Extended Learning Opportunities (ELO) are structured learning environments outside the traditional school day through before/ after school, summer, and extended-day, week, and year programs. These programs offer more personalized learning opportunities for students in areas such as the arts, civic engagement, science, technology, engineering, math (STEM), mentorship, and general academic support.

This tool allows users to add, edit, or delete ELO student records. Users may also print a summary of all ELO records for the selected student.
