[District and State Preferences](#) | [District Preferences](#) | [State Preferences](#)

Tool Search: System Preferences

System Preferences allow for the configuration of settings for general use of Infinite Campus. These preferences should only be modified by a district administrator, as modifications affect system operations. Additional preferences may be contained within the module to which they relate.

Area(s) Affected

The available options have the following implications:

- **Student Number AFTER Name Fields.** The Student Number field displays as the third field on the Advanced Student Search screen.

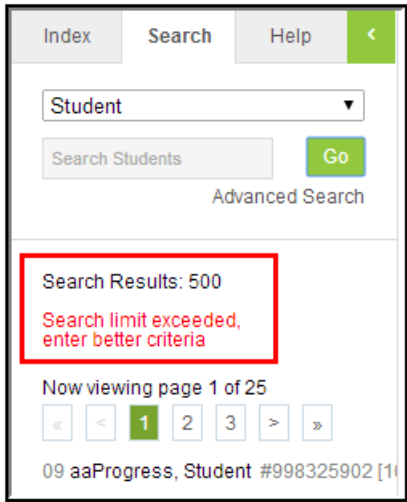

The screenshot shows the 'Advanced Student Search' interface. The search fields are: Last Name, First Name, Student Number (highlighted with a red box and containing '123456789'), SSN, and Grade. The right sidebar shows 'Enrollments' with a star icon and the text 'No student selected'.

- **Student Number BEFORE Name Fields.** The Student Number field displays as the first field on the Advanced Student Search screen.

The screenshot shows the 'Advanced Student Search' interface. The search fields are: Student Number (highlighted with a red box and containing '123456789'), Last Name, First Name, SSN, and Grade. The right sidebar shows 'Enrollments' with a star icon and the text 'No student selected'.

System Preference	Definition	Area(s) Affected
Search Limit	<p>The Search Limit system preference allows districts to limit the number of results returned by a search to improve search and system performance.</p> <p>► Click here to expand...</p> <p>The Search Limit preference has several levels of search limits: 100, 500, 1000, 3000, 5000 and No Limit. Once saved, the limit applies to the search results displayed on the Search.</p> <p>This limit does not affect generated batch reports. For example, when the limit for searching for students is set to 100 and an Ad hoc filter contains 150 students, all 150 students are included in the batch report.</p> <p>In the interest of search response time and system performance, Infinite Campus does not recommend setting the "No Limit" option.</p> <h3>Exceeding Search Limits</h3> <p>When a system preference is set, if search results exceed the limit specified in the Search Limit field, a red warning text advises the user to provide additional criteria that will yield a smaller set of results.</p>  <p>Note: For Course/Section searches, the limit includes both the course and section. For example, if the limit is set to 1000 and you received a search limit exceeded notice even though only 690 courses were provided, it means the number of associated sections is greater than 310.</p>	Searching in Infinite Campus

System Preference	Definition	Area(s) Affected
Attendance		
Enable Attendance Auditing	<p>The Enable Attendance Auditing system preference indicates whether the district is auditing student attendance records. Setting this preference to Yes requires a significant amount of data storage:</p> <p>The following reports are available for auditing attendance records.</p> <ul style="list-style-type: none"> • Attendance Change Tracking (Attendance > Reports) • Section Change Tracking (Attendance > Reports) • Attendance Change Tracking (Campus Instruction > Reports (Attendance)) <p>These reports are available to users (as long as tool rights are assigned) even when this preference is not set to Yes. When this preference is not turned on, data is not included in the report.</p> <p>Attendance auditing provides a completed history of attendance changes for compliance with electronic signature requirements and other state reporting obligations.</p> <p>This preference can be turned on and off at any time. Data is only stored for the time when it is turned on (set to Yes). Reports can still be generated when it is turned off, but only the data stored during the time it is turned on are returned on the reports.</p> <div> <p>Texas districts: This is a read-only option set to Yes and cannot be modified. This preference is critical for attendance auditing utilized by state reporting.</p> <p>Kentucky districts: This preference and the attendance tracking reports are not available.</p> </div>	Attendance
Enrollment Preferences		
Enrollment Overlap	<p>This preference determines how multiple enrollments in the same school year are handled within Campus. These settings are enforced when managing enrollments from anywhere within Campus (Student Enrollment, Census Enrollment, Student Locator, etc.).</p> <p>► Click here to expand...</p>	Enrollments

