

GSSM Report

Last Modified on 06/26/2024 3:14 pm CDT

[Report Logic](#) | [Report Editor](#) | [Generate the GSSM Report](#) | [Report Layout](#)

Tool Search: GSSM Report

The Golden State Seal Merit (GSSM) Report lists those students who have achieved the Golden State Seal and receive a diploma with that merit seal on it.

GSSM Report Info'. The main area is divided into two columns. The left column, 'Extract Options', contains fields for 'Reporting Date' (06/26/2024), 'Report Type' (Summary Only), 'Format' (PDF), 'Legal Name and Gender' (checked), 'Report Only Test and Course' (unchecked), 'Grades that could meet a GSSM requirement' (All), 'Report Only students with a specific number of GSSM Requirements Met' (dropdown), and 'Ad Hoc Filter' (dropdown). The right column, 'Select Calendars', asks 'Which calendar(s) would you like to include in the report?' and has radio buttons for 'active year' (selected), 'list by school', and 'list by year'. Below this is a red warning: 'Calendars marked as exclude are not listed. Excluded calendars will not be reported.' A list of calendars for '23-24' is shown: Aldrich Elementary, Bryant Elementary, Chowen Middle, Drew Middle, Emerson High, and Fremont High. At the bottom are 'Generate Extract' and 'Submit to Batch' buttons." data-bbox="99 252 789 579"/>

Report Logic

One record for each student who meets the requirements of the report prints.

Posted transcript records are necessary, as follows:

- A transcript must include two separate records of the same course, with the actual term, the student term and the end term for each record in which the student received a grade.
- Grade level (state grade levels) in which the course was taken must be 09, 10 or 11.
- To be considered, the grading task must be the Semester grade, or similar.
- The GSSM Category needs to be assigned on the Course.
- A student must have received a State Score of B, B+, A-, A, A+.

For ELA, Mathematics or Science, students must receive a state grade of B+ or higher.

For US History, students must receive a grade of B or higher.

Assessments with any passing score can be used to meet the requirements for ELA and Math IF and include the following:

- Subject of LangArts or Math
- State Test Code of 107: Golden State Examinations

If a student meets the requirements for one course category and also meets the requirements of the assessment, the category shows as met, as well as having met Additional 1 (or 2). For example, a student's passing score on an assessment meets GSSM, as does their semester grade on the course. The student reports in the extract with an X for the category and an X for the additional category.

Courses can be tied together using Schedule Rules of SAME TEACHER or BIND. This is used when course names are different (Math 1A, Math 1B, etc.).

Report Editor

Field	Description
Reporting Date	Indicates the date of the report. This field displays the current date and includes all students enrolled on this date.
Report Type	Indicates which report is being generated. <ul style="list-style-type: none"> • Summary Only includes whether the student qualifies for GSSM, the total count of qualification, and the categories for qualification. • Summary with Student Detail includes the information above and also in which courses the student met the qualification.
Format	Determines how the report generates. Select PDF or XML (state format).
Legal Name and Gender	When marked, the student's legal name reports.
Report only test and course grades that could meet a GSSM Requirement	When marked, only those courses or tests where the student received a score of B, B+ or Passing are included.
Report only students with a specific number of GSSM Requirements Met	When marked, students who have met the selected value for GSSM requirements are included. Select All or a value of 1-6.
Ad hoc Filter	Select which students to include in the extract by choosing a filter that was created in the Filter Designer.
Calendar Selection	Select the calendar of enrollment from which to pull student data. Calendars can be chosen by the active year, by the school name or by the year. Only one calendar can be selected at a time.

Field	Description
Report Generation	Choose the Generate Extract to display the results of the chosen items immediately. Choose the Submit to Batch option to generate the report at a specified time. This option is helpful when generating large amounts of data.

Generate the GSSM Report

1. Enter the desired **Reporting Date**.
2. Select either the **Summary Only** or the **Summary with Student Detail Report Type**.
3. Select the desired **Format** for the report.
4. If desired, mark the **Legal Name and Gender** checkbox.
5. If desired, mark the **Report only test and course grades that could meet a GSSM Requirement** checkbox.
6. If desired, mark the **Report only students with a specific number of GSSM Requirements Met** checkbox.
7. If appropriate, select an **Ad hoc Filter**.
8. Select the desired **Calendar** from which to report students.
9. Click the **Generate Extract** button or the **Submit to Batch** button.
