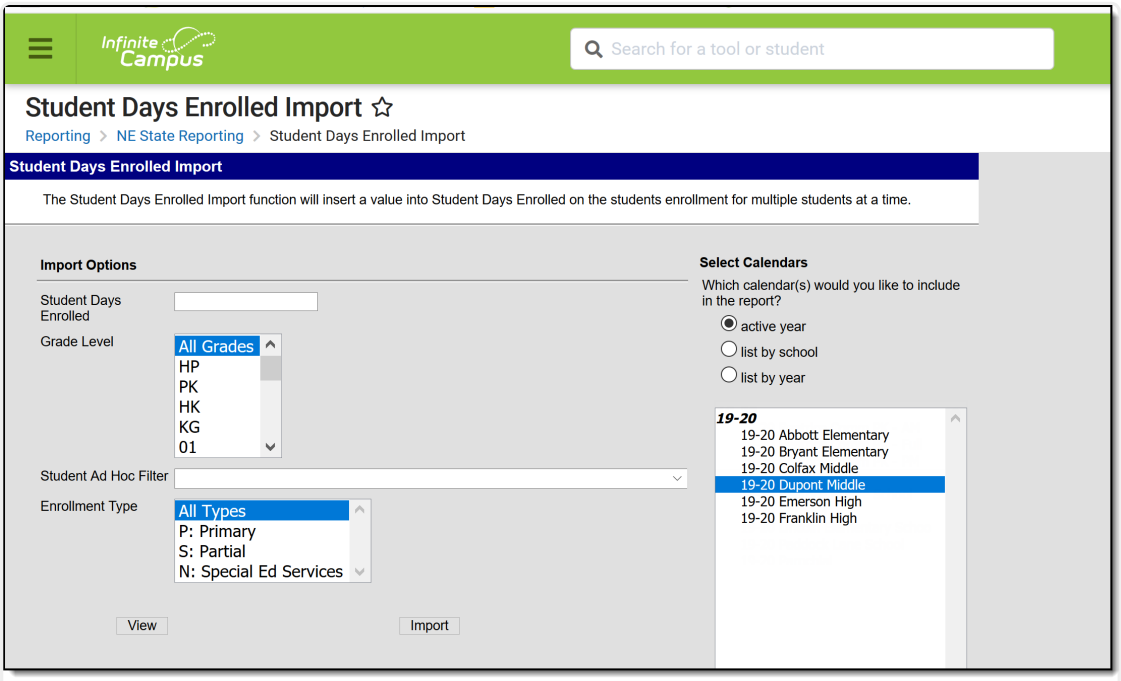
Tool Search: Student Days Enrolled Import

The Student Days Enrolled Import is used to mass import enrolled days to the Student Days Enrolled field on current active enrollments for Ed-Fi reporting.



Student Days Enrolled Import

Report Editor

The following defines the options available on the Student Days Enrolled Import.

Option	Description
Student Days Enrolled	Users are able to insert the value they want to import to the Student Days Enrolled field.
Grade Level	This field imports the information for a specific grade level.
Ad Hoc	Users are able to select ad hoc filters that are used to insert values. The Ad Hoc does not take into consideration the other available fields.

Option	Description
Enrollment Type	This field is used to import the value to specific enrollment types.
Calendar	Selection indicates the school calendar to which data is imported. If a Year and/or School is selected in the Campus Toolbar, that calendar is automatically selected.
View	Generates a HTML report of what student values will change or be added. This report shows the Student ID (EdFi ID), Student Last Name, Student First Name, Student Days Enrolled, and Value to be Overwritten.
Import	Imports the data into the Student Days Enrolled field on current active enrollments.