System Preference	Definition	Area(s) Affected
	<ul style="list-style-type: none"> Centralized Enrollment: Auto-End Overlapping Primary Enrollments. This option automatically enters an End Date for the old primary enrollment when a new overlapping enrollment is created. This date is the date before the Start Date of the new enrollment record. When a new Non-Primary Enrollment has the same date as another primary enrollment, both enrollments remain active. When the start dates are the same, a message displays indicating the primary enrollment cannot overlap with another primary enrollment. The existing enrollment ends with the entered start date and is set to No Show. Decentralized Enrollment: Allow Overlapping Primary Enrollments. Allows primary enrollments to overlap. Red exclamation points display next to the overlapping enrollments on the Enrollments tool. Overlap Warning: Auto-end overlapping primary enrollment. Warn the user. Warns the user when a new primary enrollment overlaps with another primary enrollment. The user may click OK and continue creating the enrollment. The new enrollment's start date is compared to any existing enrollment's start date. When the start dates are the same, a message displays indicating the primary enrollment cannot overlap with another primary enrollment. The existing enrollment ends with the entered start date and is set to No Show. Strict Prevent and Warn Primary: Prevent overlapping of primary enrollments in any calendar. Warn the User. Allow secondary enrollment overlaps. This option prevents the overlapping of primary enrollment records in any calendar. A warning appears when the user attempts to create a new primary enrollment which overlaps another primary enrollment. The enrollment is not saved and selecting OK on the warning message results in an error displaying. <div data-bbox="427 1666 1214 2051"> <p>This option DOES NOT allow partial enrollments to exist without there already being a primary enrollment. This prevents the ability to have two enrollments in the same calendar, even if the enrollments are in separate schedule structures and even if the enrollments are varying service types (primary, secondary, etc.). This option DOES NOT prevent the creation of a new Primary enrollment that overlaps a No Show enrollment.</p> </div>	

System Preference	Definition	Area(s) Affected
	<ul style="list-style-type: none"> • Strict Prevent and Warn Non-Primary: Prevent any primary enrollment overlap in any calendar, allow Non-Primary Enrollments with no primary enrollment. This option prevents primary enrollments from overlapping in any calendar, but Non-Primary Enrollments can overlap when there are no primary enrollments. <p>This prevents the ability to have two enrollments in the same calendar, even if the enrollments are in separate schedule structures and even if the enrollments are varying service types (primary, secondary, etc.). This option DOES NOT prevent the creation of a new Primary enrollment that overlaps a No Show enrollment.</p> <p>Maine Users ONLY: The Enrollment Overlap Behavior preference does not affect Non-Primary enrollments.</p> <ul style="list-style-type: none"> • This applies to both State and District Editions of Campus • Enrollments where Service Type = N: Special Ed Services may also overlap regardless of System Preferences. 	
Default Enrollment Local End Status	<p>Indicates which end status is automatically assigned to enrollments when enrollments are ended.</p> <p>This preference only appears when the Enrollment Overlap preference is set to the following:</p> <ul style="list-style-type: none"> • Centralized Enrollment. • Overlap Warning: Auto-end overlapping primary enrollment. Warn the user. 	Enrollments
Grading and Scores		
Allow GPA Bonus Points	<p>Indicates whether or not GPA bonus points are allowed for Score Groups.</p>	Score Groups and Rubrics Grading Scales

System Preference	Definition	Area(s) Affected
Disable Custom Comments when Posting Grades	When set to Yes, teachers are not allowed to enter individual comments on posted student grades.	Posting Grades Grading by Student (Section) Grading by Task (Section)
Number of Significant GPA Decimal Places	<p>Indicates how many significant decimals (decimals to the right of the period) are allowed for GPA values.</p> <p>This field may be read-only for certain states.</p> <p>This preference does not apply to Ad hoc-generated GPA data or the Total Grade Points column of the Class Rank Report.</p>	N/A
Require all scores for Composite Grading	<p>When set to Yes, teachers are not able to post a composite grade until the student grades that make it up have also been posted. This preference takes roster start and end dates into account for students who were not enrolled in the section for the full time covered by the composite setup.</p> <p>This preference causes a Bypass Composite Rule checkbox to display in the Score Groups and Rubrics. When marked for a grade, tasks with that grade are excluded from composite calculation.</p>	Grade Calc Options (Course Masters) Grade Calc Options (Courses) Grade Calc Options (Campus Instruction)
Census		

