Record Types

- **Student Report (SR)** - This report is an individual student record sent between one Texas public school district/campus and another Texas public school district/campus.
 - If a student drops a section and then re-enrolls, only one grade is reported. A withdrawal grade is not reported for sections where the student re-enrolls within the reporting window at a later date.
 - The following are excluded:
 - Calendar State Exclude
 - Grade Level State Exclude
 - Enrollment State Exclude
 - Lack of a State ID / Student State ID
 - Reported enrollment records are looked at in this order:

1. "P" Primary Enrollment
 2. "S" Partial Enrollment
 3. "N" Special Ed Enrollment
 4. If there are no active year enrollment records, the most recent "P" Primary Enrollment Record
 - No Show enrollments can be selected if they meet all other reporting criteria.
- **Academic Achievement Record (AAR)** - This is the official high school transcript or academic achievement record (AAR) for grades 9-12. This transcript is an official and permanent record of a student's academic performance during high school, as well as in some cases, of high school courses completed in middle school or junior high school.
 - **Student Withdrawal/Record Transfer Form** - This form is used by students transferring from one Texas district to another Texas district. It provides preliminary enrollment information for the district to which the student is transferring. This is followed by the formal electronic SR, which contains complete transfer information for each student.
 - If a student has an applicable assessment on their record, the most recently taken assessment will report in the **Most Recent State Standardized Test Results** section on the Withdrawal form.
 - The LEP field will report "yes" if the student has an active EL status at the time of reporting. If the student's first or second year monitoring status is Existed, the LEP field reports "No."
 - The student will report "yes" for Special Education if they have an active and locked IEP in Student Information > Special Ed > Documents.
 - If the student has a Grading Task of CG or F in any in-progress course in their current schedule that grade will report in the Current Six Weeks Grade section of the withdrawal form.
 - If no CG or F grading task is available, the most recent six/nine weeks grade reports regardless of the code on the grading task. If neither is available, the course with "Incomplete" for the grade reports.

Current Six Weeks Grades Logic

The following logic is used to determine the report Six Weeks Grades on the Withdrawal Form:

- Determine which Term the Effective Date entered on the extract editor falls into.
- Find all Course/Sections the student is enrolled in during that Term.
- Find all Terms tied to that Course/Section.

- Only consider terms that contain the Effective Date or prior and are tied to the section.
 - Do not consider courses that have been completed prior to the Effective Date (i.e., the Course End Date is prior to the Effective Date).
 - For each Period, report the most recent grade.
 - Report the grade from the Grading Task marked CG/F with a Pass/Fail Indicator.
 - If there is no Grading Task as described in the previous bullet point, report the most recent Grading Task whose name starts with 'Six' or 'Nin' and contains a score and report this score.
 - If neither of these scenarios elicits more than one applicable grading task, use the most recently entered score.
 - If none of the bullet points above apply, report all Course/Sections with a grade of 'Incomplete'.

- Not EL = 0
- EL = 1
- Exited = F, S, 3, 4 or 5
-

If the EL Program Status as of the extract date is "Exited EL" and the current date is....	Then...
