Student Schedule Display in Student Information Health

Submit feedback for the new Schedule using the **Feedback** button in the bottom right hand corner. This takes you to the Campus Community Schedule forum topic where you can add your concerns or suggestions for potential future development related to the Student Schedule.

Tool Rights

Full access to the Health Student Schedule tab requires **R** rights to the following items:

- Student Information > Health > General > **Student Schedule**
- Student Information > Health > General > Student Schedule > **Additional Enrollment Schedules**
- Student Information > Health > General > Student Schedule > **View Attendance**

Navigation of Health Student Schedule

Review the following information for a summary on features of the schedule and how to manage the Student Schedule. This new Student Schedule allows access using keyboard shortcuts when in the Calendar View. See the [Keyboard Shortcuts](#) section for navigation tips.

Note that when a user chooses to view the student's Schedule in a certain way, by choosing one of the options of the **Calendar View** or by choosing the **Term View**, and then navigates away to a different tab within Campus, the next time the user accesses the student's Schedule, the same view option that was previously chosen displays again.

A calendar must be selected in the Campus toolbar to display schedule information.

Where do I...?

This table compares where you would complete tasks in the old Student Schedule tab (Student Information > General > Schedule) versus where that same task is done in the new Student Schedule tab (Student Information > Counseling > General > Schedule).

Certain browser settings (like spell check) may interfere with the use of keyboard shortcuts.

Day View

The Day view lists the student's courses for the selected day. The name of the Period, assigned Room Number, Course Name and Assigned Teacher and any recorded attendance for that period display. The current period is highlighted in a blue outline to easily determine where the student is. A red line indicates the current time.

- Click the course block to see the course information in the side panel.
- Click the **Grades** button in the side panel to view the student's Grades tab.

Week View

The Week view lists the student's courses for the selected week. Similar to the Day view, the name of the Period, Course Name and Assigned Teacher and any recorded attendance for that period displays. The side panel shows the same information as the Day view.

The Week view is helpful if student courses change on a daily basis.

Schedule Week View

Certain calendar formats, particularly at elementary schools, do not display well in the Week view, because of the amount of schedules, periods and classes. Consider using the Day or Agenda views instead.

Agenda View

The Agenda view lists the student's courses in a planner type of view, with the date, time and course. The current time and course is not highlighted in this view, but recorded attendance does display for course in which it was recorded.

Term View

The Term View displays the student's courses for selected Term and each selected Period Schedule. Choose the **Filter** to select which terms and periods display.

When first accessing this view, all terms and all period schedules are selected. For a school using more unique formats for student schedules, like middle schools who are experimenting with the best learning for students, this view could get rather large.

Lunch assignment (when selected on the Course editor) and any scheduled Responsive Scheduling courses (when using Responsive Scheduling tools) display.

Responsive courses can be viewed for Future courses or Past courses.

Print the student's schedule in any selected view by choosing the **Reports** button at the bottom of the page and clicking the **Current View** report option. This prints the student's schedule in the selected view (Day, Week, Agenda, Term) in PDF format. A report can also be printed for **Periods without Times Only** and **Periods with Time Only**. If there are no periods without times in the Schedule, the **Periods without Time Only** print option does not display. These periods can be left without assigned times, or if there should be times assigned to these periods, modify the **Period Schedule** to add the correct period times.

Other reports that display here for printing are created using the **Preferences Reports** tool in System Administration. See the **Schedule Report Preferences** article for more information.

There could be several schedule reports listed, including those for other schools if the student has multiple enrollments. These display if the user has rights to the other calendars.
