

Lunch Setup

Last Modified on 04/01/2025 10:27 am CDT

Tool Search: Lunch Setup

The Lunch Setup tool allows a school to list different lunch names that can be assigned to students for scheduling purposes for a school that has multiple lunch periods. Lunches are assigned to the [Course Section](#).

When a school has different times for students to eat, create lunches on this tool.

Lunch Setup

See the [Lunch Setup Tool Rights](#) article for information about rights needed to use this tool.

When lunch minutes are noted on the [Calendar Periods](#), that time is subtracted from instructional time. For this purpose, schools may extend the period immediately before the lunch time or immediately after the lunch time instead of having a separate lunch period.

When a lunch period is included in the Calendar Periods, that information prints on the student's Schedule.

Start and End Times can be added for the Lunch labels. Those times are used in the calculation of Present Minutes when using [Check In/Check Out](#) attendance. The calculated amount of present minutes in a period is always reduced by the number of lunch minutes in that period. When Lunch Setup is used for a period, priority is given so that those minutes are used. When Lunch Setup is not used the lunch minutes assigned to the period in Period Setup will be used. When a section has a lunch label that has no lunch minutes assigned in Period Setup, normal check-in and check-out logic applies.

Create Lunches

1. Select the **New** button from the Action bar. A Detail Information editor displays.
2. Enter the **Name** of Lunch.
3. Add the **Start Time** and **End Time** for the Lunch.
4. Click the **Save** button when finished. The lunch displays in the Lunch Editor.

Add Lunch Minutes to Calendar Periods

Tool Search: Periods

A Lunch Time column displays on the [Calendar Periods](#) editor. This is populated with a numeric value of the total lunch time and is subtracted from the day's total instructional minutes.

There are different ways to include lunch time in Periods. The first way is to add the total lunch minutes to the Lunch Time column. This Lunch Time value is then automatically subtracted from the total instructional time for that period.

Lunch Time Minutes Entered for a Period

Another option is to have a separate period that is for Lunch. In the example below, lunch is during Period 4, called LUNCH. Lunch Time minutes are still entered and that time is still deducted from the overall instructional time for the day.

Lunch Period in Schedule

For schools that designate that lunch can occur at any interval between a period time, enter the duration of lunch next to that period. For example, a school has two different lunch groups, one eating lunch between 11:15am and 11:40am, and the other eating lunch between 11:40am and 12:05pm. The calendar period has a start time of 11am and an end time of 12:19pm. 25 minutes is set aside for lunch (meaning, instructional minutes are not calculated).

Set Lunch Assignment on Course Section

Tool Search: Sections

Once Lunch groups have been created, a **Lunch** field displays on the [Course Section Editor](#). This field should be populated for any section that meets during the period when lunch occurs.

Lunch Assignment on Section Information

Student Schedules

Tool Search: Student Schedule

For students enrolled in sections that meet during that period where lunch is assigned on the Section, the student's Schedule indicates when lunch is scheduled and to which lunch group the student is assigned. This is also included when printing the schedule.

The screenshot displays a student's schedule for Christopher, Student #: 123456, Grade: 06, DOB: 05/25/2011. The interface includes a header with navigation links: Student Information > General > Schedule. A 'Related Tools' button is also present. The schedule is for Friday, 10/6/2023. The time slots are listed on the left: 10:00 AM, 11:00 AM, 12:00 PM, 1:00 PM, and 2:00 PM. The corresponding course periods are shown on the right. Period 01 (10:00 AM) is 'No Scheduled Course'. Period 02 (11:00 AM) is 'No Scheduled Course'. Period 03 (12:00 PM) is 'No Scheduled Course'. Period 04 (1:00 PM) is 'Reading 6' with a note 'Period 04 - Lunch: Lunch A'. Period 05 (2:00 PM) is 'No Scheduled Course'. The 1:00 PM period is highlighted with a red border.
