

Calculated Assessment Statuses (Maryland)

Last Modified on 12/14/2025 8:45 pm CST

Tool Search: Calculated Assessment Statuses

This tool stores the calculated assessment statuses for assessments that report on the [HSDC \(High School Data Collection\)](#) and on the [Student Record Card 3](#) extract. The Calculated Assessment Statuses are created and stored when you run the Reported Assessments Calculator found on the [Assessment Status Calculation](#) tool.

The tool allows for the manual override of calculated assessment statuses by selecting a new status and clicking **Save**.

Manual changes are automatically overwritten when you run the [Assessment Status Override](#) tool.

Calculated Assessment Statuses

This Maryland custom tab is populated by the Assessment Status Calculation Tool found under MD State Reporting. When the Reported Assessments function of the tool is run these 4 assessments reported in the HSSC extract and Student Record Card 3 are determined. The Assessment Status Calculation tool should be run before either of those reports.

MHSA Math Assessment:	No Assessment Determined
