**Classic View:** Scheduling > Courses > Section > Grading by Task

**Search Terms:** Grading by Task

The **Grading by Task** tool allows office personnel and teachers to enter scores for grading tasks. A list of grading tasks and standards assigned to the course displays at the top. When selected, scores will be entered for that task/standard.

The screenshot shows the 'Grading by Task' interface. At the top, there is a 'Save' button and a dropdown menu set to '3 - Term Grade'. Below this is a 'Fill Grades' section with a table that has columns for 'Task', 'Percent', 'Score', and 'Comments'. The 'Task' column contains '3 - Term Grade'. The 'Percent' and 'Score' columns are empty. The 'Comments' column is a large text area. Below the table, there are checkboxes for 'Select items to fill: Percent', 'Score', and 'Comments', and buttons for 'Fill Empty' and 'Fill All'.

Below the 'Fill Grades' section is a table with columns for 'Name', 'Percent', 'Score', and 'Comments'. The table contains four rows of student data:

Name	Percent	Score	Comments
09 Student, Abby #123456	81	B-	
09 Student, Brian #234567	98	A+	
09 Student, Camryn #345678	95	A	
09 Student, Daniel #456789	81	B-	

At the bottom of the screenshot, the text 'Section Grading by Task' is displayed.

Grading tasks are assigned to courses on the [Course Grading Task](#) tool. In order for teachers to record scores using the [Post Grades](#) tool, a [Grading Window](#) must be open. A grading window is only open for a period of time, allowing teachers to enter grades up to a certain date. Then the office staff can generate report cards and such. If teachers need to change grades after a Grading Window has closed, district policy should determine the procedure to follow.

## Grading by Task Editor

The following image defines the options available on the Grading by Task editor.

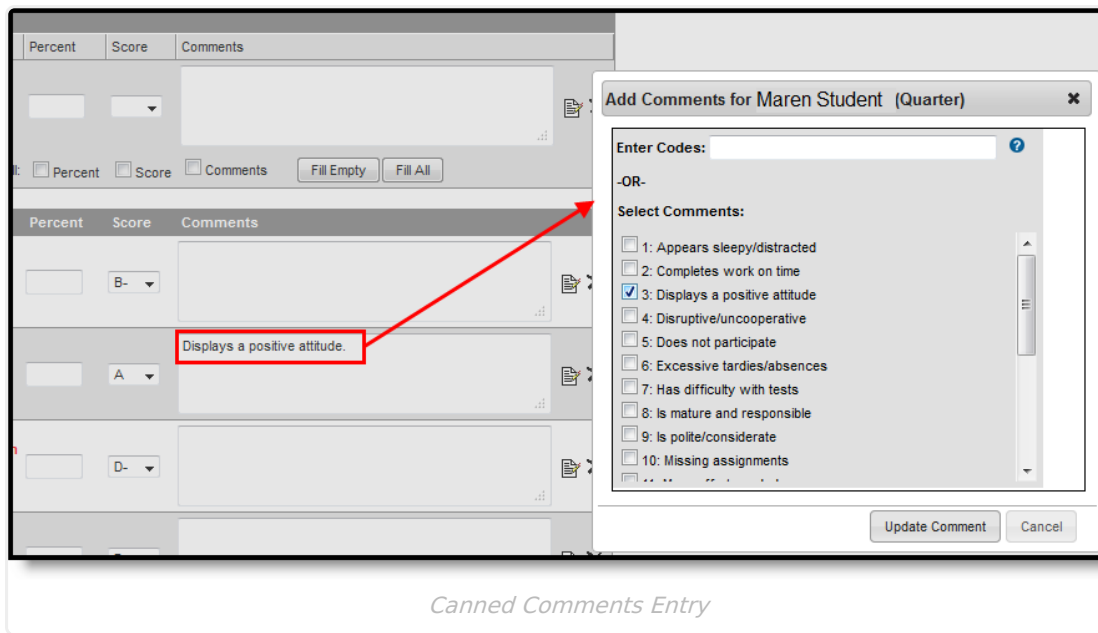

The screenshot shows the 'Grading by Task Editor' interface. At the top, there is a 'Save' button and a dropdown menu for '3 - Term Grade'. Below this is a 'Fill Grades' section with a table. The table has columns for 'Task', 'Percent', 'Score', and 'Comments'. The first row shows '3 - Term Grade' with a score of 81 and a grade of B-. Below the table, there are checkboxes for 'Percent', 'Score', and 'Comments', and buttons for 'Fill Empty' and 'Fill All'. A list of students is shown below the table, with columns for 'Name', 'Percent', 'Score', and 'Comments'. The students listed are Abby, Brian, Camryn, and Daniel. Callouts explain various features: 'Student's last and first name, grade level of enrollment and student ID number. If the student has dropped the section, the name displays in red.' points to the student names. 'List of all grading tasks assigned to the course that are available for grading.' points to the '3 - Term Grade' dropdown. 'Mass fill scores for all student by selecting the score from the dropdown list and clicking the Fill All option to apply that score to all students.' points to the 'Fill All' button. 'Or, click the Fill Empty option to apply the score to students who do not already have a score.' points to the 'Fill Empty' button. 'Canned Comments field entered by clicking the Notepad icon, and removed by clicking the X.' points to the 'Respectful student.' comment. 'Percentage the student received in the course and the letter grade assigned to the percentage.' points to the '81' and 'B-' values.

## Grade Comments

Text can be entered in the text field about the student's behavior, class participation or other information related to the score or student (2500 character limit). These comments print on report cards and be visible on other Grading by Task tools.

Canned Grading Comments can also be entered for the scores. These comments are created in the [Grading Comments](#) tool in [System Administration Grading and Standards](#). Multiple comments can be entered for a student by marking the appropriate checkbox. These comments populate in the Comments field when the user selects the **Update Comment** button.

Remove selected comments from the pop-up window by clicking the **Cancel** button. Remove comments from the **Comments** field by clicking the X.