System Preference	Definition	Area(s) Affected
Birth Date Required for Student Locator	<p>This preference determines whether a staff person searching for a student using the Student Locator is required to enter a Birth Date as part of the initial search.</p> <ul style="list-style-type: none"> When set to No, users need to enter the Last Name, First Name and Gender in order for the Search field to be activated. When set to Yes, users need to enter the Last Name, First Name, Gender AND the student's Birth Date in order for the Search field to be activated. <div> Kentucky Users ONLY This preference is set to Yes and cannot be modified. </div>	Student Locator
Turn on Federal Impact Aid Tracking	<p>When set to Yes, the Impact Aid tool and Impact Aid Site field on the Address editor display. These fields are used to report Impact Aid information in the Impact Aid and Military Connections Site and Impact Aid Employment Reports.</p> <p>When set to No, the Impact Aid tool displays with a message indicating the preference is not turned on. The Impact Aid Site field on the Address editor does not display.</p>	Impact Aid Address
School Boundary Warnings	<p>When set to On, users receive a warning when attempting to enroll a student in a school outside of the student's geographical boundary.</p> <p>► Click here to expand...</p> <p>The School Boundary Warnings preference validates the student's primary address against the chosen school of enrollment. The warning does not stop the enrollment from being created; it is an indication that the student's primary address is outside of the enrollment boundaries for normal enrollments. District policy may require additional proof of residence or a student's need to be enrolled in the selected school.</p> <p>Having this preference on is recommended in larger districts that have multiple elementary schools, middle schools or high schools. When a larger district also uses a Centralized Enrollment process, this preference is also helpful in managing student enrollments.</p> <p>School Boundaries settings on the Household Address need to be established prior to enrolling students.</p>	Census Address Schools Enrollment

System Preference	Definition	Area(s) Affected
	<div data-bbox="427 190 1043 618">  </div> <p data-bbox="427 656 1174 763">When the preference is set to On, a warning message displays when enrolling a student into a school that is not associated with the student's household address.</p> <div data-bbox="427 777 1043 1088">  </div> <p data-bbox="427 1126 1206 1234">When the preference is set to Off, no warning displays when enrolling students, no matter if the Schools of enrollment have been associated with the address.</p> <p data-bbox="427 1279 1206 1503">When the Require Student Assignment checkbox is marked on the Calendar and this preference is set to On, an enrollment cannot be saved for a student if the student's address is outside of the entered school boundaries, unless an override type is established that allows the enrollment to occur.</p>	

System Preference	Definition	Area(s) Affected
Allow Duplicate Student State IDs	<p>When set to Yes, students may be assigned the same state ID number.</p> <p>When set to No, each state ID number must be unique; when a duplicate ID is entered, an error message displays.</p> <p>For districts that are part of a State Edition where state IDs are auto-generated, a value of <i>Pending</i> displays when adding a new student in the State ID field. This applies to the following states:</p> <ul style="list-style-type: none"> • Kentucky • Maine • Montana • South Dakota <p>When a state ID import is used, duplication could still occur. The preference does not prohibit an import from importing a duplicate ID. This is the responsibility of the state to ensure IDs are not duplication.</p>	Demographics Student Locator Add Person
Student State ID Method	<div> <p>This preference is called Other ID Method for BIE NASIS customers.</p> </div> <p>The Student State ID Method system preference determines how Student State IDs are generated for new students within Campus. This is only available for districts linked to a state edition.</p> <p>► Click here to expand...</p> <p>For State-linked districts, the Student State ID Method field indicates how Student State IDs are assigned to new district students.</p>	Demographics Student Locator

System Preference	Definition	Area(s) Affected
	<div data-bbox="432 190 1050 1220"> <p>District Preferences</p> <p>Search Screen Field Order: Student Number AFTER Name Fields</p> <p>Enrollment Overlap Behavior: Decentralized Enrollment: Allow overlap</p> <p>Allow GPA Bonus Points: No</p> <p>Turn on Federal Impact Aid Tracking: No</p> <p>Restrict 'Login As User' Feature On Users With Product Security Role: No</p> <p>Password Reset: No</p> <p>Search Limit: 1000</p> <p>School Boundary Warnings: Off</p> <p>Disable Custom Comments When Posting Grades: No</p> <p># of Significant GPA Decimal Places: 3</p> <p>Show Counselor in the Student Header: No</p> <p>Student State ID Method: State Assigned</p> <p>Staff State ID Generation: On</p> <p>Enable Student Assignment Validation: No</p> <p>Enable Sequential School Choice Application Processing: No</p> </div> <p>This field is likely to be set to a value of State Assigned, meaning Student State IDs are generated by the state in the format indicated by the state value. Any district-level Student State IDs are overwritten by the state-level value (if discrepancies exist).</p> <p>When the field is set to a value of Generation Off, Student State IDs are not automatically generated; instead, they manually entered via the Demographics tool.</p> <p>Enrollment records created through the Student Locator are not automatically assigned a Student State ID; however, there is an option to manually enter an ID (if known). Student State IDs created at the district level sync to the state.</p> <p>State Edition users are able view the Student State ID Method (and Student State ID Window) value enabled at the state.</p>	

