Report Logic | Generate the Annual Immunization Report

Tool Search: Annual Immunization Report

The Annual Immunization Report summarizes the students enrolled in the selected school and provides a total number of students that have immunizations for DTP, Polio, MMR and other standard immunizations.

> In order for the report to generate, all individuals included in the report must have a birth date entered on their Identity record.

Annual Immunization Report

Report Logic

Data in this report is pulled from the student's immunization information. State compliances are also used in this report to determine if the student is up-to-date with immunizations.

Effective Date is required. Data reported indicates the level of compliance as of the date entered.

> Students report as Exempt if they have an exemption code of M: Medical on the Immunizations tab. See the Immunizations article for additional information.

Generate the Annual Immunization Report

1. Enter the **Effective Date** in mmddyy format or select the calendar icon to choose a date. This field defaults to the current date.
2. Click **Generate Report** to generate the report in a PDF format or **Submit to Batch** to schedule when the report will generate.

The Batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
