The Special Ed Exit Report lists students who were in special education at the beginning of the reporting period but were not at the end.

Special Ed Exit Report Editor

Report Logic

The reporting period is July 1 (of the prior year) – June 30 (e.g., July 1, 2017 - June 30, 2018)

The report can be run against a district's active (current) year and any prior year.

The report can be run in District Edition or State Edition.

All instances of students who have exited special education based on their Special Ed Exit Date and Special Ed Exit Reason report.

- Report pulls enrollments with Service Type = P or N.
- Student must have a Special Ed Exit Date within the Date Range of the extract editor.
- Student must be at least 14 years of age as of the Count Date selected on the extract editor.
- Student must be enrolled on or prior to the first instructional day of the calendar.

The report will sort by School Number, then by Last Name, First Name, and Middle Name.

When the District-Wide checkbox is checked, the report will generate all applicable records for the entire district, using the **Date Range** from the extract editor.

Errors and Warnings

The Special Education Exit Report contains a set of Errors and Warnings if any portion of your data must be cleaned up prior to a final submission of the Special Education Exit Report. You must address any students who appear in the warnings for them to pull up the report.

The Warning page is a report that runs when you click the Generate Report button in the extract editor. The Warning report displays first. You may then click the "Click Here to Generate the final extract" button to generate the actual report.

A placeholder line for each Error or Warning exists on the Error/Warning page as a reference, even if there are no actual Errors or Warnings. These warnings are informative and do not prevent you from generating the extract.

Until the exit statuses are fixed, the report displays a blank for that student's exit date and/or exit status.
