Tool Search: SIRS Extracts

The Attendance Code reports a list of attendance codes that exist at the school level for labeling a student's attendance record.

SIRS Extracts ☆ Reporting > NY State Reporting > SIRS Extracts

NY State Repository System Extracts

This tool will extract student data for SIRS data collection. Choose CSV format when uploading to SIRS, otherwise choose one of the testing/debugging formats.

Extract Options

Extract Type: **Attendance Code** (highlighted with red box)

Queued Time	Report Title	Status	Download

Best Practices

For a normal suspension code that excludes a student from class for the day without excluding them from the BEDS/SAMS report, set up the local code with a Status/Excuse of Absent/Exempt. This affects the student's instructional time in Staff Student Course while not counting as an absence on Student Daily Attendance or SAMS/BEDS.

Separate codes ought to be set up with the appropriate Status/Excuse for students who are absent or tardy when serving a suspension to correctly capture the data across the various reports that

consider attendance.

Report Logic

One record reports all Attendance Codes in System Administration > Attendance > Attendance Codes.

When multiple calendars are selected within the extract editor, the respective output files report sequentially so that identical codes like *Snow Day* report separately for each institution.

Extract Editor Field Descriptions

Field	Description
Extract Type	The SIRS Extract to be run.
Format	The Format in which the report generates. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other types for data review and verification.
Column Headers	Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV).
Generate Extract/ Submit to Batch	Users have the option of submitting a report request to the batch queue by clicking Submit to Batch instead of immediately generating the report by clicking Generate Extract . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
Select Calendars	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.

Attendance Code Extract Layout

#	Element	Logic	Location
1	DISTRICT CODE	The identification number of the district. The prefix NY is added to the district number. For example, when the district number is 662001, the District Code is NY662001. <i>Numeric, 8 digits</i>	District Information > District Number District.number
2	ATT CODE	This field reports blank.	N/A
