Creating a Residential Facility Record | Mass Updates

The **Residential Facility tab is used to** collect data for students with disabilities who reside in residential care and treatment facilities within the geographic boundaries or jurisdiction of local educational agencies (LEAs). This tab allows users to add, edit, or delete Residential Facility student records. Users may also print a summary of all Residential Facility records for the selected student.

A Residential Facility is considered a facility that provides 24-hour custody or care of students with disabilities 22 years of age or younger for detention, treatment, foster care, or any non-educational purpose.
