# Roster Report

Last Modified on 01/30/2026 2:15 pm CST

Location: Instruction > Reports > Roster; Instruction > Students > Roster > Print Options

To print a roster for a section, open the Roster and then click **Print Options** to open the print options window. The printed roster includes students rostered into the section on the **Effective Date** entered from the selected **Section(s)**. This report is also available with the Campus Instruction Reports.

Much of the data available in this report can be viewed for an individual student by clicking the student's name in the Roster.

Roster Print Options and the Roster Report allow teachers to determine what data prints for a roster.

Print Options

See the Roster article for more information about where roster data reports from.

Report Options

Field	On the Report
Effective Date	The date for which data in the report is reported.
Page Printing Options	- Shade Alternate Rows: Makes the report easier to read by shading every other row in the printed report. - Add page break after each section: simplifies printing rosters for multiple sections by adding a page break between each selected section.

Field	On the Report
Display Options	Displays the selected data in the report: • Course State Code • Staff Number • Show Section Placement - this option includes the period name and meeting time. • Show Incoming Students - this option includes students listed in the Incoming section of the [Roster](#). • Show Dropped Students - this option includes students listed in the Dropped section of the [Roster](#). • Show Blended Learning Groups Summary - this option only displays if your school is using Blended Learning. Includes a summary of Blended Learning Groups to which students belong.
