Tool Search: District Contracted Service Providers

The District Contracted Service Providers tab allows district to enter and track contracted service providers by they type of services provided and when the contract starts and ends. Contracted services can have a contract duration for longer than one school year. This information is synced to the Kentucky State Edition of Campus and is available for retrieval by the Kentucky Department of Education.

The screenshot shows a software interface for managing contracted service providers. At the top, there is a table titled 'Contracted Service Provider Editor' with columns for Service Provider, Type, Contract Start Date, and Contract End Date. One row is visible: 'Health Services Inc' under Service Provider, 'MH' under Type, '08/01/2018' under Contract Start Date, and an empty field under Contract End Date. Below this table is a 'Contracted Service Provider Detail' section. It contains a 'Service Provider' dropdown with 'Health Services Inc' selected, a 'Type' dropdown with 'MH: Mental Health' selected, and date pickers for 'Contract Start Date' (set to '08/01/2018') and 'Contract End Date'. A note at the bottom of this section states '- Modified By: Administrator, System 08/28/2018 11:14 AM'.
