Tool Search: BIE CEIS

The BIE CEIS tool tracks students identified as "At Risk" who qualify for BIE Coordinated Early Intervening Services. Once a student begins to receive services in a BIE CEIS Program, the student must be tracked for at least two years to record the benefit of the intervention. If a student becomes eligible to receive Special Education Services during that time, they are no longer eligible for BIE CEIS and must be exited from the program. All BIE students, including those currently identified as "At Risk," are evaluated at the start of each school year.

- If a student becomes eligible to receive Special Education Services:
 - Enter the date the student became eligible for SPED Services in the Exited from CEIS Date field, and select 'Identified as Special Ed' in the CEIS Exit Reason field.
- If a student does NOT become eligible for SPED Services but is no longer eligible for BIE Coordinated Early Intervening Services;
 - Enter the last date the student received BIE Coordinated Early Intervening Services in Exited from CEIS Date and select 'Returned to General Ed' in CEIS Exit Reason.
