

Special Ed Service Positions

Last Modified on 04/01/2025 2:05 pm CDT

Tool Search: Service Positions

The Service Positions tool lists the service positions that can be provided to students based on the needs identified in the special education documents. Positions include roles like speech therapist or braille instructor, compared to Service Providers, which are the individuals providing the service.

See the Special Ed Service Position Setup Tool Rights article for information on the tool rights needed for this tool.

Existing service positions can be modified by clicking the Name of the position in the Positions Editor, making modifications and clicking the **Save** button in the action bar.

Create a New Service Position

- 1. Select the **New** button in the action bar.
- 2. Enter a unique Name for the service. The Name is limited to 50 characters.
- 3. Mark the **Active** checkbox to indicate if this service position should appear to be selected in special education documents.
- 4. Click the **Save** button to save the service.

Service Positions are selected on Service Editors on student's plan document (Related Service Editor, Supplemental Service Editors, etc.).

This image shows an example of how service positions are used in special education documents. Documents vary by state.