System Preference	The following table describes each field value:		Area(s) Affected
	Definition	Description	
	District Controlled	Indicates Student State IDs are not automatically generated for new students within state-linked District Editions or at the state level. Users need to manually enter Student State ID data on the Demographics tool. Student State IDs entered at the district are synced up the state.	
	2 digit year + 7 digit random	Indicates new students are auto-generated with a Student State ID where the first two digits represent the current year followed by 7 random digits (i.e., 123334445, where 12 = current year and 3334445 = seven random digits).	
	9 digit random, no leading zeroes	Indicates new students are auto-generated with a Student State ID made up entirely of 9 random digits and no leading zeroes.	
	10 digit random, no leading zeroes	Indicates new students are auto-generated with a Student State ID made up entirely of 10 random digits and no leading zeroes.	

System Preference	Definition	Description	Area(s) Affected
	9 digit windowing sequential with leading zeroes	<p>Indicates new students are auto-generated a Student State ID made up of 9 digits where the 9 digit number is generated in sequential order (with leading zeroes) within the range designated by the Min and Max State Student ID Window values.</p> <p>For example:</p> <ul style="list-style-type: none"> • If Student State ID Window has a Min = 100 and a Max = 1000000000. • The first generated number would be 000000100 where 000000 = leading zeroes and 100 = Min number. • The second generated number would be 000000101 where 000000 = leading zeroes and 101 = the next sequential number within the Min and Max window. • This would continue in sequential order for each Student State ID generated. 	

System Preference	Definition	Description	Area(s) Affected
	10 digit windowing sequential with leading zeroes	<p>Indicates new students are auto-generated a Student State ID made up of 10 digits where the 10 digit number is generated in sequential order (with leading zeroes) within the range designated by the Min and Max State Student ID Window values.</p> <p>For example:</p> <ul style="list-style-type: none"> When Student State ID Window has a Min = 100 and a Max = 10000000000. The first generated number would be 0000000100 where 0000000 = leading zeroes and 100 = Min number. The second generated number would be 0000000101 where 0000000 = leading zeroes and 101 = the next sequential number within the Min and Max window. This would continue in sequential order for each Student State ID generated. 	
SSN Staff Search Only	When set to Yes, staff can only be searched by Social Security Number.		Staff Locator
Allow Multiple Primary Addresses	When set to Yes, users are allowed to have multiple Primary home addresses within Campus.		Census Address
Require Employment Record for District	The Require Employment Record for District Assignment preference requires staff members to have a District Employment record before having a District		District Employment

District System Assignment Preference	Assignment record. Definition	District Area(s) Affected
	<p>Districts that are not state-linked can modify this preference, as desired.</p> <p>State edition customers and state-linked districts do not have the option to modify this preference. The preference is determined by the state Department of Education and updated by Infinite Campus. The setting is view/read-only in those situations.</p> <div data-bbox="427 528 1214 618" style="background-color: #e1f5fe; padding: 10px; border: 1px solid #bbdefb;"> <p>This preference is enabled for users in Maine.</p> </div> <p>A corresponding District Employment Record is defined as such:</p> <ul style="list-style-type: none"> • The start and end dates for the District Assignment must match or fall within the dates of a single District Employment Record. • A District Assignment record cannot end after the latest District Employment End Date. • A District Assignment record cannot start before the earliest District Employment Start Date. <p>A validation occurs when a District Assignment Record is created without the existence of a District Employment Record.</p> <p>► Click here to expand...</p> <p>Employment Record Set to Yes</p> <p>A District Assignment record cannot be created/edited/saved unless there is a corresponding District Employment record.</p> <p>When ending a District Employment record, all District Assignment records in a district are automatically ended if there is no other District Employment record in the district that can completely contain the Assignment.</p> <p>For example, when there is a District Employment record that begins January 1 with no end date, and a second District Employment that begins February 1 with no end date and a District Assignment record that begins January 15 with no end date, the first District Employment record, when ended, ends the District Assignment record, because the remaining District Employment record cannot fully contain that assignment as it started prior to that record.</p> <p>When the district assignment starts AFTER the District Employment record ends, the assignment is not ended. The user needs to correct this situation in order to end the</p>	

