**Classic View:** System Administration > Ed-Fi

**Search Terms:** Ed-Fi

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to enable the Locations resource for Ed-Fi reporting.

1. Set the Locations preference to **ON**.

The screenshot shows the 'Resource Preferences' page in the Ed-Fi Configuration tool. The left sidebar shows a navigation tree with 'Ed-Fi' selected. The main table lists various resources with their current status. The 'Locations' row is highlighted with a red box. The table columns are 'Resource' and 'Active'.
