Tool Search: Title 1 Extract

The Title 1 Data Pipeline report identifies students who receive Title 1 targeted assistance funding. Only students receiving services funded by the Title 1 targeted assistance monies funds are included in the report.

The screenshot shows the 'Title 1 Extract' tool interface. At the top, there is a breadcrumb trail: 'Reporting > CO Data Pipeline > Title 1'. Below this is a header 'Title 1 Layout' with a star icon. A message states: 'This tool will extract data to complete the Title 1 Layout.' Underneath is the 'Extract Options' section. It includes a 'Report Legal Name' checkbox which is checked, a 'Format' dropdown set to 'CSV', and an 'Ad Hoc Filter' dropdown. To the right, there is a 'Select School Year' dropdown set to '2023-2024' and a 'Select School(s)' dropdown menu with options for 'Elementary School', 'High School', and 'Middle School'. At the bottom of the options are two buttons: 'Generate Extract' and 'Submit to Batch'.

*Title 1 Extract*

**Read** - Access and generate the Title 1 Extract.

**Write** - N/A

**Add** - N/A

**Delete** - N/A

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

## Report Logic

Students who qualify for Title 1 Services at any point during the reporting school year report.

One record is reported for all students who have a Title 1 Service record associated with the school selected in the report editor and enrolled in the selected calendar year. If a student has more than one eligible Title 1 Service, only 1 record reports for all eligible selections on the report. If a student has more than one enrollment with eligible Title 1 services, one record reports per enrollment.

## Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

Data Pipeline Extracts and other required extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of N: Non-Binary, on the Identities tool:

1. Assign the **Gender of N: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to M: Male, F: Female or N: Non-Binary.
3. Save the record when finished.

*Gender and Legal Gender Assignment*

## Report Editor

The following fields are available for selection on the Title 1 Report Editor.

Field	Description
<b>Report Legal Name</b>	When marked, the student's name and gender report from the Protected Identity Information section on the student's <a href="#">Identities</a> record.
<b>Format</b>	The School Association report can be generated in either CSV or HTML formats.
<b>Ad hoc Filter</b>	Select a saved <a href="#">ad hoc filter</a> to only include those students in the filter in the report, assuming those students meet the reporting logic and business rules of this report.

Field	Description
<b>Select School Year</b>	Select a school year in which to generate the report.
<b>Calendar Selection</b>	At least one calendar needs to be selected in order to generate the report. Reports can be selected by Active Year, School or Year.
<b>Report Generation</b>	The extract can be generated immediately using the <b>Generate Report</b> button. Or, use the <b>Submit to Batch</b> button to select when the report is generated. See the <a href="#">Batch Queue</a> article for more information on this functionality.

## Generate the Report

1. Mark the Report Legal Name checkbox, if desired.
2. Select the **Format** for the report.
3. If desired, select an **Ad hoc Filter**.
4. Select the **School Year** in which to run the report.
5. Select the desired **Calendar(s)** from which to report Title 1 data.
6. Click the **Generate Extract** button, or use the **Submit to Batch** button. The report generates in the selected format.