System Preference	Definition	Area(s) Affected
	<p>employment record by doing one of the following:</p> <ul style="list-style-type: none"> • Changing the end date of the employment record to be later than the start date of the latest assignment • Deleting the assignment • Changing the assignment start date to be earlier than the employment end date <p>Employment records cannot be deleted when there is a corresponding District Assignment unless there is another Employment Record in that district that can contain all district employments. The following error message displays when (1) there are district assignments in that district, and (2) there is no other district employment that can contain the district assignments.</p> <p>When an employment record is saved and end date is entered, validation occurs to verify no District Assignment records start after the entered end date.</p> <p>Employment Record Preference Set to No When the District Employment Record preference is set to No, the staff person may have a District Assignment record without having a District Employment record.</p> <p>When the District Employment record is saved and an end date is entered, the same alert message displays. When the user chooses to continue, only those assignments that start prior to the end date entered is ended.</p> <p>My Data Impact When a staff person requests a change to the District Employment or District Assignment, no validation is done at the request level. Validation is done at the Request Approval level. The validations mentioned above are used and the request cannot be approved until the validation issues are resolved.</p>

Reference Cascade	<ul style="list-style-type: none"> • Seating Charts • Positive Attendance 	Affected
Enrollment End Date to Blended Learning Group Assignment End Date	<p>This preference determines whether a student's Blended Learning Group Assignment is ended when the student's Enrollment record is ended. The Blended Learning Group has the same End Date as the Enrollment record.</p> <ul style="list-style-type: none"> • Grade Book • Posting by Task/Student • Roster • Student Groups • Lockers • Course Attendance • Section Rosters • Grading by • Classroom Monitor • Mobile Attendance <ul style="list-style-type: none"> • When set to Yes, once the enrollment record is ended, the Blended Learning Group assignment is also ended. When there are Blended Learning Group assignments beyond the enrollment end date, they are also deleted. • When set to No, the Blended Learning Group assignment is NOT ended when the Enrollment record is ended. <p>See the Blended Learning Groups article for more information.</p>	Blended Learning Groups
Reporting		
Batch Queue Expiration Days	<p>The Batch Queue Expiration Days field of the System Preferences allows a system administrator to specify the length of time a Batch Queue report should display on the Batch Queue and Admin Queue tools before it is deleted.</p> <p>When reports should never be automatically deleted by the Batch Queue Maintenance task, this field should be left blank (null).</p> <p>The value entered in the Batch Queue Expiration Days field should reflect the maximum number of days a Batch Queue report is allowed to display on the Batch Queue and Admin Queue tools. When a report exceeds the maximum number of days allotted by this field, it is deleted by the automated Batch Queue Maintenance task executed by the Task Scheduler.</p> <p>A Batch Queue/Admin Queue report is not deleted when a user has manually designated otherwise it be spared from deletion per one of the following methods:</p> <ul style="list-style-type: none"> • Keep Until I Delete Option - This is set when the report is set up and assigned to the Batch Queue by marking the Keep Until I Delete checkbox from the Batch Queue Reporting Options. • Report Never Expires - This is set in the Expires After and Never Expires fields of the Batch Queue Detail editor of the Batch Queue / Admin Queue tools. <p>► Click here to expand...</p> <p>Depending on the setting indicated in the Batch Queue Expiration Days preference and the specific preferences</p>	Batch Queue Batch Queue (Admin) Task Scheduler

