What is Campus Learning?

Last Modified on 11/12/2026 1:53 pm CST

Visit infinitecampus.com for more information about Campus Learning Suite.

Campus Learning is the Infinite Campus LMS that connects teachers to new, powerful tools for digital learning. Campus Learning is a premium option for Campus Instruction. Licenses to Campus Learning can be purchased at a district level.

Campus Learning includes the following existing and new tools for teachers. We're always working on new features!

Curriculum Options

Use Folders to arrange curriculum. Create Resources, like assignments that are not scored, to distribute lesson materials, a syllabus, or any other instructional content that doesn't fit an "assignment."

Use the Curriculum Library to share curriculum with other teachers in your district and find curriculum they've shared to add to your sections. Use My Curriculum to create and manage curriculum outside of the context of a section.

Progress Monitor

The Progress Monitor allows teachers in standards-based classrooms to view students' proficiency at a glance and easily manage assignments across all standards in a section.

Planner

Advanced Assignment Tools

Additional assignment features include:

- Individualize assignment Start and End Dates by student.
- Create Scoring Rubrics to evaluate student work.
- Use the Summary and Notes text fields to provide additional information to students, or just to other teachers viewing the assignment.
- Attach Content - Attach additional learning content to the assignment. The options available in this area are dependent on what your district has enabled.
- Distribute online Discussions from an assignment.
- Depending on district setup, allows students to submit work through Campus Student.
- Submit work on behalf of a student.

Quizzes

Create quizzes that are customized to your

View your curriculum and schedule in a calendar format, as well as the curriculum and schedules of other teachers.

Connect to Other Programs

When enabled by your district, integrations connect other programs to Campus. Depending on the type of connection, you can:

- Link resources in another program to assignments,
- Receive assignments and scores from another program,
- Attach Google Drive files to assignments,
- Allow students to launch another program via Learning Tools.

Engagement Check-In

Gauge student well-being and engagement with the class and curriculum using Engagement Check-In.

class's needs using a variety of question types and other features. Use Quiz Settings to allow retakes, organize questions into pages to simplify a student's experience, and print quizzes for students who need a paper copy.

When it comes time to score the quiz, icons and sort options help you focus on which answers need your attention and provide feedback as needed. For students using paper quizzes, submit answers on their behalf.

Score Analysis

The Score Analysis tool allows teachers to view a distribution of student scores on assignments and visually break down how each student scored.

Communication

At the section level, use the Section Feed to communicate between teachers and students.

Use Groups tool to communicate with wider groups that can include staff, students, and parents/guardians. Group Owners can create groups for shared clubs, organizations, events, and interests and enable various levels of one-way and two-way communication.
