Tool Search: Request Conflicts

The **Request Conflicts Report** provides a list of courses that have scheduling issues with another course when a student has requested both courses and how many student requests are in conflict. The report displays course pairs where a student has requested both courses.

Request Conflict Report

A request conflict is a potential scheduling conflict, and it basically shows course pairs where a student has requested both. These conflicts are useful when planning where to place courses that have few sections. Keep the report options limited as much as possible. A required course that meets every period will conflict with every other course, and the resulting report will be long and difficult to work with.

Request Conflicts Report

## Report Logic

The Request Conflicts Report uses entered student requests to determine where that student may have a potential scheduling conflict. Courses considered required that meet every period display on the report as conflicting with every other course.

This report only looks for sections already placed on the Master Schedule, not the Sections to Build value.

## Report Editor

The following defines the report options available on the Report Editor.

Field	Description
<b>Limit Courses</b>	<p>Selection limits report results to the option selected, as follows:</p> <ul style="list-style-type: none"> <li>• Any Number of Sections</li> <li>• Singletons (1 section)</li> <li>• 2 sections or less</li> <li>• 3 sections or less</li> <li>• 4 sections or less</li> </ul> <p>When <b>Any Number of Sections</b> is selected, all potential course request conflicts are listed, regardless of how many sections exist.</p> <p>When any other Limit Courses options are selected, the Limit Courses logic applies to both sides of the comparison courses when looking for conflicts, not just the department or courses of focus in the department or Courses selections.</p> <ul style="list-style-type: none"> <li>• When Singletons is selected, only courses with one section are listed.</li> <li>• When 2, 3, or 4 sections or less is selected, only courses with that number of sections or fewer sections are listed.</li> </ul>
<b>Department</b>	<p>Selection returns course information for courses assigned to the selected department. If departments are not assigned to courses (created in System Administration on the <a href="#">Departments</a> tool and assigned on the <a href="#">Course</a> editor), select courses instead.</p> <p>Either select a Department or a Course.</p>
<b>Courses</b>	<p>Selection returns course conflicts for the selected courses only.</p> <p>Either select a Course or a Department.</p>
<b>Report Format</b>	<p>The report can be generated in either PDF or DOCX format.</p>
<b>Report Generation</b>	<p>Two buttons are available for report generation:</p> <ul style="list-style-type: none"> <li>• <b>Generate Report</b> - displays the report instantly.</li> <li>• <b>Submit to Batch</b> - sends the report to the <a href="#">Batch Queue</a> for generation at a specified time. This option is recommended when generating the report for a large number of students.</li> </ul>

## Generate the Request Conflicts Report

For best results, limit the items selected on the Report Editor.

1. Select the types of courses to include on the report in the **Limit Courses** dropdown list.
2. Select the **Department**, if desired, from the dropdown list.
3. Or, if not limited by Department, select the **Courses** to include in the conflict comparison.

4. Select the desired **Report Format**.
5. Click **Generate Report** to generate the report immediately, or use the **Submit to Batch** to choose when a report generates.