System Preference	Definition	Area(s) Affected
	<p>set for a report, the Batch Queue/Admin Queue tools displays one of the following types of values in the Expires After field of the Batch Queue Detail editor:</p> <ul style="list-style-type: none"> • No Expiration Configured. When a value of No Expiration Configured displays in the Expires After field of a report, either the report has not yet been generated or the Batch Queue Expiration Days preference does not contain an expiration value. • Expiration Date. When a date appears in the Expires After field of a report, it indicates the scheduled expiration date on which the report is automatically deleted from the Batch Queue List editors of the Batch Queue/Admin Queue tools. • Crossed-Out Expiration Date. When a crossed-out date appears in the Expires After field of a report, the Never Expires checkbox should also be flagged, indicating a user has manually excluded the report from deletion on the scheduled Expires Date of the Batch Queue/Admin Queue. The report remains in the queue until a user manually deletes it or removes the check from the Never Expires checkbox (in which case the report is deleted the next time the Batch Queue Maintenance task runs). 	
Data Source for Ad Hoc	<p>This preference allows users to choose what database to use when generating and creating Ad hoc Reporting Filters (using the Filter Designer Query Wizard and Pass-Through Query tools).</p> <p>Users can select to query data from the Data Warehouse database (default selection) or the Live Site.</p> <p>This preference only displays when the district has a Data Warehouse database available.</p>	Query Wizard Letter Builder Data Export Data Analysis Data Warehouse Settings
Fees		

System Preference	Definition	Area(s) Affected
Autopay Fees with Surplus Balance	<p>The Auto-pay Fees with Surplus Balance preference automatically pays any fee with surplus from another fee.</p> <p>When set to Yes, auto-pay happens in the following scenarios:</p> <ul style="list-style-type: none"> • When a deposit is created after adjusting a fee assignment where the total adjustments plus total payments is greater than the fee amount. • When part of a payment is voided on a fee assignment. This auto-pays any other fees that may exist (but not the one where the payment was just voided). • When a new fee assignment is created when there is a surplus balance. This auto-pays the newly created fee first and then any remaining surplus is automatically paid to other fees. <p>A message displays when making a payment for Students and Persons when a surplus exists alerting the office person the deposit is applied to other fees.</p>	<p>Fees (Student)</p> <p>Fees (Person)</p>

Display Fifth Year EL Monitoring	<p>This preferences allows student monitoring of English Learner services to be extended as a result of state changes (e.g., pandemic-related updates or testing delays). When set to Yes, the student's EL tool displays a read-only Fifth Year Monitoring label.</p>  <p>When set to No, this label does not display.</p>	English Learners
School Choice		

System Preference	Definition	Area(s) Affected
Enable Student Assignment Validation	<p>The Enable Student Assignment Validation is used in the School Assignment Process (School Choice). This preference works in conjunction with the School Boundary Warnings and the Enable Sequential School Choice Applications preferences.</p> <p>When turned on, a student needs to reside within the boundaries of the chosen school or have an Override indicating the student can be enrolled in the school. Setting this preference to Yes also requires the School Boundary preference to be set to Yes. When this is turned on, the schools assigned to the Schools tab within the address need to be marked as the Resides school.</p> <p>When this preference is set to yes, the following logic is used in the Enrollment Roll Forward tool:</p> <ul style="list-style-type: none"> • Continuous programs - If the student is participating in a continuous program and the current school does not offer the next grade, rather than mapping the next school from the school boundary table the processing will map the next school based on the program boundaries for the continuous program. If there is no mapping in the program boundaries that offers the next grade, then the student will roll using the school boundaries. • Next grade level in same school - When student assignment is used the roll forward will ensure that the student is within school boundaries. If the student has an override to attend the school for a program that requires program boundaries, the roll forward will also ensure that the student is within the program boundaries. If the student is outside program boundaries or school boundaries and does not have an override that would allow the enrollment the student will be rolled into their next calendar using school boundaries processing. • Promotion to new building based on School Boundary mapping - With student assignment a student may have a cluster of schools within their school boundaries that all offer the same grade level, however one of those schools will be marked as the Resides school. The student is allowed to attend any of those schools that are within their boundary, however the Resides school will be the default when rolling along school boundary mappings. • Destination Calendar and grade on the options page - Specifying a destination calendar/grade is only allowed for calendars and/or grades that do not require student assignment. 	School Choice

System Preference	Definition	Area(s) Affected
Sequential School Choice Application Processing	<p>This preference processes a student's applications for school enrollment in an orderly fashion, based on the student's ranking of desired schools as part of the School Choice process. When this preference is set to Yes, applications will be processed based on the student's first, second or additional choices for school enrollment.</p> <p>School Choice allows a student to submit as many applications for school enrollment as necessary, or as the student/parent is willing to submit. Using this preference ranks the applications based on the student's preferences and desires.</p> <p>Use this in conjunction with the Enable Student Assignment Validations and School Boundary Warnings preferences.</p> <p>Processing applications using the Process Application Wizard will only process approvals for the highest priority of a student's application.</p>	School Choice
