade	
<input checked="" type="checkbox"/>	1) 3600-4 AP Literature	2	Semester	Semester	
<input checked="" type="checkbox"/>	1) 3600-4 AP Literature	2	Semester	Semester	

Use the Multi-Post Grades tool to post grades to multiple tasks/standards en masse.

The *Multi-Post Grades* tool right in [Additional Access Rights](#) > [Instruction Tools](#) is required to access this tool. See the [Instruction Tool Rights](#) article for more information.

Access the Multi-Post Grades tool from the [Settings](#) menu of the Grade Book, from the [Post Grades](#) tool, or from the [Progress Monitor](#).

Because the Multi-Post Grades tool pulls in-progress grades and proficiency estimates from the Grade Book, the [Grade Calculation Options](#) for each section must be set up. Additionally, [tasks](#) and [standards](#) must be added to a course to be used in the posting process.

Step 1 - Select Source and Destination

The first step of posting grades en masse is selecting which source sections/tasks are posting to which destination tasks. The scenario shown in the images below is of a teacher posting a Progress grade for her sections from the Term Grade task.

Section	Term	Standard/Grading Task	Post from Term	Post from Task/Standard	Post to	Edit
1) 3600-4 AP Literature	2	Progress	2	Term Grade	Progress	
3) 3200-12 English 10	2	Progress	2	Term Grade	Progress	
4) 3700-2 American & British Literature	2	Progress	2	Term Grade	Progress	
6) 3200-13 English 10	2	Progress	2	Term Grade	Progress	

Step 1: Selecting Destination and Source

1. Indicate if grades being posted should **Overwrite Existing Grades** that have already been posted.
2. Filter the list of destination sections and tasks by **Term, Section, and Task/Standard**. Multiple sections and tasks can be selected. The table below is filtered based on these selections and shows the sections and tasks/standards that grades will be posted **TO**. The grading window must be open for at least one task in the section for it to display.
3. Indicate where grades should be posted **FROM** by selecting the **Term** and **Task/Standard** that serve as the source of the posted grade. Click the **Edit** button at the right of each row to edit.
4. The destination sections listed in the **Post to** column depends on the **Filter by Task/Standards** selected above the table.
5. Click **Next** to review comments.

Step 2 - Comments

Step 2 is optional. If desired, enter report card comments. Click **Next** when finished or **Skip** to move to step 3.

Section	Term	Standard/Grading Task	Report Card Comments	Individualize
1) 3600-4 AP Literature	2	Progress	Progress grades are posted every other week. CC	Comment
3) 3200-12 English 10	2	Progress	Progress grades are posted every other week. CC	Comment
4) 3700-2 American & British Literature	2	Progress	Progress grades are posted every other week. CC	Comment
6) 3200-13 English 10	2	Progress	Progress grades are posted every other week. CC	Comment

Step 2: Entered report card comments by section or individually.

If any of the selected sections have unreleased scores, a message displays at the top indicating that In-Progress grades may be incomplete. See the [Release Scores](#) article for more information.

In-Progress grades/Proficiency Estimates are calculated using only released scores. To see the difference between the In-Progress Grade calculated using all scores or only released scores, visit the [Grade Book](#) or [Progress Monitor](#) and toggle between the two calculation options. To [release all scores](#) prior to posting, visit the [Curriculum List](#), filter to only **Unreleased** assignments, and click **Release All Scores**.

Options available may vary based on your district's setup. See the [Commenting in Campus Instruction](#) article for more information about where these comments display for students and parents.

Comments typed in a section's row are included for all students in that section. If enabled, click to view a list of available canned comments.

To provide different comments by student, click the button in the **Individualize** column to enter comments by student.

Comment Fill Options

Fill comments by entering them in the table header and pressing . The **Comment Fill Options** above the table determine how filled comments are applied:

- Append: adds the entered comment to any existing comments for all students.
- Empty: adds the entered comment for any students who do not yet have a comment.
- Overwrite: overwrites any existing comments with the entered comment for all students.

Step 3 - Preview Prior to Post

The preview screen summarizes what grades will be posted.

The **New/Updated Grades** column shows the number of students for whom grades will be posted and the **No Grades** column indicates students who do not have a grade to post.

Section	Post from	Post to	New/Updated Grades	No Grades	Updated Comments	Details
1) 3600-4 AP Literature	2 Term Grade	2 Progress	8	0	8 Comments	Info
3) 3200-12 English 10	2 Term Grade	2 Progress	1	8	9 Comments	Info
4) 3700-2 American & British Literature	2 Term Grade	2 Progress	0	9	9 Comments	Info
6) 3200-13 E						

Grade	Name ↑	Student Number	Status	Old Grade/Percent	New Grade/Percent	Grading Window	Report Card Comments
10	Student, Andy	123456789	New	None	B-/84.00	Open	Progress grades are posted every other week.
10	Student, Brooke J	234567891	New	None	B-/80.00	Open	Progress grades are posted every other week.
09	Student, Carson	345678912	New	None	D-/60.00	Open	Progress grades are posted every other week.
12	Student, Jordan E	456789123	New	None	B-/84.00	Open	Progress grades are posted every other week.

Step 3: Review grades before you post.

Click [Info](#) to view a list of students with old and new grades.

Column	Description
Status	Indicates if the grade being posted is a new grade, is updating (overwriting) an already posted grade, or is an existing grade that will not be overwritten. This column also indicates if there is no grade to post or no change in the grade.
Old Grade/Percent	Shows any existing posted grade/percent for the student.
New Grade/Percent	Shows the grade that will be posted when the teacher clicks Post on the summary screen.

Filter the student list using the options at the top:

- All: Shows all students in the section.
- New: Shows students for whom new grades will be posted.
- No Change: Shows students who have existing grades that will not be overwritten when grades are posted.
- Updated: Shows students who have existing grades that will be overwritten when grades are posted.
- No Grade: Shows students who do not have an In-Progress grade or Proficiency Estimate in the Grade Book to post.
- Open: Shows students for whom the grading window is open.

Posting Grades

After reviewing grades to be posted, click **Post** to post grades. Click **Close** to return to the Grade Book or Post Grades tool.

Printing a Report

Click **Generate Spreadsheet** to generate a report of posted grades. This report can also be generated as a PDF by clicking the arrow next to the Generate button and selecting **Generate**

PDF.
